To lead the international development of Islamic financial services, and become the most trusted and sustainably most profitable Shari'a-compliant bank in the world

Mission

To deliver superior innovation and customer service excellence while protecting and enhancing the interests of all our stakeholders.

Values

Leadership,
Accountability,
Partnership

Chairman's Message

Praise be to Allah the Almighty, and Peace and Blessings be upon our Prophet Muhammad (PBUH), his family and companions.

Dear Esteemed Shareholders,

Assalamu Alaikum Warahmatu Allah Wabarakatuh...

On behalf of myself and members of the Board of Directors of Kuwait Finance House ("KFH" / the "Bank"), I would like to present to you the 2021 KFH Group Annual Report.

The Covid19 pandemic has imposed several challenges and produced various economic complications during the past two years. Although the virus risks on global economy continued, KFH has managed to add to its long record of accomplishments other significant achievements which have contributed to the mitigation of the negative impacts of the pandemic in geographies where the bank operates worldwide. KFH achievements have clearly highlighted the bank's pioneering role in maintaining sustainable development, using Islamic finance tools, which have globally recorded strong performances during the year. We had a proactive vision in encountering challenges and continuing our outstanding role in the development of society and meeting customers and shareholders aspirations, taking into consideration the latest global variables, such as climate change.

KFH Group efforts have driven Islamic banking industry to take the lead, with the Group achieving impressive indicators as one of the largest Islamic banks worldwide and a pioneer in the Islamic financial services industry. We have achieved, by the grace of Allah, significant growth in all basic financial indices and maintained remarkable ratios on assets and shareholders' equity. Also, we have succeeded in reducing costs and increasing profits. Our proactive plans have managed to improve asset quality indicators and troubled debts coverage ratios.

Net profit attributable to shareholders reached KD 243.4 Million in 2021 i.e., an increase by 64.0% compared to last year. Earnings per share reached 28.59 Fils i.e., an increase by 61.2%. Our efforts have succeeded in improving economic environment, enhancing projects, and meeting customers` aspirations. As such, the finance portfolio reached KD 11.4 Billion i.e., an increase by KD 608 Million or 5.7% compared to 2020. KFH Group assets increased

to reach KD 21.8 Billion i.e., an increase by KD 286 Million or 1.3% as at the end of 2021. Our competitive and distinguished performance has attracted more customers and investors with customers` deposits increased reaching KD 15.9 Billion in 2021 i.e., an increase by KD 550 Million or 3.6%, thus maintining our customers trust.

KFH has succeeded in enhancing the group's capital base as the capital adequacy ratio increased from 17.53% by end of 2020 to 18.69% by end of 2021.

KFH is continuing its role in leading the Islamic finance industry and offering innovative products and services that would play a significant role in achieving the economic vision and supporting growth and sustainability. We can improve economic environment while observing environmental, social and governance aspects and contributing to the global endeavor to achieve climate safety goals. To this end we have issued the Green Sukuk to finance social and environment- friendly projects. We are proud of having successfully led the arrangement of a sustainable Sukuk issuance, the first of its kind by an Islamic financial institution. Also, it is the first global sustainable Sukuk for Tier 2 capital in favor of KFH-Turkey amounting to US$ 350 Million.

KFH seeks to meet customers and shareholders aspirations and maximize their equity by adopting the highest governance standards, maintaining their interests according to a fully integrated transparency framework and ensuring the financial stability of the banking system.

KFH has played a pivotal role in restoring post-pandemic stability. We have proactively shouldered our responsibilities in addressing challenges as a leading Islamic bank. Our employees have played a significant role in following applicable protocols and maintaining customers' safety while providing banking services.

Digitalization

KFH is one of the leading banks to offer innovative digital banking solutions through the launch, for the first time in Kuwait, of several banking solutions. Our online digital services on mobile applications have gained great interest and trust from customers on account of their easiness, efficiency, and diversity. The number of online banking transactions executed by KFH customers through KFHonline or mobile application approximated 160 million in 2021 i.e. a growth by 25% compared to last year.

KFH has achieved remarkable success in initiating the national payment system through a fully integrated application compatible with the CBK systems and corresponding to the Swift Global Network. This application would mitigate the cost of local banks payments and achieve the highest ratios of integration according to regulatory requirements. Accordingly, KFH has set the corner stone and the starting point of a huge package of future services such as mobile payments, etc.

Our information technology was one of the remarkable success stories during the year. We have launched new innovative products and e-services based on the latest technical calibers and technology systems. Keeping up with accelerating technology, we have developed various KFH applications and program platforms. Also, we have issued regular reports which have contributed to the mitigation of Covid19 impacts on customers namely the SME category.

Youth Capabilities and Inherent Powers

As approximately 250 thousand youths (males and females) are expected to join the labor market in the next five years, it has become imperative for KFH to accommodate the potentials of this category. The Innovation and Communication Department at KFH is seeking to accomplish this mission and enhance KFH market share in this sector by implementing short and mid-term strategies and plans. The bank aims to establish a long-term plan and invest internal and external resources to make KFH the employer of choice for the youth.

We have launched several successful campaigns, designed mainly for customers and shareholders, based on field research and specialized studies, thus contributing to the improvement of the internal environment. The bank has witnessed remarkable and sustainable growth as the efficiency of high-quality assets increased and our market share of personal financing strengthened significantly during 2021.

Group Human Resources continued to focus on its Nationalization agenda where we continued to maintain a healthy 76% Kuwaitization ratio, develop national talents and demonstrate our role in, and contribution to, the Kuwaiti Economy. KFH continues to be amongst the largest employers of Kuwaitis in the Private Sector, highlighting KFH as the employer of choice in Kuwait. We have acquired and developed national talents where the Kuwaiti nationals recruits for the last few years ranged between 98% - 100%, most of them fresh graduates. We are keen on implementing the succession plan and working on having Kuwaiti nationals in Middle and Executive Management, which would achieve labor nationalization goals at KFH. This practice would help KFH to transform itself into an organization best able to adapt to the changing environment and support KFH's agenda to become a more efficient and cost-effective organization as well as to meet KFH's nationalization goals.

Governance and Sustainability

Sustainability Strategy Development Process emanates from KFH vision to enhance its pioneering global position in Islamic finance services development and raise the bank level to be the most profitable, sustainable, and trustworthy Islamic bank worldwide. This process is an activation of KFH message to achieve the highest levels of innovation and distinction in the field of customer service. Accordingly, KFH has become the highest rated bank among Islamic banks in Kuwait according to MSCI ESG standards. Our distinguished performance had led to an increase in KFH Group market value by 35% as at the end of 2021 on annual basis. Also, KFH Group market value was the highest during the year, exceeding KD 7 billion.

We have raised the ceiling of commitment by restructuring our long-term sustainability vision and determining our economic, environment, social and governance goals through all 6 factors: financial, human, social, natural, intellectual and health.

KFH Group has what it takes to keep moving forward and make huge achievements in sustainability strategy as per the latest international principles, criteria and frameworks. KFH Group provides services to customers in the GCC, Asia and Europe through 526 branches, more than 1600 ATMs and approximately 15 thousand employees in all our subsidiaries in Kuwait, Turkey, Bahrain, Malaysia, and Germany.

Our financial services cover increasing numbers of customers in various geographies worldwide, thus increasing our market share day by day. Our diversified services have succeeded in attracting more customers whose numbers increased by 6% in Kuwait, 11% in Turkey, 28% in Germany and 10% in Bahrain as at the end of 2021 compared to 2020.

KFH Bahrain is a major contributor to the economy with banking, commercial, investment and finance services in various geographies worldwide including USA and Europe. KFH Malaysia is continuing its remarkable presence in East Asia countries. KT Bank AG in Germany is the first Islamic financial institution in the Euro Zone and one of the most important stations as it plays a major role in facilitating commercial activities by establishing a link between Kuwait and Europe.

The Group banking subsidiaries play a significant role in establishing performance integration and enhancing the spread of Islamic financial services to various geographies worldwide. Also, they contribute to the enhancement of the group revenues and financial position with a share reaching 89.5% of the operating income for the year 2021.

As we are committed to realizing significant returns for shareholders, the Board of Directors has made its recommendations to the General Assembly to make cash distributions of 12%, bonus shares of 10% and distribute returns on investment deposits and saving accounts according to the schedule below:

Table (2) Depositors Profit

Account Type	2021	2020
"Khumasiya" Investment Deposit	1.700%	1.700%
"Mustamera" Investment Deposit	1.450%	1.450%
"Sidra" Investment Deposit	1.100%	1.100%
Dima Investment Deposit (12 months)	1.275%	1.275%
Dima Investment Deposit (6 months)	1.150%	1.150%
Long Term Investment Plans	1.225%	1.225%
Investment Saving Accounts "Saving"	0.200%	0.200%

Distinct Developmental Role

We have continued our pioneering national role in promoting and financing government development projects. We have introduced a variety of retail, corporate and SME banking and financing solutions. KFH financing portfolio is diversified and serves various vital sectors including energy, water, electricity, infrastructure, and others.

With the support of a specialized professional banking management, providing full financing services to such promising segment, KFH Group lays particular emphasis on small and medium enterprises as one of the sectors leading the development process.

KFH will, insha'Allah, continue to promote development efforts by financing and supporting mega projects e.g., leading the Islamic segment of financing granted to Kuwait Petroleum Company, participating in the finance of the construction of the new terminal at Kuwait International Airport and supporting SME with various tools, while observing the highest performance standards of Islamic banking products and services according to the best professional practices.

Group Treasury and Financial Institutions Department has taken several significant pre-pandemics steps to improve liquidity level. This led to the strengthening of liquidity at the group level to enhance short and long-term investment returns, consider prolonging funding term and diversify the liquidity management process at the group level. As part of wider finance strategy, KFH has issued the first Tier1 Capital Mudaraba Sukuk of US$ 750 Million, thus consolidating the capital base and diversifying sources of funding.

KFH enjoys high creditworthiness. In 2021, Moody`s assigned long-term A1 and short-term P-1 ratings with a stable outlook. Fitch Rating Agency affirmed KFH`s long-term and short-term IDRs at A+ and F1 respectively, with a negative outlook considering Kuwait's sovereign rating in Feb. 2021. We are proud of these ratings, and we will continue to maintain safe and flexible banking standards.

Pioneering Social Initiatives

KFH combined its success, supported by indices and figures, with its outstanding social role. It has introduced a new concept of the role of money and economic activities in serving society in conjunction with development activities and citizens aspirations. KFH contributed remarkably to several strategic social initiatives which had a favorable impact on society and national economy, including an initiative to pay KD20 Million in debts to release approximately 10,000 defaulting debtors. Also, it contributed largely to the KD 10 million Covid-19 government relief fund which was announced by the Central Bank of Kuwait. KFH has also concluded various agreements with the Kuwait Red Crescent Society to subsidize human relief and aid efforts

We are committed to placing Islamic finance as a main contributor to sustainable growth and to apply the principles of Islamic banking and responsible investment. We shall utilize all our resources to serve society and develop our abilities.

Best Islamic Financial Institution Worldwide

In appreciation of the remarkable contributions which the group has made to the Islamic finance industry in all the markets where it operates, KFH has received various global awards e.g., "World`s Best Islamic Financial Institution 2021" from Global Finance, "Best Domestic Bank in Kuwait 2021" from Asiamoney, and several other distinguished awards at the group level, thus reflecting the pioneering position which KFH enjoys locally or in international markets.

We would like to avail this opportunity to convey our sincere gratitude and appreciation to our shareholders for their continuous and valuable support. We are confident by the grace of Allah that we will continue to achieve rewarding returns for our shareholders and depositors. Also, I would like to avail this opportunity to convey our sincere thanks and appreciation to all our employees at the group level as well as the members of the honorable Fatwa & Shari'a Supervisory Board for their outstanding efforts.

Finally, I would like to convey our sincere thanks, gratitude, and appreciation to His Highness the Amir of Kuwait Sheikh Nawaf Al-Ahmed Al-Jaber Al-Sabah, may Allah safeguard him, His Highness the Crown Prince Sheikh Mishal Al-Ahmed Al-Jaber Al-Sabah, may Allah safeguard him, and His Highness, the Prime Minister Sheikh Sabah Al-Khaled Al-Hamad Al-Sabah. Our thanks and appreciation are also extended to the Central Bank of Kuwait, regulatory authorities, partners, and all parties concerned.

May Allah grant us Success.

Hamad Abdulmohsen Al-Marzouq
Chairman

Fatwa and shari’a Supervisory

Board’s Report

The Annual Report of Fatwa and Shari'a Supervisory Board's 2021

Kuwait Finance House

To the respected KFH shareholders,

Assalamu alaykum warahmatu Allah wabarakatuh,

Praise be to Allah, the Almighty, and Peace and Blessings be upon our Prophet Muhammad (PBUH), his family and his companions.

We have reviewed and endorsed the policies, products, services and the activities that KFH had carried out in 2021. We have also conducted the necessary review to provide our opinion on KFH compliance with Shari'a rules and principles through the fatwas, resolutions and recommendations that we have issued.

To achieve this compliance assurance, the Fatwa and Shari'a Supervisory Board held 28 meetings during the year 2021, in which it had reviewed and endorsed samples of the contracts and agreements after obtaining the necessary information to issue its opinion. The Shari'a Research and Advisory Department conducted its review on contracts, agreements and policies and procedures as per Fatwa and Shari'a Supervisory Board's resolutions in addition to the Group Internal Shari'a Audit conducted audit exercises on randomly selected samples of all operations and transactions of KFH with the shareholders, investors, clients and others in accordance with the Annual Shari'a Audit plan for all the Bank's departments and subsidiaries. The Shari'a Board has also received the periodic reports that the Group Internal Shari'a Audit Department has prepared on the Shari'a audit process and operations, site visits and compliance status of the process and implementation of the fatwa and resolutions issued by the Fatwa and Shari'a Supervisory Board.

We have also obtained all necessary information and clarifications to give us sufficient evidence to provide reasonable confirmation that KFH and its subsidiaries had complied with Shari'a rules and principles in all its operations that have been presented to the Fatwa and Shari'a Supervisory Board.

Through the process and steps that we followed to ascertain the compliance of KFH to the Shari'a rules, we confirm the following:

First: the contracts and transactions which KFH had entered into during the financial year ending on 31 December 2021as presented to us had complied with the Shari'a rules, principles and resolutions and recommendations of KFH Fatwa and Shari'a Supervisory Board.

Second: the profit distribution and loss bearing on the investment accounts are in compliance with the terms of our approval in accordance with the rules and principles of Shari'a.

Third: the Zakat calculation is made in accordance with the Company Zakat Manual issued by Kuwait Zakat House, and in accordance with the resolutions and recommendations of KFH Fatwa and Shari'a Supervisory Board.

Peace be upon our Prophet Muhammad, his family members and companions and praise be to Allah, the Lord of the Universe.

Sheikh/ Professor Dr Sayyid Mohammad Sayyid Abdul Razaq Al-Tabtabae
Chairman

Sheikh/ Professor Dr. Mubarak Jazza Al-Harbi

Dr. Al-Ghareeb previously held the position of Assistant Dean at Shari'a and Islamic Studies College and College of Law at Kuwait University. Dr. Ghareeb previously held the position of member of the Supreme Committee for working on applying Islamic Shari'a Law

Economic
Development 2021

International Monetary Fund (IMF) expected the global economy to recover driven by higher government spending and vaccines rates against Covid 19. In April 2021, IMF said that Kuwait GDP expected to grow by 0.7% in 2021 (up from negative 8.1% in 2020) and 3.2% in 2022. In October 2021, IMF revised up its economic projections and expected the Kuwait economy to continue its post- pandemic recovery in 2022 with a growth of 4.3% supported by external economic conditions and global rise in oil price.

The substantial hydrocarbon reserves and the very high per capita income underpin forecasts of the global rating agencies (such as Moody`s) to the strong Kuwait economy. Kuwait holds the world's seventh-largest proven oil reserves and has the GCC`s largest proven oil reserves. According to the current rate of production, Kuwait`s oil reserves may last for 90 years. Along with the relatively low production costs, hydrocarbon resources could be the long-term driver to income and wealth. Moreover, Kuwait achieved historic substantial fiscal surplus and significant foreign assets. That said, Moody`s estimated that the assets of the sovereign fund managed by KIA exceed to a large extent the country's GDP and government debt.

The management of monetary policy in Kuwait is credible and effective, as evidenced by the relatively low and stable levels of inflation since the shift from the dollar peg to linking the dinar to a basket of undeclared currencies. The regulations of the Central Bank of Kuwait are generally strong and prudent, and this is reflected in the financial stability of the banking system during periods of macroeconomic volatility.

According to the U.S. Energy Information Administration (EIA), the average 2021 annual price of Brent crude oil climbed from USD 41.8 in 2020 to USD 70.9 per barrel in 2021, an increase of 69.4%. Brent crude oil price was the highest during the year in 20 October 2021 at USD 81.76 per barrel as result of steady draws on global oil inventories, which averaged 1.9 million barrels per day (b/d) during the first three quarters of 2021. In addition, oil price increased on 4 October as a result of the decision of OPEC + has agreed to continue with their current output plan. During the fourth quarter, especially at the end of November, the new Omicron variant emerged which led to a decline in oil prices to USD 69.53 per barrel at the beginning of December 2021. At the end of 2021, oil price increased to USD 77.24 per barrel, an increase of 9% and 50.8% compared to November 2021 and end of December 2020 respectively.

On October, price of US West Texas Intermediate (WTI) reached its highest levels in seven years after a gradual increase during September and October, with a price of USD 85.64 per barrel on 26 October 2021. The average West Texas Crude price was at USD 68.2 per barrel in 2021, an increase of 73.3% on its average price of USD 39.2 in 2020. Several developments in 2021 contributed to the hike in oil prices. First, the US crude oil inventories were run down because of the effects of cyclone Ida on the crude oil production in the Gulf of Mexico. Second, Opec+ members decided to continue with the approved increase in crude oil production of 400 thousand b/d in November as opposed to a larger increase. Third, purchases of oil and oil products increased because of the increase in the price of natural gas with electricity generators in parts of Asia and Europe having to switch from natural gas to oil in order to cut down fuel costs. Finally, crude oil prices go on rising because of large and steady draws on global oil inventories.

Reports by the EIA point out that global inventories decreased by 1.9 million b/d in Q3 2021, the fifth consecutive draw which reached a quarterly average of 2.2 million b/d. The US Energy Information Administration estimates that the US crude oil inventories will stand at 420.9 million barrels in the year ending September, which is the lowest level since September 2018. Since March 2021, US crude oil inventories shrank by 81 million barrels (16%). At the end of December, the price of West Texas Crude closed at around USD 75.3 per barrel, an increase of 13.9% on November of the same year and 55.8% on end December 2020.

As a stimulus step for the Kuwaiti economy and to reduce the burden on citizens, Kuwaiti banks postponed the financing installments for 6 months. Also, Kuwait's government approved a draft bill as part of FY 2020/2021 budget to extend an additional credit of KD 600 million dedicated to bonuses for frontline workers tackling the corona virus pandemic. It also allocated KD 500 million as expenses to confront the pandemic. The 2021 spending of KD 24.1 billion has become the largest in the history of Kuwait.

According to Forbes Middle East magazine, the Kuwait sovereign wealth fund ranked third globally and first in the Arab region with assets under management of USD 692.9 billion thanks to the exceptional profits the fund achieved from stock markets, especially US market, during the pandemic.

Kuwait's Corona vaccination program was launched in December 2020. In the first few months of 2021 more than a million people had been vaccinated, i.e., nearly 25% of the population. As of July 28, over 3 million doses of vaccine were administered in Kuwait, enough to provide complete cover to about 35% of the population, and in line with the Ministry of Health plan of immunizing 2 million individuals out of a population of 4.3 million by September 2021. By late September more than 60% of the population had received the first dose. More than 20% of the population are now completely immunized. 3.22 million people had been fully vaccinated by 28 December 2021, i.e., about 74% of the population. 117.7 people or 2.72% of the population received the first dose, bringing the total number of the vaccinated to 3.33 million, i.e., about 77% of the population.

Acting Group Chief Executive Officer's Message

Kuwait Finance House (KFH) is a customer-oriented Islamic financial institution as it always considered customer as a partner and one of the fundamental elements of KFH success. KFH's 4-decade journey has not been easy; however, it was distinguished by outstanding performance, accomplishments and significant results considering the huge volume of well-planned and studied initiatives. It was inspiring to realize the contributions made to the Islamic finance industry and the new horizons it opened to diversify the innovative Islamic financial products and services. Also, KFH's journey was effective in terms of status, robustness and efficiency in encountering challenges and crises and witnessed several developments taking into account its compatibility with the latest financial technology and the unique digital banking solutions applied. KFH is a home for employees and a school for leaders. KFH journey was and still is the center of global interest. KFH has maintained its leading position as a pioneer in Islamic and financial services industry operating through a regional and global banking network covering 7 regions worldwide, 526 branches, 1,600 ATMs and 15 thousand employees.

Financial Indicators

In affirmation of its pioneering position, KFH has exhibited several positives in its financial indicators. KFH enjoys high liquidity ratios and a solid capital base. These factors support KFH regulatory compliance on one hand while on the other they support business growth, diversify sources of finance, increase the bank finance and investment abilities, and enhance expansion in infrastructure projects and various economic sectors in Kuwait and the regions where the group operates e.g., Turkey, Bahrain, Germany, Malaysia, and Saudi Arabia.

KFH has achieved remarkable financial results for the year 2021 despite the local and global challenges encountered. Net profit distributable to shareholders for the year 2021 reached KD 243.4 Million i.e., an increase by 64.0 % compared to last year.

Total assets reached KD 21.8 Billion i.e., an increase by KD 286 Million or 1.3% compared to last year 2020. Depositors accounts reached KD 15.9 Billion i.e., an increase by KD 550 Million or 3.6% compared to 2020. Capital adequacy ratio reached 18.69%, thus exceeding the ratio imposed by regulatory authorities. This ratio affirms the strength of KFH financial position.

Non-Performing Financing (NPF) improved as the Group's NPF ratio reached 1.6% by the end of 2021 (according to CBK calculation basis) which is a favorable ratio given the economic conditions brought about by the pandemic. The debts coverage ratio from provisions only is remarkable as it reached 319% for KFH Kuwait and 326% for the group by the end of 2021.

We continue our endeavor to improve asset quality, develop credit policies and governance systems according to best practices. We are keen on increasing investment in green Sukuk in the financing portfolio, namely projects related to carbon emissions, so that we could participate effectively in building a new Kuwait while we play a vital role in driving the wheel of growth for the benefit of present and future generations.

Strategy

KFH has a fully comprehensive and clear strategy focusing on big data management. Open and neutral partnership models of our operations aim to increase flexibility, quality, transparency, and efficiency which our customers seek, as per a clear strategy. Also, it enables us to develop and enhance group products, improve customer service to be the leading bank in Islamic banking industry, expand our creditworthiness, lead growth across main geographies, business sectors and customers. We aim to increase our presence and impact in the banking industry by interconnecting and bonding the group banks. We continue to strengthen our presence in main international markets as we have long term investments in the Middle East and other regions worldwide. We manage banks in Bahrain, Saudi Arabia, and Turkey. Our investments in Asia "KFH Malaysia" have expanded, while our branch in Germany is remarkably growing fast.

Strategy sector has exerted tremendous efforts during the year 2021 through a careful follow-up on all group activities and sectors as well as providing executive management with reports.

A Pioneering Role in Supporting Development Projects

KFH continues its role and endeavor in supporting national economy by introducing a variety of retail, corporate and SMEs banking and financing solutions. KFH played a pivotal role in Kuwait's 2035 vision. It has participated in major development projects in the GCC and international markets in various fields e.g., infrastructure, energy, water and electricity, transportation, communications, housing, real estate development, industry, oil, and other projects which have created a paradigm shift and prosperity in our society, not to mention they created jobs and provided national expertise.

Concerning SMEs, KFH provides all types of cash finance services e.g., Murabaha, Tawwaruq, Ijara and non-cash finance e.g., all types of L/Cs and L/Gs in addition to various e-services.

KFH Capital

In 2021, KFH Capital, the investment arm of the group, led the successful arrangement of sovereign and corporate Sukuk issuance deals exceeding US$ 15 Billion in favor of a diversified customers in various sectors and geographies.

KFH Capital participated in the issuance of KFH Sukuk as part of tier1 capital amounting to US$ 750 Million and the issuance of the first sustainability Sukuk for Kuwait-Turkey as part of tier 2 capital amounting to US$ 350 Million.

Major deals executed during the year comprised Sukuk issuance deal for the Saudi company ARAMCO (US$ 6 Billion), Islamic Development Bank (US$ 1.7 Billion), Islamic Bank of Dubai (US$ 1 Billion), Ahli United Bank in Kuwait and Bahrain (US$ 600 Million each) and government of the United Kingdom (US$ 700 Million).

Real estate investments reflected KFH Capital remarkable performance. The company played a significant role in managing and maintaining customers' investments successfully through various asset classes and multiple geographies. Also, it has ensured the flow of cash distributions to most of its investment funds during the pandemic. Furthermore, it has successfully launched the e-trading service in the USA market through "KFHonline" as more than 3,500 new customers used this service in 2021.

Innovative Products and Services

We have successfully launched, in 2021, several innovative products, services and digital technologies which have, by the grace of Allah, exceeded customers' expectations. The services and products comprised the following:

A package of services launched for the first time in Kuwait, such as:

- Instant transfer to KFH-Turkey accounts.
- Executing ATMs transactions using smart phones and watches.
- Requesting financing using e-signature through KFHonline app.
- Instant online FX transfer with competitive prices to serve a large group of customers.
- Instant printing of ATMs cards using Civil ID or KFHonline within three minutes.
- Instant printing of cheque Books via KFH GO.

KFH also launched a range of services including:

- Opening bank accounts online for new customers without having to visit the branch by using e-signature through MYID app.
- Smart personal saving options with MY Saving Plan through KFHonline.
- Launching the "KFHonline" appl on the e-platform of Huawei

- Opening bank accounts/deposits in KFH-Turkey for private banking customers.
- Money market funds for high-net-worth customers.
- Launched two distinguished Mastercards World Elite and World in collaboration with Kuwait Airways Corporation.
- Launched digital pay services to KFH cardholders on Garmin, Samsung and Fitbit Pay.
- Launched IVR service for the new call center to improve customer service.
- Starting to redesign the branch network using the best digital applications to reduce crowding of customers and improve their banking experience with a focus on providing digital services without having to visit the branch.
- KFH Auto showroom, the largest finance center in the Middle East to fulfill customers' needs and requirements in the purchase of cars and other finance products. The center provides more than 22 finance services and products.

KFH was the first bank in Kuwait to launch Instant Card Issuance service, without the need for a pre-request, through 100 ATM machines covering all KFH branches in addition to certain malls. The branches network is considered the largest in Kuwait in terms of the number of machines available. The service enables the instant issuance of cards within 3 minutes in various methods including self-service, the iPad available with the branch employees or a smart phone using QR Code.

Customer satisfaction is a crucial factor in KFH growth and sustainability. KFH focus is always aimed to enhance customer experience. In this respect, KFH has launched CX Hero program for employees to build a strong culture concerning customer-focused service, enhancement of customer satisfaction and encouragement of employees to exceed customers' expectations.

Group Treasury and Financial Institutions Sector

As part of KFH endeavor to develop the money market for Islamic banks and being a leading and active market maker locally, the Group Treasury and FI Department has developed new credit facilities for top- rated banks locally and regionally to better distribute risks and maintain a prudent balance to achieve highest returns on additional available liquidity. The Group Treasury continued its growth by closing several syndicated and bilateral deals, locally and internationally, thus recording a standard high value, exceeding US$ 2.3 Billion in all transactions. These deals reflect KFH leading position in the Islamic banking services market in fulfilling customers' needs.

Group Treasury has relentlessly expanded its investment and trading activities in Primary and Secondary Capital Markets. Being the most active market maker in the secondary market, the Treasury Dept. has executed Sukuk transactions worth more than USD 16 billion during 2021. Meanwhile, it continued to execute orders in the secondary market for KFH-Kuwait's first Sukuk issuance.

Kuwait Finance House maintained its top primary dealer position in the IILM Sukuk program. Also, KFH achieved the top rank dealer in the secondary market. It is an unprecedented event that a financial institution occupies the top rank dealer for the IILM Sukuk Program in both primary and secondary markets. As a part of Capital Market strategy to diversify exposure, the Treasury Department invested in GBP Sukuk issued by the UK government and increased its Sukuk issuance exposure. Group Treasury continued to introduce new innovative products and brought onboard, during the year, several new large corporate clients to deal in Islamic derivatives, hedging instruments and solutions for FX and profit-rate risk such as Shari'a compliant FX Options, FX Al Waad, and Profit-Rate Swaps (PRS), in addition to its existing products. Also, it built a new partnership with a leading global bank to be their Market Maker for GCC currencies through a digital platform. Furthermore, it introduced fully automated FX live rates for online banking FX transactions with back-to-back covering from international markets to meet customers` needs with cutting edge processing and settlement technology and to optimize the speed of transactions by utilizing Straight Through Processes (STP), while increasing the ability to penetrate markets and expand customers' base with executed FX volume of over USD 50 billion during the year.

Information Technology

KFH Information Technology Department achieved several accomplishments in 2021. Considering the integration between the new e-services and the Public Authority for Civil Information, the bank has activated and launched several new e-services in addition to the services launched previously in collaboration with PACI, thus facilitating banking services for customers. IT Department has established SOA platform which allows the launch of new products swiftly and efficiently. Also, it launched KFHonline application on Huawei International platform and STP system (outgoing swift payments).

Coping with advanced technology, KFH has sought to achieve cloud integration among all protection systems, thus allowing security information and event management products and services (SIEM), which are gathered by SIM department and SEM department, to provide analysis and make real time decisions through security alerts produced by the e-network systems. Furthermore, KFH has developed Covid19 Credit Control Reports Package by automating the monthly credit control reports according to CBK mandate to report the impacts of the pandemic. Related reports comprise reports on customers credit operations including MME. In addition, KFH has upgraded the debit card encryption technologies to CVN18, launched a new setting matrix for credit cards, developed IMAL system, launched the new upgrading system GFS and restructured the gold account product. To enhance customers online purchase experience by using credit cards and to mitigate fraud operations, KFH has applied EMV 3D Secure (2.0).

Group Operations

KFH Group Operations continued to play a vital role in enhancing KFH rigorous digitalization strategy. KFH has become the leading bank in adopting innovative technology that maximizes productivity, minimizes cost, and maintains the lowest risk ratios and most sound control measures.

In 2021, we launched and engaged in several transformation projects and adopted Fintech concepts e.g., (e-Form) which is considered a pioneer e-channel exhibiting all data without any manual interference.

One of the prominent achievements in card operations is the conversion of all KFH Debit & Credit Card portfolio to offline Pin verification based on central bank mandate. This process was completed before due date.

We were able to establish business rules in our payment system which has enabled us to convert 40% of our outgoing SWIFT messages to STP (Straight Through Processing), thus, minimizing both messages life cycle & manual interference for IBAN countries transactions with TRY & USD to Turkey and SAR to KSA.

We have enhanced customer experience in Retail Banking as we have finalized the e-payment process via CRM soft copy which has accelerated the disbursement process to be 1 day after completing CBK 2 days mandatory grace period.

We have launched the industry authority's electronic gate which will enable users to have full 360 degrees view and control on all industrial real estate finance products offered by KFH.

We have automated the issuance process of various collaterals in the systems (e.g., real estate – stock – cash – finance ...etc.) related to the new Shari'a compliant credit and finance facilities.

Operations department has performed several intellectual initiatives to adopt more advanced technological specifications e.g., SWIFT ISO20022: to enhance consumer finance work procedures. Operations has managed to minimize the period required to execute transactions from 5 days to 1 day.

Risk and Business Development Department

Group Risk Department has made several accomplishments. Digitalization has transformed normal risk reports into interactive dynamic reports, thus, significantly improving the integration process and risk control and analysis.

Group Risk Department has developed and implemented non-performing finance strategy framework. It has updated NPF strategy in all subsidiaries, used early alert systems, concepts, and tools to improve asset quality and applied best international practices to better control balance sheet and improve the Group assets quality.

Group Risk Department has succeeded in making a major shift in the AML Technology plan. It has conducted an intensive evaluation of the technological part to cover all AML and terrorism finance programs and applications, thus protecting the bank from non-compliance risks.

Group Risk tendency has been upgraded to better cope with the current fluctuating economic conditions.

For Building Operational Resilience framework and roadmap, we have delivered 3rd party risk framework and policy, developed methodology for 3rd and 4th risk assessment, and embedded procurement and vendor management procedures. Related benefits comprise ensuring transparency around 3rd party outsourcing, ensuring outsource services to suppliers are aligned with KFH internal risk appetite as well with internal policies and ensuring 3rd and 4th party business continuity capacity and capability

Shari'a Department

KFH Shari'a Department continued to perform its functions and tasks despite the challenges imposed by Covid-19 pandemic. Group Internal Shari'a Audit Department has executed Shari'a audit functions on KFH sectors and departments according to the 2021 approved plan. Shari'a Research and Advisory Department has reviewed all contracts, products, agreements, and policies received from KFH departments and sectors, replied to Shari'a questions and inquiries, and raised necessary inquiries to the Fatwa and Shari'a`s Supervisory Board for their thoughts about

Shari'a matters. To spread Shari'a awareness and culture among customers and employees, all Shari'a inquiries received from customer on the phone have been answered and economic jurisprudence announcements have been prepared and posted to employees through KFH e-channels. Also, several training programs have been designed and executed for employees as the number of Shari'a programs for KFH employees reached 510 programs.

KFH Talents

During 2021, Group Human Resources was a pioneer in fostering and acquiring talents matching KFH present and future visions and aspirations. Human Resources continued to improve business protocols which have ensured the safe and secured return of employees to their posts at KFH. Human Resources and Public Relations have launched several campaigns to encourage KFH employees to take the Covid19 vaccination and ensure their safety and good health.

We have introduced virtual training platforms to provide employees with the required tools and enable them to achieve their goals. Our investment in the development of the (HiPos) program and future leaders' program (Successors) represents 37% of our training spending.

Human Resources has achieved diversification and inclusiveness in its employees' structure as the ladies' presence in the "Forsa" talent development program reached 48%. This representation is the highest compared to preceding years. Group Human Resources conducted a Ladies Pulse Survey addressed to KFH Lady employees to fulfill their needs and aspirations. We have focused on increasing the talented ladies' presence in KFH team.

KFH continued to fulfill its commitment to enhance and support national labor as it increased the number of Kuwaiti nationals in middle management posts, thus leading the Kuwaitis percentage in the middle management to reach 60%. Concerning Executive Management, Kuwaiti employees represent 77% as KFH continued to focus on promoting national talents. In addition, KFH continued to bear its responsibilities in attracting youth national talents from the manpower market as it employed 344 Kuwaiti citizens during 2021.

We have enhanced investment in training present and future leaders through continued cooperation with Major universities and educational institutions. The third batch of HiPos employees was enrolled in intensified programs presented by Harvard Business School, to further refine the skills and capabilities of our future leaders. Concerning Executive Management, we have coordinated with three of the best business schools globally, Harvard Business Schools, INSEAD and IMD.

During 2022, we shall implement new and prudent practices which we have learnt in 2021 and improve our institutional procedures and working methods as a pioneering organization seeking continuous development. With the grace of Allah, this would enable us to continue acquiring and developing our talents in the future.

Social Contributions for More than 4 decades

Over nearly 45 years, KFH has been putting human and social services on top of its priorities. The bank took a leading role in all aspects of social responsibility according to the highest standards. KFH participated in several strategic social initiatives e.g., paying KD20 Million in debts to release approximately 10,000 defaulting debtors. Also, it contributed largely to the KD 10 million Covid-19 government relief fund which was announced by the Central Bank of Kuwait; it made a solo additional contribution to the fund.

KFH signed an agreement with Kuwait Red Crescent Society to execute relief and medical projects for the Syrian refugees and needy persons in Jordan in cooperation with the Jordan Red Crescent. Also, it signed two agreements with King Hussain Cancer Foundation and the Kuwaiti Red Crescent for the cancer treatment of refugees from Syria and Gaza strip in Jordan.

KFH enjoys a long and distinguished record of partnership and support to Kuwaiti youth initiatives and encourages them with digital applications and solutions. KFH support to the entrepreneurs and to KFH`s ambassadors reflects its leading role in encouraging the Kuwaiti youth and enhancing the concept of entrepreneurship business.

We have organized several social initiatives designed specially to suite each society segment. KFH activities and events were highly recognized and appreciated by all society members. Youth and students occupied a major part of KFH social responsibility. Accordingly, we have renewed our strategic partnerships with various universities and schools in the private and government sectors to support students and youth.

As part of its leading role in social responsibility and its endeavor to support and enable the persons with special needs, KFH has signed a partnership agreement, first of its kind in the banking sector, with "Kuwait Society for the Handicapped" according to which it shall carry out various initiatives including the training of a group of students with special needs in various KFH departments. Banking wise, KFH enables customers with special needs to benefit from its banking services and products without bearing any additional charges. A special branch is allocated for the customers with special needs in each governorate. The branch comprises appropriate car parking, wheelchairs, and all other necessary requirements for this segment of customers. KFH has also provided one ATM machine at least in each branch to serve the persons with special needs. Customers may access the ATM machine easily in a completely private glass room. The ATM glass room may be accessed by card and has the hearing aids facility. KFH has highly specialized staff, having knowledge in sign language, to provide services to the persons with special needs. This service reflects KFH keenness to provide banking services to all society segments according to the highest service quality standards.

KFH made significant contributions to Kuwait Foundation for the Advancement of Sciences, Public Authority of Manpower, Institute of Banking Studies and other social initiatives which have strengthened KFH pioneering position in the sustainable social development.

Concerning (ESG) standards, KFH is the first bank to exceed boundaries of sustainable development (ESG), thus reflecting its long compliance with the Shari'a principles of transparency, justice, and empowerment. In this respect, KFH has focused on a comprehensive sustainability strategy that aligns the bank activities with the best international practices including the increase of awareness on the significance of protecting the environment and agriculture. KFH signed a strategic partnership agreement with SEDRA Initiative and the voluntary Green Dream team to fund the first stage of the project which comprises the plantation and maintenance of 500 trees for 3 years which is the average period required for the trees to become self-sufficient.

20 Prestigious Global Awards

During 2021, KFH won 20 highly reputable awards at the group level from various global institutions and entities specialized in finance and business, in appreciation of its outstanding performance, contributions, financial indicators, excellence factors, digital initiatives and innovation in products and services, customer's satisfaction, strategic relations and ethical compliance.

KFH won the "Best Islamic Financial Institution for 2021" Award from Global Finance in the 14th ceremony of the Magazine's annual awards. Global Finance has also awarded KFH the "World's Best Islamic Projects Provider" Award, "World`s Best Islamic Takaful" Award for KFH Takaful, the "Best Islamic Financial Institution in Turkey" Award for KFH-Turkey and the "Best Islamic Financial Institution in Europe" Award for KT Bank AG-Germany.

Among other prestigious awards, KFH won highly reputable "Best Private Bank for Islamic Services" Award from the Private Banker International Magazine in its 31st awards ceremony

A flagship institution

The status of our institution, customers loyalty, shareholders trust, Board of Directors support, Executive Management performance and employees' dedication are all factors which have driven our pride high and induced us to shoulder more responsibilities to maintain this huge legacy and flagship institution by enhancing KFH pioneering role and strengthening its position as a world leading Islamic financial institution.

AbdulWahab Essa Al-Rushood
Acting Group Chief Executive Officer

Financial Performance
of the year 2021

Financial Performance
of the year 2021

During the year 2021, the financial performance of the group improved significantly, as profits approached the same levels as of year 2019; before the spread of COVID 19 pandemic. All important financial indicators improved, despite the negative effects of the pandemic on the global economy during the past two years, which confirms the strength of KFH's financial position, the quality of its assets and its ability to face crises and manage them with high efficiency, as KFH continued to grow its assets and achieve good returns for shareholders and depositors, in addition to the continued strengthening of the bank's capital base, which is evident from maintaining a high capital adequacy ratio that exceeds the minimum required ratio by regulatory authorities as well as for the other important regulatory ratios.

KD 243.4 Million Net profit attributable to shareholders

Net Profit Attributable to Shareholders for the year 2021 reached KD 243.4 Million i.e. an increase by 64.0% compared to 2020. Earnings per share for the year ended 2021 reached 28.59 fils compared to 17.74 fils for last year; an increase of 61.2%.

1.9% Growth in Total Operating Income

Total operating income for the year ended 2021 reached KD 811.0 million; an increase of 1.9% compared to last year. Net operating income for the year ended 2021 reached KD 503.1 million; an increase of 0.7% compared to last year.

Total Operating Expenses/ Total Operating Income Ratio

Total operating expenses/ total operating income ratio continues to maintain its level, reaching 37.97% for the year 2021, which improved - by the Grace of Allah- over the past years while it exceeded 51% as at end of 2014.

52.3% Decrease in charged Provisions in 2021 for KFH Group

Total provisions and impairment decreased at the group level to reach KD 135.4 Million; a decrease by 52.3% compared to 2020, due to financing and investment provisions charged during 2020 resulting from the negative impacts of the COVID 19 pandemic in addition to the hedging provisions charged to encounter the possible impacts of the pandemic during last year.

1.3% Growth in Group Assets

KFH Group Assets reached KD 21.8 Billion i.e., an increase by 1.3% compared to 2020.

5.7% Growth in Finance Portfolio

KFH Financing receivables reached KD 11.4 Billion i.e. an increase by 5.7% or KD 608 Million compared to 2020. The finance portfolio represents 52% of total assets and commands 71.6% of deposits. Volume growth continued for both corporate and individual sectors.

Non-Performing Financing Ratio

Non-Performing Financing Ratio improved to reach 1.6% (as per the Central Bank of Kuwait Regulations) for the year of 2021 compared to 2.2% for 2020.

3.6% Growth in Depositors' Accounts

Customers deposits increased to reach KD 15.9 Billion i.e. an increase approximating KD 550 Million or 3.6% compared to the end of 2020, which reflect the depositors trust in KFH Group as a result of the banking services provided by the bank and the achievements of digitalization.

Return on Assets and Shareholders' Equity

Return on average shareholders' equity reached 12.8% as at the end of 2021 compared to 7.6% in 2020, while return on average assets reached 1.4% as at end of 2021 compared to 0.9% in 2020.

Capital Adequacy

Capital Adequacy Ratio improved to reach 18.69% for the year of 2021, i.e., higher than the Central Bank of Kuwait required ratio, compared to 17.53% for last year 2020.

The Shareholders' Equity reached KD 1.9 Billion as at the end of 2021, at the same level of last year.

Proposed Dividends to Shareholders of The Bank

The Banks' board of directors proposed the distribution of cash dividends to shareholders by 12% for the year ended 31st December 2021 (10%: 2020), and issue bonus shares of 10% from the issued and paid-up capital (10%:2020). This distribution is recommended considering the distributed returns on investment deposits and saving accounts. This distribution is conditioned to the ordinary general assembly approval and fulfillment of official and legal procedures.

Proposed directors' remuneration of KD 1,096 thousand for the year ended 31 December 2021 (KD 608 thousand in 2020 : KD 942 thousand in 2019) is considered within the limit permissible as per local regulations, subject to ordinary general assembly approval.

Summary of Significant Financial Results	KD Million				
	2021	2020	2019	2018	2017
Net Profit attributable to shareholders of the bank	243.4	148.4	251.0	227.4	184.2

Corporate Governance Report

Introduction:

Considering the growing interest in governance, which has become one of the main requirements for banks and shareholding companies, KFH Board of directors was keen on adopting a government-based banking system through the continuous development process which KFH conducts on governance framework.

KFH Board of Directors exploits all potentials to adopt governance and transparency standards according to the best global practices through the review and development of policies and procedures applied to ensure full compliance with the instructions of the regulatory authorities on governance. KFH fully meets its corporate governance obligations and implements all mandatory requirements issued by CBK. KFH implements all governance rules and regulations at Kuwaiti Banks and Shari'a Control governance instructions at Kuwaiti Islamic banks. KFH Board of Directors is always keen on spreading governance awareness at all administrative levels. KFH Board seeks to go beyond regulatory authorities' instructions to achieve leadership in governance. KFH business runs smoothly and safely and copes with the fast developments which the world is witnessing in the fielding of banking industry.

The Board governance committee oversees governance process, provides necessary consultancy services and assists the Board of Directors in fulfilling its regulatory obligations relating to appropriate governance practices by providing a set of guidelines on corporate governance and playing a leading role in drawing up governance policies.

In 2021, the Governance Committee also supervised the KFH `s sustainability system development project as well as KFH Sustainability Report 2019/2020 in accordance with GRI Sustainability Reporting Standards.

Governance Committee has played a leading role, in 2020, in executing CBK updates on governance rules and regulations at Kuwaiti banks, issued September 2019, to cope with the best global practices and the local laws issued recently.

KFH conducts a regular review on governance updates and the standards issued by global organizations on governance. It also conducts a periodical review on governance applications to assess their efficiency against all challenges encountered by the bank and to protect the interests and rights of shareholders and stake holders and ensure that all information reach on time with great transparency and neutralism in implementation of KFH approved disclosure policy.

KFH ensures that all subsidiaries implement the group's approved corporate governance policy in addition to the instructions imposed by other regulatory authorities inside and outside Kuwait. All subsidiaries are subject to auditing and periodical review to improve governance performance at the group level.

KFH ensures its strict adherence to all Shari'a rules and regulations in all transactions. KFH Fatwa & Shari'a Supervisory Board enjoys full independence and support of the board to conduct its activities as per the Fatwa & Shari'a Supervisory Board regulations. The Committee comprises highly reputable and recognized scholars, having vast experience in Shari'a science. The general assembly of the bank assigns these scholars and determines their remunerations. KFH has an independent Shari'a Audit Department comprising Shari'a specialists to ensure KFH compliance with Fatwa & Shari'a Supervisory Board Committee decisions. KFH has an independent Shari'a auditor to verify that the Fatwa & Shari'a Board decisions are being implemented properly to support KFH Shari'a Matrix.

The Corporate Governance Manual of KFH and its subsidiaries have been prepared and published on KFH's website. KFH has always taken the lead in implementing all various aspects of governance rules and regulations. KFH ensures to abide by all new standards and regulations. KFH continues its operations to develop governance systems and mechanisms at the group level in accordance with the best global practices on governance.

Highlights on the Governance Applications in KFH During 2021

Despite the challenges the world witnessed in 2021 due to the continuing outbreak of the pandemic and its direct impact on the economy and corporates, the solid foundations (standards and pillars) established and implemented by the KFH`s BoDs, by adopting an effective governance framework, have effectively contributed to managing the risks imposed by the pandemic. They also contributed to the rapid adoption of the necessary measures for the business continuity and the provision of services to customers without interruption, in coordination with the regulatory authorities.

In KFH, we adopt a model that has three lines of defense:

First line: the business units which contains risks.

Second line: Risk management function and Regulatory Compliance functions which observe the bank compliance with regulatory laws and instructions, both functions are independent of the first line of defense.

Third Line: The internal audit function, which is independent of the first and second lines of defense.

This led to flexibility in conducting business and meeting regulatory requirements, as well as carry through the vision of the KFH Board of Directors in achieving its strategic objectives for the benefit of its shareholders.

Most Important Components of KFH Governance Framework

1. Governance at KFH Group level:

KFH Group is committed to comply with the group's corporate governance policy that is transparent and credible in accordance with the highest international standards and best practices. The Board Governance Committee is keen to review the group's performance periodically as well as review and update the policies and procedures that regulates the group's business to ensure that they meet the needs of the group and to serve them in order to achieve its strategic goals and ensure the existence of mechanisms that facilitate communication between the group companies, in addition to the existence of means to monitor governance implementation at the group level.

2. Disclosure and Transparency:

In KFH we adopt a clear framework that strengthens the principle of disclosure and transparency and ensures fairness and equality in a timely arrival of information to stakeholders, as required by the regulatory authorities as well as international best practices.

The KFH`s disclosure policy constitutes one of the pillars of corporate governance in the bank which adopts a clear framework that enhances the principle of disclosure and transparency and ensures fairness and equality in the timely delivery of information to stakeholders as required by the regulatory authorities and as per the best international practices.

The first Sustainability Report issued by KFH in accordance with the Global Reporting Standards (GRI) is a strategic ESG disclosure document in the Bank's history. By issuing this report, KFH aims to conduct a comprehensive and consistent evaluation that reflects KFH's practices and management approaches at all levels of sustainability. In addition, the sustainability report paves the way for future disclosures in a sustainable manner by focusing on the importance of stakeholder participation as an integral part of KFH and the decision-making process that serves and protects their interests.

3. Enhancing the Code of Business Conduct:

In KFH we rely on the highest standards of adherence to the Code of Business conduct, starting from the members of the Board of directors to all employees of KFH. Therefore, the Board of directors are keen to strengthen the framework of the code of business conduct through strict policies and procedures to ensure that KFH enjoys integrity and credibility, the Board of Directors annually reviews the policies and procedures regulating the framework for Professional behavior, which consists of the following:

- Code of Business Conduct policy.
- Conflict of Interest policy.
- Related Party Transaction policy.
- Information Security Policy.

- Whistle Blowing policy.
- Anti-Bribery and Corruption policy.
- Insider information Policy.

The Board of Directors review and sign the commitment to these policies, as well as the employees of KFH on an annual basis for review and signing the policies, in KFH we are keen to spread the culture of adherence to ethical standards through training programs and awareness publications periodically with the support of the Fatwa and Shari'a Supervisory Board.

4. Taking Care of KFH Employees:

At Kuwait Finance House (KFH-Kuwait), we are proud of establishing an ethical, fair and balanced work environment to prepare our employees as future leaders in accordance with Shari'a principles and our corporate value. Accordingly, our business model is based on a value creation to empower and actively engage our employees at all levels of management. Their needs and feedback are reflected in all our strategic initiatives and practices, which can be summarized in five main pillars:

- Inclusive work environment
- Sustainable economic and social well-being
- Professional and career development
- Effective communication
- Culture, professional ethics and transparency

In KFH we do believe that the human capital is the basis of our success, so we are keen to create a positive working environment for our employees, and to ensure the development of our human capital as well as attract the best talents, we invest in training and development through our partnerships with the best service providers in the world and provide the best Training programs for our employees.

Despite the impact of the pandemic on the training sector, the measures that we have taken in KFH and the rapid transition in providing programs and training courses using modern technology have contributed to the continuation of our business, as 2,919 employees received training programs and courses at a rate of 75,994 training hours, with an average of 8 hours per employee, as we are contracted with world-class training service providers such as - INSEAD – IMD - LinkedIn - IQUAD Learning Solution - Thomson Reuter - Harvard Business School, the Training Department evaluates the effectiveness of the programs periodically, and to ensure the effectiveness of the training programs, we assesses the employees' need for training courses, each according to its field, competence and experience Through the provision of specialized programs that cover the bank's business as a whole, and leadership programs to develop KFH human capital according to the approved succession plans to qualify future leaders.

KFH provides opportunities for employees to continue their studies by providing scholarships to study masters degree on an annual basis, KFH also cares for newly graduated employees through their participation in the training program called (Forsa) in which we train them and refine their skills to prepare them to be the future leaders of KFH, the program includes practical training in the bank as well as intensive training courses inside and outside the State of Kuwait.

At KFH, we involve our employees in developing and improving the work environment by conducting an annual survey to catch their opinions, hear their ideas, comments, and evaluate them for KFH's business, under the slogan (Together we make the difference).

The participation rate reached 88% and employee participation increased by 7% in 2021 compared to 2020. In KFH we keen to have a professional and flexible communication circle to represent "voice" of the bank's employees and work to support their requirements and respond to their inquiries. The bank has 6 business partners assigned to the bank's various departments and they sometimes represent a point of contact between multiple business areas.

We are proud in KFH that women constitute 22.64% of our total workforce during 2021, with an emphasis on our endeavor to increase this percentage by attracting talents and competencies that are compatible with KFH strategic vision.

5. Social Responsibility:

KFH believes in the importance of contributing to the support and stability of society. In 2021, KFH supported the community through social programs implemented in a systematic way to ensure its sustainability and create real and

long-term added value. Within the strategic CSR framework, KFH launched health, educational, cultural and sports initiatives, including:

- In collaboration with Ministry of Justice, KFH paid over KD20mn in debts to release approximately 10,000 defaulting debtors.
- In collaboration with Kuwait Red Crescent, KFH has made donations to distribute school bags and accessories to the children of the needy families.
- KFH launched Breast Cancer Awareness campaign in collaboration with Al Salam Hospital and Flare Fitness to increase awareness about breast cancer.
- In collaboration with Al Salam Hospital and Dasman Diabetes Institute, KFH launched a campaign to raise and support diabetes awareness.
- As part of its social responsibility and its keenness to support students and youth, KFH singed strategic partnerships with the College of Business Administration and the College of Engineering and Petroleum at Kuwait University as well as a partnership with GUST.
- Under "Increase good deeds in Ramadan" program, KFH launched social voluntary initiatives during the holy month of Ramadan.
- KFH had signed a strategic partnership agreement with the Kuwait Society for the Welfare of Handicapped according to which KFH shall make various initiatives including the training of a group of disabled students in various KFH departments.
- In addition to the humanitarian and societal contributions in Kuwait, KFH provided support to Syrian refugees in Jordan by signing an agreement with the KRCS to implement relief and medical projects for Syrian refugees and vulnerable people in Jordan in cooperation with the Jordanian Red Crescent. Also, KFH has signed two agreements with KRCS and the King Hussein Cancer Center Foundation to treat cancer patients from the Syrian refugees and the people of the Gaza Strip in Jordan.

Contribution to Support Various Community Actions

24,360,003	1,906,684	4,513,914	517,340.500	18,787

6. Environment Protection:

KFH pays special attention to many institutions that are interested in setting policies for allocating shares of their investments in the areas of development and the environment. After the United Nations and many international organizations and financial indicators on global stock exchanges have adopted the concept of sustainability on one hand and ethical commitment on the other hand, it is expected that Islamic banks, and KFH in the fore front will assume its position due to its ethical role, a legitimate governance framework, and an unlimited commitment to the foundations and perspectives of the ethical values in its contracts and transactions and the relationship with stakeholders. Including positively reflecting on the societies in which Islamic finance operates.

KFH has provided social responsibility products that serve the requirements of the future, and by issuing green sukuk in financing projects that benefit the environment and society and attracting investment institutions interested in Islamic instruments. KFH participated at issued green sukuk by the Indonesian Government.

During 2021, KFH has undertaken several initiatives, including:

- KFH launched (KFH is Green) campaign to raise to raise environment awareness and encourage environment friendly initiatives.
- Signing a strategic partnership with the Public Authority for Agriculture Affairs and Fish Resources to enhance its efforts in the plantation and greening campaign of Kuwait areas for the agricultural season 2021/ 2022.
- A strategic partnership with the Sidra Initiative and the Green Dream Team to support the efforts of protecting the environment, through awareness initiatives to reduce carbon emissions and afforestation to increase greening and environmental diversity in Kuwait.
- The landscaping initiative of the capital streets and facilities in partnership with the Capital Governorate.
- Organizing beaches cleaning campaigns in cooperation with the Public Environment Authority to spread environmental culture and raise the level awareness of the significance of keeping Kuwait environment clean.

7. Shareholders and Stakeholders Rights:

At KFH, we guarantee the protection for the rights of shareholders and stakeholders by implementing policies and procedures that ensure fair treatment of all shareholders, including those in the minority. KFH has a unit to follow up shareholder affairs and a unit to follow up on investor affairs that work continuously to serve KFH shareholders and investors, KFH shareholders enjoy equal rights without discrimination. They have the right to attend meetings of the general assembly (regular and extraordinary) and vote on its clauses, and they have the right to choose the members of the Board of directors, as well as the right to obtain profits and the right to obtain information and data related to the bank activities and all other rights due to them according to what is stated in the articles of association and in accordance with Laws and regulations from regulatory authorities.

Governance Requirements Shall be Highlighted in the Annual Report as follows:

Ownership Shares: as 31/12/2021

Authority	Ownership Form	Country	Ownership Ratio
Kuwait Investment Authority	Direct	Kuwait	24.079%
Public Authority for Minor Affairs	Direct	Kuwait	10.484%
General Foundation of Awqaf	Direct	Kuwait	7.296%
Public Institution for Social Securities	Indirect	Kuwait	5.238%

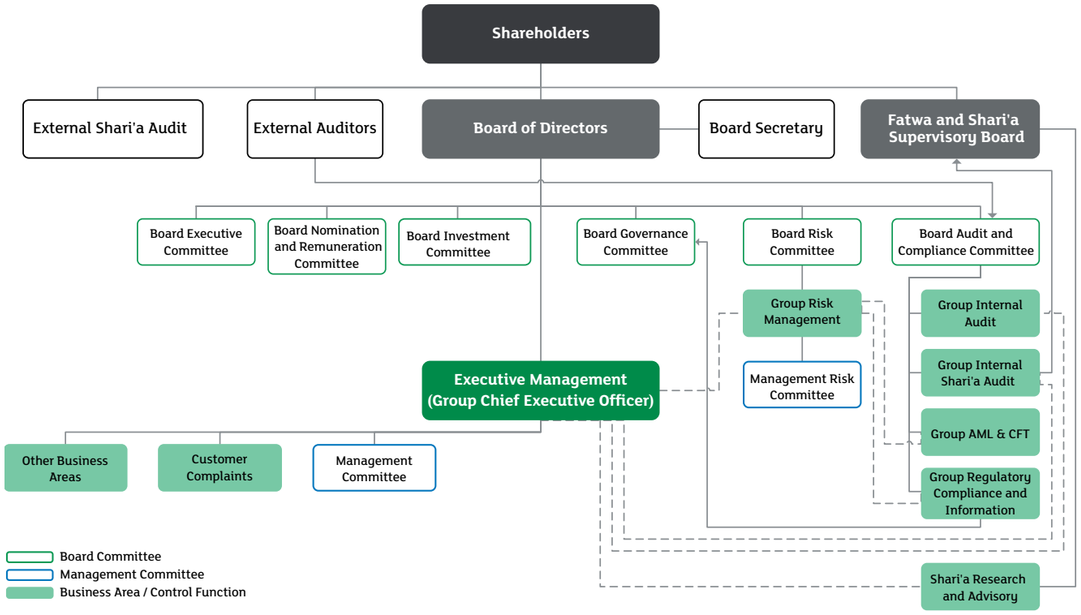
Board Members' Duties and Responsibilities

1. General Responsibilities of the Board of Directors

The Board of Directors shall bear the overall responsibility of KFH including the development of strategic goals, risk strategy, sound governance principles, and the application and oversight of the proper application of these goals and principles in addition to the responsibility of supervising executive management including the CEO.

The Board of Directors shall bear full responsibility for KFH's operations and sound financial position. Accordingly, the Board shall ensure compliance with the Central Bank of Kuwait's requirements and preserve the interests of the shareholders, depositors, creditors, employees and other stakeholders and related parties. In this context, the Board shall ensure that KFH is being managed prudently and in line with KFH applicable rules, regulations and bylaws.

Governance Structure



2. Board Structure

Pursuant to KFH Articles of Association, the Board of Directors shall comprise 12 members including not less than 4 fully independent members and not less than half the number of the Board members. As an exception, the number of the independent members may not be less than 2 members effective 30/6/2020 and not less than 4 members effective 30/6/2022, elected by the General Assembly through a secret ballot. Nominations were opened for membership in the Board on 15th Sep. 2020. The General Assembly elected the Board members. Accordingly, a new Board was formed in the 15th session 2020/2022. The Board office term is three years renewable and a member may be re-elected for another term. The current Board of Directors consists of Chairman, Vice Chairman and 10 Board members, including 2 independent members, who duly represent the quorum required for forming the Board Committees in accordance with sound governance principles set by the Central Bank of Kuwait.

2-1 Chairman's Role

Considering the significance of this role, Chairman shall ensure proper functioning of the Board, maintain mutual trust, and ensure that the decision–making process is based on sound grounds and accurate information. He shall ensure exchange of viewpoints with Board members and ensure timely reporting of enough information to Board members and shareholders.

The Chairman shall play a significant role in maintaining a constructive relationship between the Board and the Executive Management and ensure KFH has sound governance principles in place.

3. The Relationship between the Board of Directors and the Executive Management

KFH maintains cooperation and clear segregation of duties, functions and powers between the Board of Directors and Executive Management, thus satisfying a fundamental requirement of sound corporate governance. As such, the Board shall take responsibility to provide guidance and leadership, while Executive Management shall take responsibility for drawing up and implementing the strategies and policies approved by the Board while ensuring that the board and its members are totally independent from the executive management. The Board shall also ensure that Executive Management is in strict compliance with the policies preventing and prohibiting the activities and relations which might contradict and compromise sound principles of corporate governance i.e. Conflict of Interests Policy and the Remuneration Policy.

4. Organizing Board Activities

The Board of directors held (15) meetings during 2021 within the former 14th session and the current 15thth session elected as per the Board resolution dated 15th April 2020 as it was not possible to elect a new Board of directors due to the Covid 19 pandemic. The Board members held (22) meetings in 2020. A meeting is called for whenever the need arises. The number of meetings held exceeded regulatory requirements concerning corporate governance, which shall not be less than 6 meetings per year and not less than one meeting per quarter. The resolutions adopted during Board meetings are binding and considered as an integral part of KFH records.

The Board adopted in 2021 a number of resolutions recorded in (64) minutes of Board meetings issued by passing in 2021 while the committees made (16) minutes of resolutions by passing during 2021.

The Chairman discusses with executive management essential issues that are proposed to be entered in the agenda and provides the Board members with sufficient information in advance to make decisions. The Board secretary shall take down all Board discussions, recommendations and voting results in the meeting. The responsibilities of the chairman and members of the board are set in writing and determined as per all related legislations and regulations.

6-1 Audit and Compliance Committee

The audit and Compliance Committee was formed to assist the Board in fulfilling and complying with its supervisory responsibilities on the bank's accounting operations, financial control systems, internal audit function, compliance, AML and Terrorist Financing Risks and the management of financial reports in coordination with internal and external auditors to ensure compliance with regulatory requirements.

The Audit Committee comprises Five Board members and shall be chaired by one of the independent members. At least two of the members must have knowledge in financial matters to perform their duties as members of the committee. Their membership in this Committee coincides with their Board membership.

In 2021, the Committee held (5) meetings. The committee issued (1) resolutions by circulation, to carry out its duties and functions.

The Audit and Compliance Committee's duties and responsibilities include supervising financial control rules and regulations in KFH and reporting as follows:

- Provide recommendations concerning external auditors' appointment, dismissal, fees, qualifications and objectivity of their professional opinion and to circulate auditing partners in accordance with regulatory requirements.
- Discuss the results of the interim and final audits with external auditors and the resulting considerations along with any other issues external auditors wish to discuss.
- Set appropriate standards to ensure completion of external audit activities.
- Review and discuss appointment and dismissal of the head of internal audit, head of compliance and head of anti-money laundering and combating the financing of terrorism and make recommendations to the Board in this respect.

- Assess the performance of the Chef internal audit, regulatory compliance and anti-money laundering combating the financing of terrorism and making recommendations on the remunerations of the persons heading those departments.
- Ensure that external auditors issue a statement on the Bank's compliance with the governance rules and regulations issued by CBK as part of the report submitted to CBK.
- Review accounting documents, reports and information regularly and review financial statements with the executive department and external auditors before submitting the same to the board.
- Review accounting issues having significant impact on the financial statements.
- Supervise KFH internal audit policies and procedures and ensure sufficiency of human resources required for control functions.
- Review adequacy of provisions made against potential risks and loses.
- Carry out any other activities in line with KFH articles of association and applicable laws and as may be deemed suitable by the board.

The Audit and Compliance Committee is authorized to acquire any information from executive management. Also, it is entitled to invite, through official channels, any executive or Board member to attend its meetings. The committee shall monitor the adequacy of internal controls at KFH.

6.2 Nomination and Remuneration Committee

The key role of the Nomination and Remuneration Committee is to assist the Board of Directors in meeting its obligations regarding the selection of qualified individuals for the Board and Executive Management membership and assess the performance of the Board and its committees. Also, the committee shall assist the Board in supervising short- and long-term remuneration systems. The committee shall recommend the Board of directors' remunerations in accordance with Shari'a laws and best international practices. The nominations and remunerations committee shall comprise 4 members, chaired by one of the independent members.

The Committee shall hold its meetings whenever needed but not less than twice a year. The Committee held (7) meetings during 2021 to conduct its duties and functions. The committee issued (5) minutes by passing to perform its functions and duties.

The key functions of the Nomination and Reward Committee include but not limited to the following:

- Recommend nomination of persons qualified to act as Board members based on CBK approved policies, standards and instructions regarding membership nominations. Nomination recommendations cover all candidates including those who are not recommended by the committee based on sound objective justifications.

- Recommendations to appoint the CEO and his deputies, Head of Financial Control and any other director reporting directly to CEO except the Head of Risk Management who shall be elected by the Risk Committee and the Head of Audit and Head of Compliance who shall be elected by the Audit and Compliance Committee as well as the Customer Complaints Manager.
- Annual review of the required Board membership skills, determine skills to be enjoyed by the Board members and committees and present suggestions on the Board structure that serves the best interest of the bank.
- Annual evaluation of the overall performance of the Board and the performance of individual members.
- Determine authorities and functions of each executive or leading positions at the Bank and set required job responsibilities and qualifications in cooperation with Human Resources and concerned departments.
- Present suggestions on Bank fixed and variable remuneration policy structure and raising the same to the Board for approval.
- Conduct periodical review remuneration policy or when recommended by the Board and present recommendations to the Board to amend/ update such policy.
- Conduct a periodic assessment of the adequacy and effectiveness of the remuneration policy to ensure the achievement of the declared objectives.
- Present necessary recommendation to the Board regarding Board members' remuneration.
- Review financial remuneration plan structures related to share options for board's approval.
- Study remuneration recommendations presented by executive management concerning remuneration, CEO remuneration and executive management remuneration.
- Cooperate with the Risk Committee to evaluate suggested incentives under the remuneration system.
- Conduct independent annual revision of the remuneration system to evaluate the Bank's compliance with the financial remuneration practices, either through internal Audit Department or an outsource consultancy bureau.
- Provide all remuneration granted to Bank representatives in subsidiaries.
- Study and prepare, on annual basis, the projected replacement plan at the bank, apply election and evaluations standards for possible replacements of high officials at the bank including changes in emergency cases and in case of any vacant posts and present the same to the abord of directors for approval.
- Recommend to the Board of directors, by nomination, non-nomination, membership cancellation in the Shari'a Supervisory Board and ensure transparency of appointment and reappointment members of Fatwa & Shari'a Supervisory Board.

The External Shari'a Audit Office Report of Kuwait Finance House (KFH)

for the Financial Year ended 31 December 2021

Messrs. Kuwait Finance House (KFH) shareholders

After greetings,

We would like to present you The External Shari'a Audit Office Report for the financial year ended 31 December 2021

The External Shari'a Audit Office Report of Kuwait Finance House (KFH) for the Financial Year ended 31 December 2021

The External Shari'a Audit Office Responsibility

Based on our agreement of association. the External Shari'a Audit Office is responsible for monitoring and auditing all transactions and operations to ensure that the Bank officials is carrying out these operations in accordance with the Islamic Shari'a provisions and pursuant to Fatwa and Shari'a Supervisory Board's decisions and opinions.

Kuwait Finance House (KFH) Responsibility

The Bank is responsible for achieving compliance with the Islamic Shari'a provisions in accordance with Fatwa and Shari'a Supervisory Board's decisions and opinions and providing all the information necessary to conduct an external Shari'a audit for all dealings and transactions.

The External Shari'a Audit Procedures and Results

We have reviewed the minutes of the meetings and reports of the Fatwa and Shari'a Supervisory Board and also reviewed the internal Shari'a audit management plan and Shari'a approvals on manuals or policies and procedures and their amendments across all bank departments.

We have also received investments, contracts, banking and commercial transactions. their products and stages of completion, and have ensured that the bank officials are carrying out these operations in accordance with the Fatwa and Shari'a Supervisory Board decisions and opinions.

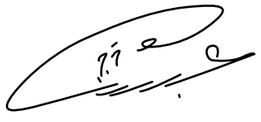
The On-site Visits and Its Results

We have contacted with the Bank's executive management (8) through direct and visual meetings. telephone, video conferences, and by email, due to the country's current circumstances and the health requirements of the Covid 19 pandemic, the results of these meetings have been recorded

The Final Independent Opinion of the External Shari'a Audit

We believe that our audits we carried out for the bank transactions for the period from 01/01/2021 to 31/12/2021 provide an appropriate basis for our independent opinion. In the light of the clarifications and assurances we have received in order to obtain all the information. explanations and declarations that we consider necessary to provide us with sufficient evidence to give reasonable assurance that KFH bank's executive management has not violated the provisions of the Islamic Shari'a and has complied with the decisions and opinions of the Fatwa and Shari'a Supervisory Board. In light of the above, the External Shari'a Audit Office concluded that the Kuwait Finance House (KFH) Bank had complied with the Islamic Shari'a provisions in accordance with Fatwa and Shari'a Supervisory Board's decisions and opinions.

Dr. Abdulaziz Khalaf Jarallah
External Shari'a Auditor



Board of Directors Statement on the Internal Control Systems

Internal Control Systems

The Board acknowledges the value of strong internal control systems to the effectiveness and efficiency of operations, quality of internal and external reporting, compliance with the applicable laws and regulations and to KFH Group's overall governance. The Board has established an organization structure that sets clearly the lines of authorities. Senior Management is responsible for establishing and operating the internal control systems to manage the risks of not achieving KFH Group's objectives. However, such internal control system is designed to provide a reasonable but not absolute assurance against the risk of material loss.

The Board, through its Committees, reviews regularly the effectiveness of the internal control systems as assessed by the various internal control functions. The Board also ensures that these functions are properly positioned, staffed and resourced and are carrying out their responsibilities independently and effectively.

The Board played an active oversight role in crisis management to ensure that the executive management had put in place the required controls that instill the bank's resilience to the changing environment and secure the business continuity to the best interests of the stakeholders.

The Board also reviews the management letters issued by the bank's external auditors and reviews the report on Accounting and Other Records and Internal Control System (ICR) issued by the ICR auditors. The ICR auditors' opinion in this respect is included in the Annual Report.

The Board believes that the internal control systems adopted and operating during the year ended 31 December 2021 are adequate to provide reasonable assurance regarding the achievement of KFH Group's objectives.

External Auditor Report about Internal Control Systems

Board of Directors,
Kuwait Finance House K.S.C,
P.O Box: 24989, Safat 13110,
Kuwait
10 August, 2021

Dear Sirs,

Report on Accounting and Other Records and Internal Control Systems

In accordance with our letter of engagement dated 25 January 2021, we have examined the accounting and other records and internal control systems of Kuwait Finance House K.S.C for the year ended 31 December 2020.

We covered the following processes of the Bank:

- Corporate Governance
- Investment
- Treasury
- Retail and Private Banking
- Group Corporate Banking
- Information Technology
- Operations Department
- Human Resource and General Services
- Group Financial Control
- Risk Management
- Anti-Money Laundering
- Legal Group
- Internal Audit
- Strategy & Corporate Affairs
- Shari'a Research & Advisory and Group Internal Shari'a Audit
- Customer Complaints Unit
- Fraud
- Compliance

In addition to the above departments, we have also covered the following Banking and Financial Subsidiaries of Kuwait Finance House K.S.C:

- Kuwait Finance House, Bahrain (B.S.C.C)
- Kuwait Finance House (Malaysia) Berhad
- Kuveyt Turk Participation Bank
- KFH Capital Investment Company (K.S.C.C)
- E'AMAR
- Saudi KFH
- KFH Private Equity Limited

Our examination has been carried out as per the requirements of the Central Bank of Kuwait (CBK) circular dated 7 January 2021 considering the requirements contained in the Manual of General Directives issued by the CBK on 15 June 2003, Pillar IV of corporate governance instructions in respect of risk management and internal controls issued by the CBK on 20 June 2012 and its amendments on 10 September 2019, instructions dated 14 May 2019 concerning anti money laundering and combating financing of terrorism and the related instructions, instructions dated 9 February 2012 regarding confidentiality of customer's information and financial securities activities of the Bank and activities and instructions regarding internal controls with respect to prevention and reporting of fraud and embezzlement cases.

As members of the Board of Directors of the Bank, you are responsible for establishing and maintaining adequate accounting and other records and internal control systems, taking into consideration the expected benefits and

relative costs of establishing such systems and complying with the requirements contained in the CBK instructions mentioned in the above paragraph. The objective of this report is to provide reasonable, but not absolute, assurance on the extent to which the adopted procedures and systems are adequate to safeguard the assets against loss from unauthorized use or disposition; that key risks are properly monitored and evaluated; that transactions are executed in accordance with established authorization procedures and are recorded properly; and to enable you to conduct the business in a prudent manner.

Because of inherent limitations in internal control system, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the systems to future periods is subject to the risk that management information and control procedures may become inadequate because of changes in conditions or that the degree of compliance with those procedures may deteriorate.

With the exception of the matters set out in the accompanying report, and having regard to the nature and volumes of the Bank's operations, during the year ended 31 December 2020, and the materiality and risk rating of our findings, we report that:

a) The accounting and other records and internal control systems of the Bank were established and maintained in accordance with the requirements of the Manual of General Directives issued by the CBK on 15 June 2003 and letter issued by CBK on 7 January 2021,

b) The findings raised in the examination and assessment of the internal controls do not have a material impact on the fair presentation of the financial statements of the Bank for the year ended 31 December 2020, and

c) The actions taken by the Bank to address the findings referred in the report are satisfactory.

Yours faithfully,

Qais M. Al Nisf
License No. -38 A
BDO Al Nisf & Partners.

Remuneration Report

Remuneration Policy

KFH's Remuneration Policy is in line with its strategies and objectives and the Kuwaiti Labor Law in the private sector, and incorporates all the requirements of the CBK Corporate Governance Instructions issued in June 2012. The employees' remuneration includes both fixed and variable components, which include their current and deferred remunerations, short-term and long-term incentives and end of service indemnity. The policy is designed to attract, retain and competitively reward those individuals with experience, skill, values and behaviors in order to achieve the Bank's overall goals.

Rewarding employees is directly linked to the Bank's short / long term performance. It also aligns the components of the remuneration packages with the Bank's short/long-term risk appetite. The policy has mechanisms in place to control the total remuneration based on the financial performance of the Bank, and in the case of poor performance, implementing a Claw Back mechanism in order to safeguard the Bank's interests.

The Bank's Board of Directors, with the assistance of the Remuneration and Nominations Committee, approves the Bank's remuneration policy design and its modifications, and periodically reviews the process of its implementation and effectiveness to ensure that it is operating as intended.

Remuneration Components

The various remuneration components are combined to ensure an appropriate and balanced remuneration package that reflects the employee's grade in the Bank and the job function as well as market practice. The employee remuneration components are:

1. Basic salary

2. Benefits and allowances

The salaries reflect the individuals' skills and experience and are reviewed annually in the context of annual performance assessment. The salary packages are periodically benchmarked against comparable roles in other banks and other financial institutions. They are increased, where justified, by role change, increase in responsibility or where justified by the latest available market data. Salaries may also be increased in line with local regulations.

The Bank has a formal performance management process for evaluating and measuring staff performance at all levels. In the beginning of the year, the staff and their superiors plan and document the annual performance goals, required competencies and personal development plans for the staff. At the annual performance appraisal interview, the superiors of the staff and the reviewers evaluate and document performance against the documented goals. Decisions on adjustment of the employee's fixed salary and on performance-based incentives are made on the basis of annual performance review.

Other benefits like annual leave, medical leave and other leaves, medical / life insurance, annual tickets, and allowances are provided on the basis of individual employment contracts, local market practice and applicable laws.

Remuneration Disclosures as per the CBK Corporate Governance Instructions

As per the CBK's Corporate Governance Instructions, we have disclosed the remuneration cost of certain staff categories and the amounts cost to each category. The analyses include the fixed and variable parts of the remuneration package and methods of payment.

First: Board of Directors Remuneration

The financial remunerations cost of the Board of Directors are disclosed in Note (28) of the Annual Financial Statements.

Second: Remuneration of the Highest Paid Executives at Kuwait Finance House

As per the CBK Corporate Governance Instructions, this section must include the total remuneration charged for the year 2021 to the 5 highest paid senior executive officers, which includes their salaries and short & long-term incentives for the year. However, the group must also include the Chief Executive Officer (CEO), the Chief Risk Officer (CRO), the Chief Financial Officer (CFO) and the Head of Internal Audit if any of them are not part of the top 5.

Hence, this section includes the total remuneration cost in 2021 of the top 5 highest executives at KFH as well as 3 mandatory positions which were not part of the top 5. The total for this group (top 5 + 3) amounted to KD 2,511,354 The remuneration package of each executive included fixed and variable pay components including salary (basic and benefits / allowances), short-term incentives including fixed and variable annual cash bonus, as well as long-term incentives and end of service benefits.

Third: Remuneration by Specific Staff Categories at Kuwait Finance House

1. CEO and his deputies and/or other Senior Executives whose appointment is subject to the approval of the regulatory and supervisory authorities:

The total remuneration charged for the year 2021 to this category amounted to KD 3,217,524 The remuneration package of each executive in this category included fixed and variable pay components including salaries (basic and cash / non-cash benefits / allowances), short-term incentives including fixed and variable annual cash bonus, as well as long-term incentives and end of service benefits.

2. Financial Control and Risk Staff:

The total remuneration charged for the year 2021 to this category amounted to KD 4,808,313 The remuneration package of the staff in this category differed based on their grades as well as their individual employment contracts. The pay components included fixed and variable pay components including salaries (basic and benefits / allowances), short-term incentives including fixed and variable annual cash bonus, as well as long-term incentives for eligible senior executives and end of service benefits.

3. Material Risk Takers:

The total remuneration charged for the year 2021 to this category amounted to KD 1,592,310 The category includes the top management and the Divisional Heads of the business functions with financial authorities and who delegate responsibilities to their respective divisional staff and are ultimately responsible and accountable for the risks taken by them. The total remuneration included fixed and variable pay components including salary (basic and benefits / allowances), short-term incentives including fixed and variable annual cash bonus, as well as long-term incentives and end of service benefits.

Group Risk Management and Governance Requirements

KFH has given special consideration and care to risk management and governance requirements as it is considered one of the most significant pillars of prudent management in banking. Group Risk Department has made clear imprint at KFH as it plays a vital role in decision making driven by the principle of risk and return trade off. Group Risk Department has the primary role in identifying, evaluating, and mitigating risks. Considering the continued and increasing challenges emanating from the current political and economic conditions, the proper practice and care of risk management in the group play a significant role at KFH Group level.

Covid 19 pandemic continued dominate world events in 2021 and its impact will be felt in the years to come. Tremendous fluctuations were noticed in the fundamental risk factors of the global economy. Nonetheless, group Risk Department has succeeded in completing its strategic initiatives to enhance group capital and improve asset quality.

Risks at the Group are managed in a predetermined and integrated manner by applying best practices in identifying, measuring and mitigating both financial and non-financial risks. As per the group governance frameworks, all risks are followed up, analyzed, and discussed with executive management (through Risk Management Committee), Board Risk committee, and Board of directors to ensure that the triple line of defense principle is applied starting from the responsibility of each employee to identify, evaluate, and control prospected risks while carrying out his or her duties.

The main responsibility of the Risk Department is to drive continuous improvements in the field of risk management and development of business practices at KFH Group level to cope with the accelerating changes in the regulatory requirements and best practices. Accordingly, the Group Risk Department has adopted significant and effective procedures by applying unified methodical and standard business frameworks, updating measurement systems, predicting risk models, and automation reporting systems as well follow up. Group Risk Department has also conducted, on regular basis, stress tests, and capital adequacy estimations at KFH Group and continued development of stress test methods in the most conservative ways to calculate prospected financial and non-financial risks considering the economic changes of the pandemic. In addition, the department has updated the group risk appetite and increased the number of main risk indicators control reports to ensure comprehensive risk controls at the group level.

Building an adequate capital base to enhance business growth, absorb unexpected losses and comply with regulatory requirements is considered as one of the main pillars of risk strategy at KFH. Based on this concept, the Group Risk Department has applied during the year the capital management program which includes internal initiatives to assess risk weighted assets and improve Capital ratio through internal or external levers in line with Group Strategy and plans. At the end of the year, Capital Adequacy Ratio reached 18.69% i.e. higher than the regulatory minimum.

The market and liquidity risks are governed by the Assets/Liabilities Committee. Reports in this respect are issued at the group level to ensure compliance with liquidity ratios namely the Net Stable Funding Ratio and Liquidity Coverage Ratio to achieve regulatory compliance and the ability to safeguard depositors' rights.

Credit Risk Department has succeeded in dealing with the unprecedented crisis and the related financial risks by adopting the best practices and processes in accordance with international credit risk measurement, management and mitigation practices and standards. As a result, the group asset quality level was improved.

KFH lays great emphasis on the significance of complying with the laws and instructions issued by regulatory authorities. In this respect, KFH has an independent department, reporting to the Audit & Compliance Committee, to ensure that all business and services are executed in accordance with the regulatory authorities' instructions.

Group Compliance and Regulatory Information Department has worked in 2021 side by side with other business departments to provide consultations on the new products and services provided to KFH customers and ensure that they are approved by regulatory authorities. In addition, the department has ensured that KFH various activities are being performed in accordance with the regulatory authorities' instructions through a predetermined plan to examine the functions of the concerned departments , provide necessary support and take any necessary actions to protect KFH and its shareholders.

Compliance and Regulatory Information Department has followed up the process of KFH Group work through the reports presented by subsidiaries to ensure that KFH Group has complied with the regulatory authorities' instructions in various countries where KFH operates.

KFH has anchored several functions under the umbrella of non-financial risks in accordance with KFH Group Risk Department strategy and business framework. Non-financial risks include several specialized departments e.g., Operational Risk Department, Business Continuity Department, IT Risk Department and Cyber Security Risk Department.

Non-financial risk responsibilities include supervising the development and execution of business frameworks related to non-financial risks at KFH sectors level. These include the responsibility to identify non-financial risks, verify efficiency of control factors and business flexibility and prepare necessary administrative reports in accordance with industry standards and best practices.

Operational Risks Department focuses on enhancing the ability to manage and identify main risks at KFH Group level. Possible weakness areas are identified, and appropriate plans and regulations are put in place to process and mitigate excessive risks.

IT Risk Department works on achieving extreme efficiency of IT services and ensures implementation of compliance requirements within an effective internal control environment.

Business Continuity Department is actively involved in the development and implementation of the business continuity frameworks including business recovery strategies, crisis management plans and business resilience programs to provide the ability to effectively respond to disruptive events whilst protecting the interests of the bank, its customer, and shareholders. As part of the digital transformation initiative, an automated approach has been adopted to facilitate and further enhance the related activities and communication related to business coutinouty. Furthermore, the crisis management plan was aligned with new CBK Cyber Security framework requirements with regards to Cyber Security Crisis Management

Concerning the management of the cyber security and information security risks, the newly established unit is carrying out high level independent oversight over Information Security Management across the bank. The unit focused its efforts this year on compliance with CBK Cyber Security Framework by developing the procedures and methodologies required for Cybersecurity Risk management, assessing existing Cyber security posture, determining current maturity levels and planning to strengthen the posture to an optimized level. Accordingly, in coordination with Business Continuity Management, a Cybersecurity Crisis Management simulation exercise has been planned and were conducted as a continuous activity aiming to enhance the bank's preparedness and response capabilities to Cybersecurity incidents in dealing with this type of crisis as well to ensure that reliable framework and robust infrastructure are in place.

Likewise, KFH has strong and comprehensive framework of Anti-Money Laundering/Combating the Financing of Terrorism ("AML/CFT") to ensure compliance with the related laws and regulatory authorities' instructions.

Capital Adequacy Disclosures

Basel III

Capital Adequacy Disclosures

Qualitative and quantitative disclosures related to Capital Adequacy Standard under Basel III have been prepared in accordance with Central Bank of Kuwait instructions and regulations issued as per their circular 2/RB, RBA/336/2014 dated 24 June 2014. General disclosures related to Capital Adequacy Standard under Basel III rely on calculating the minimum capital required to cover credit and market risks using the Standardized Approach and the minimum capital required to cover operational risk using the Basic Indicator Approach.

KD 000's

Regulatory Capital Components	2021	2020
CET1: Common Equity Tier 1 Capital (Before Regulatory Adjustments)	2,196,981	2,242,019
Regulatory Adjustments for CET1	160,532	136,222
Total Common Equity Tier 1 (CET1)	**2,036,449**	**2,105,797**
Additional Tier 1 Capital (AT1)	263,817	27,434
Total Tier 1 (T1=CET1+AT1)	**2,300,266**	**2,133,231**
Tier 2 Capital (T2)	204,228	208,266
Total Capital (TC=T1+T2)	**2,504,494**	**2,341,497**
Total Risk Weighted Assets	**13,402,087**	**13,356,763**
Capital Adequacy Ratios		
Common Equity Tier 1 (as percentage of risk-weighted assets)	15.20%	15.77%
Tier 1 (as percentage of risk-weighted assets)	17.16%	15.97%
Total capital (as percentage of risk-weighted assets)	18.69%	17.53%
Minimum capital ratio		
Common Equity Tier 1 minimum ratio	9.0%	9.0%
Tier 1 minimum ratio	10.5%	10.5%
Total capital minimum ratio	12.5%	12.5%

B. Reconciliation of Regulatory Capital:

1. Common Disclosure Template:

The below table serves as a detailed breakdown of the bank's regulatory capital in a clear and consistent format.

KD 000's

	Common Equity Tier 1 capital: instruments and reserves	2021	2020
1	Directly issued qualifying common share capital plus related stock surplus	1,564,488	1,487,747
2	Retained earnings	173,511	173,030
3	Reserves	282,230	395,473
4	Directly issued capital subject to phase out from CET1 (only applicable to non-joint stock companies)	-	-
5	Common share capital issued by subsidiaries and held by third parties (minority interest)	92,336	109,028
6	Proposed issue of bonus shares	84,416	76,741
	Common Equity Tier 1 capital before regulatory adjustments	**2,196,981**	**2,242,019**
	Common Equity Tier 1 capital: regulatory adjustments		
7	Prudential valuation adjustments		
8	Goodwill (net of related tax liability)	-	150
9	Other intangibles (net of related tax liability)	32,351	32,240
10	Proposed Cash dividends	100,442	76,093
11	Deferred tax assets that rely on future profitability excluding those arising from temporary differences (net of related tax liability)		
12	Cash-flow hedge reserve		
13	Shortfall of provisions to expected losses		
14	Taskeek gain on sale (as set out in para 72 of these guidelines)		
15	Gains and losses due to changes in own credit risk on fair valued liabilities		
16	Defined-benefit pension fund net assets (para 68)		
17	Investments in treasury shares (if not already netted off paid-in capital on reported balance sheet)	27,739	27,739
18	Reciprocal cross-holdings in common equity		
19	Investments in the capital of banking, financial and insurance entities that are outside the scope of regulatory consolidation, net of eligible short positions, where the bank does not own more than 10% of the issued share capital (amount above 10% threshold of bank's CET1 capital)		
20	Significant investments in the common stock of banking, financial and insurance entities that are outside the scope of regulatory consolidation, net of eligible short positions (amount above 10% threshold of bank's CET1 capital)		
21	Mortgage servicing rights (amount above 10% threshold of bank's CET1 capital)		
22	Deferred tax assets arising from temporary differences (amount above 10% threshold, net of related tax liability)		
23	Amount exceeding the 15% threshold		
24	of which: significant investments in the common stock of financials		
25	of which: mortgage servicing rights		
26	of which: deferred tax assets arising from temporary differences		

27	National specific regulatory adjustments		
28	Regulatory adjustments applied to Common Equity Tier 1 due to insufficient Additional Tier 1 and Tier 2 to cover deductions		
29	Total regulatory **adjustme**nts to Common equity Tier 1	160,532	136,222
	Common Equity Tier 1 capital (CET1)	**2,036,449**	**2,105,797**
	Additional Tier 1 capital: instruments		
30	Directly issued qualifying Additional Tier 1 instruments plus related stock surplus	226,875	
31	of which: classified as equity under applicable accounting standards	226,875	
32	of which: classified as liabilities under applicable accounting standards		
33	Directly issued capital instruments subject to phase out from Additional Tier 1		
34	Additional Tier 1 instruments (and CET1 instruments not included in row 5) issued by subsidiaries and held by third parties (amount allowed in group AT1)	36,942	27,434
35	of which: instruments issued by subsidiaries subject to phase-out		
	Additional Tier 1 capital before regulatory adjustments	**263,817**	**27,434**
	Additional Tier 1 capital: regulatory adjustments		
36	Investments in own Additional Tier 1 instruments		
37	Reciprocal cross-holdings in Additional Tier 1 instruments		
38	Investments in the capital of banking, financial and insurance entities that are outside the scope of regulatory consolidation, net of eligible short positions, where the bank does not own more than 10% of the issued common share capital of the entity (amount above 10% threshold)		
39	Significant investments in the capital of banking, financial and insurance entities that are outside the scope of regulatory consolidation (net of eligible short positions)		
40	National specific regulatory adjustments		
41	Regulatory adjustments applied to Additional Tier 1 due to insufficient Tier 2 to cover deductions		
	Total regulatory adjustments to Additional Tier 1 capital		
	Additional Tier 1 capital (AT1)	**263,817**	**27,434**
	Tier 1 capital (T1 = CET1 + AT1)	**2,300,266**	**2,133,231**
	Tier 2 capital: instruments and provisions		
42	Directly issued qualifying Tier 2 instruments plus related stock surplus		
43	Directly issued capital instruments subject to phase-out from Tier 2		
44	Tier 2 instruments (and CET1 and AT1 instruments not included in rows 5 or 34) issued by subsidiaries and held by third parties (amount allowed in group Tier 2)	52,959	57,029
45	of which: instruments issued by subsidiaries subject to phase-out		
46	General provisions included in Tier 2 capital	151,269	151,237
	Tier 2 capital before regulatory adjustments	**204,228**	**208,266**
	Tier 2 capital: regulatory adjustments		
47	Investments in own Tier 2 instruments		

48	Reciprocal cross-holdings in Tier 2 instruments		
49	Investments in the capital of banking, financial and insurance entities that are outside the scope of regulatory consolidation, net of eligible short positions, where the bank does not own more than 10% of the issued common share capital of the entity (amount above the 10% threshold)		
50	Significant investments in the capital banking, financial and insurance entities that are outside the scope of regulatory consolidation (net of eligible short positions)		
51	National specific regulatory adjustments		
	Total regulatory adjustments to Tier 2 capital		
	Tier 2 capital (T2)	**204,228**	**208,266**
	Total capital (TC = T1 + T2)	**2,504,494**	**2,341,497**
	Total risk weighted assets (after applying 50% additional weighting)	**13,402,087**	**13,356,763**
	Capital ratios and buffers		
52	Common Equity Tier 1 (as a percentage of risk weighted assets)	15.20%	15.77%
53	Tier 1 (as a percentage of risk weighted assets)	17.16%	15.97%
54	Total capital (as a percentage of risk weighted assets)	18.69%	17.53%
55	Institution specific buffer requirement (minimum CET1 requirement plus capital conservation buffer plus countercyclical buffer requirements plus D-SIB buffer requirement, expressed as a percentage of risk weighted assets)	9.0%	9.0%
56	of which: capital conservation buffer requirement	-%	%-
57	of which: bank specific countercyclical buffer requirement		
58	of which: D-SIB buffer requirement	2.0%	2.0%
59	Common Equity Tier 1 available to meet buffers (as a percentage of risk weighted assets)	8.20%	8.77%
	Minimum capital ratios		
60	Common Equity Tier 1 minimum ratio	9.0%	9.0%
61	Tier 1 minimum ratio	10.5%	10.5%
62	Total capital minimum ratio	12.5%	12.5%
	Amounts below the thresholds for deduction (before risk weighting)		
63	Non-significant investments in the capital of other financials		
64	Significant investments in the common stock of financials		
65	Mortgage servicing rights (net of related tax liability)		
66	Deferred tax assets arising from temporary differences (net of related tax liability)	50,885	43,935
	Applicable caps on the inclusion of provisions in Tier 2		
67	Provisions eligible for inclusion in Tier 2 in respect of exposures subject to standardized approach (prior to application of cap)	510,952	416,747
68	Cap on inclusion of provisions in Tier 2 under standardized approach	151,269	151,237
69	Provisions eligible for inclusion in Tier 2 in respect of exposures subject to internal ratings-based approach (prior to application of cap)		
70	Cap for inclusion of provisions in Tier 2 under internal ratings-based		

2. Reconciliation Requirements Form:

A full reconciliation of all regulatory capital elements with the audited financial statements.

Step 1

For the year ended 31-12-2021:

	Total capital	**2,504,494**	**2,341,497**	

Third: Risk weighted assets and Minimum Capital Requirement

a) Credit risk

KFH credit risk management follows a specific framework to ensure that:

- Clearly defined credit policies. These policies articulate the requirements for approval of new, renewed and amended credit facilities in terms of financial requirements and documentation. Also include Risk Appetite policy that defines the acceptable concentration limits for clients
- A system of credit authority matrix that ensures (1) authorities are commensurate with the experience and job levels for employees and managers, (2) the risk Management department reviews and challenges credit requests, (3) significant credit exposures are approved by credit committees or the Board and its committees as per Delegation of Authority matrix. (4) risk management reviews and studies subsequently implemented credit applications and periodically reviews credit portfolios to ensure that they comply with the instructions of the Central Bank of Kuwait and the credit approvals that have been made and to ensure that they do not violate any of the credit policies or the approved delegation of authority, and that there are no expired credit limits and/ or exposures, and that the reasons for the arrears in payments, if any, are identified and specifies ways to treat them.
- A credit rating system for Corporate, SME, Financial Institutions, Real Estate, and High Net Worth financing is in place.
- A system of limits to ensure that the bank undertakes risks within the approved appetite and within regulatory requirements.
- A process to ensure credit policies are complied with regulatory requirements by making sure that the required documentation is in place and the required approvals are obtained
- Effective follow-up processes to mitigate arrears through early detection of deterioration in the financing portfolio and associated management actions to handle such credits

KFH's approach, when granting credit facilities, is based primarily on an assessment of the customers' capacity to repay, with supplementary support from credit risk mitigation. Depending on a customer's standing and the type of product, facilities may be provided unsecured. Mitigation of credit risk is a key aspect of effective risk management and takes many forms as approved by CBK. The bank's policy for collaterals defines the list of accepted collaterals and the protection of credits. The collaterals used by the bank include financial collaterals (cash and securities) and non-financial (real estate, bank guarantees, and third-party agreements).

KFH has reviewed and enhanced its corporate financing credit process. The main enhancements to the process include:

(a) Streamlining of the process itself to ensure efficient and effective decision-making process and clear assignment of responsibilities.

(b) Enhancing and realigning the credit authority matrix to ensure proper and clear escalation of decisions and the involvement of all relevant parties from the business, risk, and the Board.

(c) Activate the Credit Committee with the adequate level of membership and authority level to review and approve or recommend credit requests of the Board and higher-level committees.

KFH has adopted the standardized approach to measuring the capital required for credit risk under Pillar 1. However, credit risk arising from name concentration, sector concentration, and those remaining from credit mitigation techniques are captured under Pillar 2 as they are not covered under Pillar 1.

KFH relies on Moody's rating system for internal credit ratings.

1. Credit Risk Capital Requirements:

For the year ended 31-12-2021:

	Total	**21,551,632**	**14,258,240**	**7,293,392**

5. Excess Risk Concentrations

Concentration risks arise when several counterparties are engaged in similar activities in the same geographical area or have similar economic features that would cause their ability to meet their contractual obligations to be similarly affected by changes in economic, political, or other conditions. Concentrations indicate relative sensitivity of the Group's performance to developments affecting a particular industry sector or geographical location.

To avoid excessive risk concentrations, the Bank's policies and procedures include specific guidelines to focus on maintaining diversified financial portfolios, thus establishing control over certain credit risk concentrations. Credit mitigation techniques are used by the Bank to manage risk concentrations both at the relationship and industry levels.

a. Geographical Distributions for Credit Risk Exposure

For the year ended 31-12-2021:

6. Past due and impairment provisions

Credit facilities are classified as "past-due" if the profit or principal instalment is past due 1 - 90 days. A credit facility is considered as "past-due and impaired" if the profit or a principal instalment is past due for more than 90 days. "Past due and impaired" facilities are classified into the following four categories which are then used to guide the provisioning process:

Category	Criteria
Watchlist	Irregular for a period up to 90 days
Substandard	Irregular for a period between 91 and 180 days
Doubtful	Irregular for a period between 181 days and 365 days
Bad	Irregular for a period exceeding 365 days

The Group may also include a credit facility in one of the above categories based on management's judgment of a customer's financial and/or non-financial circumstances.

As at 31 December 2021, non-performing cash finance facilities before impairment and collateral (net of deferred profit and suspended profit) amounted to KD 204,408 thousand (2020: KD 263,153 thousand). A specific provision of KD 150,184 thousand (2020: KD 164,843 thousand) has been made, as detailed below:

a. Non-performing exposures based on standard portfolios

For the year ended 31-12-2021:

6	Real estate investments	47,296	20,024
7	Investment and financing with customers	32,732	34,182
	Total	501,198	406,140

7. Applicable Risk Mitigation Methods

KFH ensures the diversification of exposures according to the standard portfolios, business sectors, and geographical distributions borders. In addition, it ensures the continuous evaluation of risk mitigation methods against finance obligations and credit limits of the customer as per the analytical study of the customer's financial position.

Eligible collaterals and guarantees are calculated as per the CBK's instructions. Netting is applied for exchange of deposits with banks and financial institutions. Standard supervisory haircuts are applied on the eligible collaterals according to the CBK's regulations.

The Bank compliance with the credit concentration limits per customer and maintaining adequate ratios of liquid assets provides several methods to measure the quality and effectiveness of risk mitigation methods used to mitigate capital requirements.

Excessive Risk Resulting from Credit Risk Mitigation: The bank uses financial and nonfinancial collaterals as a credit risk mitigation method. In case of a default or rescheduling due to financial deterioration, provisions are generated to absorb future losses. The bank uses formulated models (used in calculating provisions as per IFRS9) to forecast the expected losses arising from cases in which existing collaterals and calculated provisions are not fully able to absorb losses under a conservative scenario to calculate the residual risk from credit risk mitigation.

Main Types of Collateral: KFH's credit policy has clearly stated all acceptable forms of collateral and the terms and conditions specific to each guarantee. The credit policy has also determined the rate of deduction of each collateral and the necessity of conducting evaluations regularly, according to the collateral's nature.

KFH only accept collaterals that are Shari'a compliant and has stated the acceptable forms of collateral which include:

- Cash Items: e.g., Hamish Jiddiyyah (collateral deposit, Urbūn, Musharakah investment accounts, or cash deposits in the bank.)
- Securities: for listed and unlisted entities
- Real Estate (Private Property): Real estate owned through issuing a document from the Department of Real Estate Registration in the Ministry of Justice. These include commercial, residential, investment, and industrial real estate.
- Real Estate (State Property): Real estate owned by the state but leased for industrial or agricultural use and is funded through the leased property's products. Examples include real estate leased from the Public Authority for Industry or the Public Authority for Agriculture and Fisheries. The only things considered as guarantees are buildings and the right to use them. The land, however, belongs to the state.
- Assignments of right and guarantees
- Machinery and equipment
- Cars/ vehicles

Other forms of collateral other than the above mentioned may be accepted as initial collaterals but must be subject to the approval of the board risk committee.

a. Risk mitigation means of total credit risk exposures

For the year ended 31-12-2021:

KD 000's

Ser.	Credit Risk Exposures	Gross credit exposures	Eligible Collaterals
1	Cash item	203,817	-
2	Claims on sovereigns	5,506,488	-
3	Claims on public sector entities	681,126	-
4	Claims on MDBs	33,745	-
5	Claims on banks	2,867,739	-
6	Claims on corporates	4,164,452	315,552
7	Regulatory retail exposure	4,417,134	153,126
8	Qualifying residential housing financing facilities	492,934	133,630
9	Past due exposures	373,410	64,976
10	Inventory and commodities	18,359	-

10	Inventory and commodities	21,402	-
11	Real estate investments	1,308,584	787,303
12	Investment and financing with customers	723,996	105,543
13	Other exposures	1,614,095	-
	Total	22,309,604	1,545,977

b) Market risk

Market Risk Weighted Exposure during the financial year 2021 amounted KD 203,000 thousand (2020: KD 116,506 thousand), based on the standardized approach. The minimum required capital for market risk exposures amounts to KD 25,375 thousand (2020: KD 14,563 thousand).

One of the methods used to mitigate exchange rate risks for which the Islamic bank is exposed to, include netting of exchange of deposits transactions with banks and financial institutions.

c) Operational risk

Operational risk weighted exposures calculated during the year 2021 amounted to KD 1,457,283 thousand (2020: KD 1,406,781 thousand) as per the Basic Indicator Approach. The amount calculated for operational risk weighted exposures is adequate to cover any projected risks to maintain a reasonable profit ratio for shareholders and investment account owners. The minimum required capital for operational risk exposures amounts to KD 182,160 thousand (2020: KD 175,848 thousand).

KFH views the Internal Capital Adequacy Assessment Process (ICAAP), along with stress tests, as a major managerial tool for assessing the adequacy of capital against the different risks faced by KFH during normal and difficult conditions (stressful situations). The results of stress tests are used to help conduct an effective study to put risks and capital adequacy at the highest levels in the bank. KFH is working to implement an effective risk management framework to ensure an improved level of risk control and effective coordination of risk management activities and initiative at Group level. The ICAAP and stress testing process deals with KFH with its subsidiaries in its consolidated form.

Stress tests are applied on a subsidiary level as well as on a group level. As for Pillar 2 capital requirements, KFH uses 2 methods to consolidate Pillar 2 results on the group level depending on the risk type:

1. **Straight sum of the Pillar 2 capital calculation of the individual subsidiaries and Kuwait results:** This method is used for credit concentration risk, remaining credit risks, liquidity risk, FX risk, legal risk, reputational risk, strategic risk, remaining operational risk and profit rate risk. This ensures conservatism by eliminating the impact of any correlation between these risks

2. **Pillar 2 solo performed on the individual subsidiary level and at the group level:** This method is used for equity price risk. For example, VAR is calculated at the subsidiary portfolio level using relevant variance/ covariance matrices as well as at the group aggregated portfolio. This method allows KFH to account for diversification benefit when VAR calculations are performed on the group portfolio exposures

It is worth noting that, the banking subsidiaries undertake their own Internal Capital Adequacy Assessment independently. In fact, KFH follows a dual top-down and a bottom-up approach. In the top-down approach, the analysis is conducted from the group's parent entity standpoint. The results are then compared and discussed with the banking subsidiaries on foot of their own calculations and analysis (bottom-up approach). This enables management to get a better understanding of the risks at the banking subsidiary level versus at the group level and allows the management to challenge the results of the individual subsidiaries accordingly.

Fourth: Risk Management:

Risk management is an integral part of the decision-making processes for the Group. It is implemented through a governance process that emphasizes independent risk assessment, control and monitoring, overseen directly by the Board and senior management. KFH continues to upgrade its risk management capabilities in the light of developments in the business, banking and stock market regulations, and risk management best practices. KFH operate a "three lines of defense" system for managing risk:

- The first line of defense recognizes that risks are raised by the business units and within their business. In KFH all employees (credit officers, dealers, operators, etc.) are required to ensure the effective management of risks within their organizational responsibilities.
- The second line of defense comprises the Financial Control Department and the Risk Management Department, which are responsible for ensuring that the risks are managed in accordance with the stated risk appetite.
- The third line of defense is the independent assurance provided by the Internal Audit function. Its role is defined and overseen by the Audit Committee. The findings from the Internal Audit audits are reported to all relevant management and governance bodies. The Internal Audit function provides assurance that the overall system of control effectiveness is working as required within the risk management framework.

Risk Strategy is formulated under three pillars:

Group Capital Planning and Risk weighted Assets Optimization:

- Focus is to have a solid capital base that supports planned business growth, absorbs any potential losses "if any", and complies with regulatory requirements.
- Under this pillar, initiatives have been taken to seek the levers of Capital Adequacy Ratio and Enhancing Rating Systems Capabilities.

Improving Asset Quality and Risk Appetite:

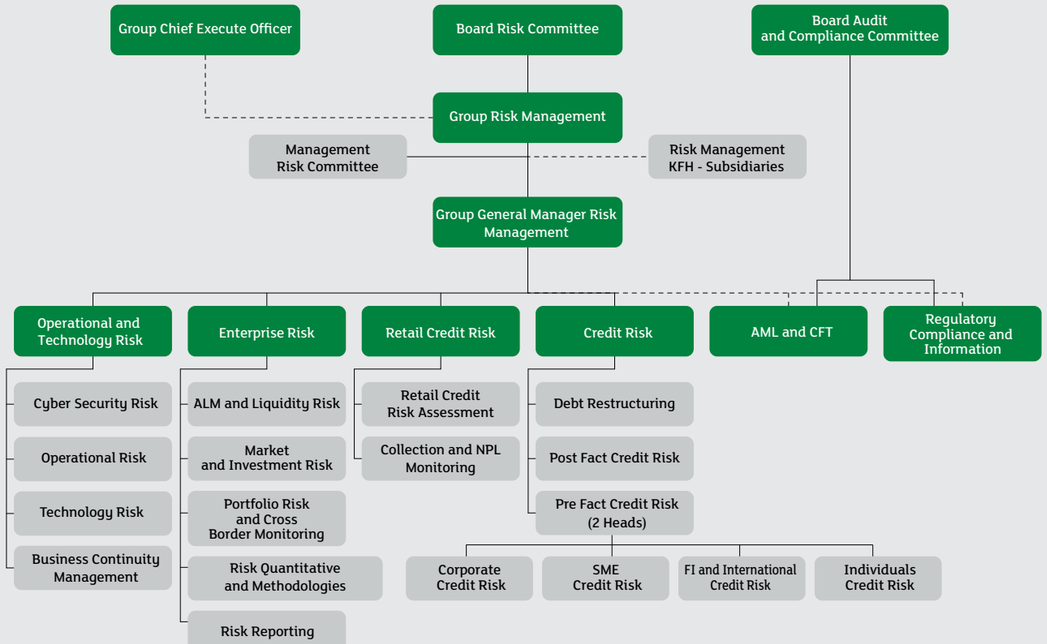
- Enhance Group Risk Appetite to support management to maintain/improve asset quality accompanied with business growth.
- Asset quality has been significantly improved as a result of enhancing financing underwriting criteria, having the right governance in line with best practices as well.

Group Integration:

- Enhancing risk governance, culture, and integration across the group.
- The policies are being reviewed on a regular basis for any potential enhancement from the governance perspective and to reflect the regulatory requirement as well.
- The best practices that improve the governance are being rolled over KFH Banking Subsidiaries.

Organizational Structure

KFH has strong organizational structure to process current and future business needs and avail proper opportunities.



In line with best practices in risk management, KFH has adopted a hybrid mechanism in credit and investment decision making where both businesses and risk management play an active role. This integration of risk management in these decisions ensures an independent and risk experienced judgment as well as compliance with the Bank's internal risk management guidelines and strategy.

Under the framework of KFH's overall risk governance, a specialized unit was established to manage information security and cyber security risks in light of the increasing importance of information security in banking and financial sectors, and to face the challenges arising from risks resulting from the rapid development of modern technologies used in the banking industry. In compliance with the Central Bank of Kuwait instructions issued on 9/10/2019 regarding governance and regulations in Kuwaiti banks, Cyber Security Risk Management took the responsibility of continuous monitoring, detection, and prevention of external security threats which may impact the availability and integrity of our internal/ external data. Robust policies, procedures and standards are in place to prevent cybersecurity incidents and ensure a swift recovery in the event of any cyber security breaches.

Risk Management by Risk Type

KFH group and subsidiaries are exposed to various types of risks. The main types of risk comprise credit risks, market risks, liquidity risk, operational risk, reputation risk and strategic risks.

a) Credit risk

Credit risk is the largest risk faced by KFH. KFH is exposed to credit risk primarily through its financing portfolio. KFH's credit risk sources can be broken down into:

- **Counterparty risk / Default risk** arising from the various exposures in its financing portfolio, as well as from its Sukuk portfolio as follows:
  - **Corporate financing:** financing instruments (other than real estate financing) extended to corporate clients
  - **Retail financing**: financing instruments (other than real estate financing) extended to retail client
  - **Business banking & micro financing:** financing instruments (other than real estate financing) that are less than KD 250,000
  - **Real estate financing:** real estate financing extended to both corporate and retail clients
  - **Financial institutions placement/financing:** direct financing or through treasury activities
  - **Corporate/sovereign Sukuk default risk:** risk of default of the issuers of corporate/ sovereign Sukuks
- **Concentration risk** due to large exposures to single or group of counterparties or sectors which, in the event of a deterioration in credit conditions, would expose the bank to significant losses

The bank is also exposed to credit risk through its investment portfolio as the counterparties fail to deliver the security or its value in cash as per agreement when the security was traded.

Governance and Organizational Structure

The responsibility to manage credit risk resides with different groups within the organization. The role of the credit risk governance structure is to ensure that the credit approval and risk appetite frameworks are effectively in place and that all risks are undertaken within these frameworks. This, together with strong independent oversight and challenge, enables KFH to maintain a sound credit granting environment within risk appetite.

Under the adopted risk governance structure at KFH, the following bodies within the organization are responsible for managing credit risk as follows:

Board of Directors/ Board Risk Committee: The Board has the ultimate responsibility for credit risk oversight. It exercises this by defining the risk appetite for the bank and approving the major policies for managing credit risk (including Credit Policy). The Board is also the ultimate source of credit authority; it delegates part of this authority to the management. The Board & Risk Committee also oversee the risk profile of the bank.

Board Executive Committee / Credit Committee: The Credit Committee reviews and takes action on the credit risk profile of the bank while ensuring alignment with the Board approved risk appetite. The committee ensures at a high level that all approved credit risk policies are complied with and that exceptions are duly approved. It reviews and approves credit applications within the credit approval authority limits delegated to it by the Board. It is also responsible for overseeing problem/ potential problem exposures and recommending course of action. It also governs the credit enhancement framework of the bank.

Special Purpose Committee: Held once per month, this committee performs a detailed review over the portfolio of clients of the banking department and reviews each past due client, collateral coverage, exceptions granted, limits expiry etc...

Business Lines: the different lines of business at KFH share the responsibility of managing credit risk by undertaking risks within the approved limits and tolerances as well as by approving credit applications within their delegated credit approval authority limits delegated by the Board.

Risk Management Department: The Credit Review Department (within the Risk Management Department) undertakes pre-fact analysis of credit applications and post -fact assessment and reporting on credit quality. This enables the Risk Management department. to review and challenge all applications for new, renewed, and restructured financing facilities. The Risk Management department reports to the GCRO who oversees the overall asset portfolio at KFH and ensures its alignment with the approved risk appetite; it is also responsible for defining the methodologies and policies for managing credit risk as well as the models required for measurement.

Internal Audit: the department provides the board and senior management with an independent assurance process for credit risk controls across the organization.

Methods and Processes

KFH credit risk management follows a specific framework to ensure that:

- Clearly defined credit policies for Corporate, Retail, Real Estate and Financial institutions finance. These policies articulate the requirements for approval of new, renewed and amended credit facilities in terms of financial requirements and documentation.
- A system of credit authority matrix that ensures (1) authorities are commensurate with the experience and job levels for employees and managers, (2) the Risk Management department reviews and challenges credit requests, (3) significant credit exposures are approved by management committees or the Board as per delegation of authority matrix, (4) risk management reviews and studies subsequently implemented credit applications and periodically reviews credit portfolios to ensure that they comply with the instructions of the Central Bank of Kuwait and the credit approvals that have been made and to ensure that they do not violate any of the credit policies or the approved delegation of authority, and that there are no expired credit limits and/ or exposures, and that the reasons for the arrears in payments, if any, are identified and specifies ways to treat them.
- A credit rating system for Corporate, SME, Financial Institutions, Real Estate, and High Net Worth financing is in place.
- A system of limits to ensure that the bank undertakes risks within the approved appetite and within regulatory requirements.
- A process to ensure credit policies are complied with regulatory requirements by making sure that the required documentation is in place and the required approvals are obtained.
- Effective follow-up processes to mitigate arrears through early detection of deterioration in the financing portfolio and associated management actions to handle such credits.

KFH's approach, when granting credit facilities, is based primarily on an assessment of the customers' capacity to repay, with supplementary support from credit risk mitigation. Depending on a customer's standing and the type of product, facilities may be provided unsecured. Mitigation of credit risk is a key aspect of effective risk management and takes many forms as approved by CBK. The bank's policy for collaterals defines the list of accepted collaterals and the protection of credits. The collaterals used by the bank include financial collaterals (cash and securities) and non-financial (real estate, bank guarantees, and third-party agreements).

KFH has reviewed and enhanced its corporate financing credit process. The main enhancements to the process include:

(a) Streamlining of the process itself to ensure efficient and effective decision-making process and clear assignment of responsibilities,

(b) Enhancing and realigning the credit authority matrix to ensure proper and clear escalation of decisions and the involvement of all relevant parties from the business, risk, and the Board,

(c) Activate the Credit Committee with the adequate level of membership and authority level to review and approve or recommend credit requests of the Board and higher-level committees.

KFH has adopted the standardized approach to measuring the capital required for credit risk under Pillar 1. However, credit risk arising from name concentration, sector concentration, and those remaining from credit mitigation techniques are captured under Pillar 2 as they are not covered under Pillar 1.

b) Market Risk

Sources of Risk

Market risk is defined as the risk that arises from the Banks' investments transactions, including investments in equity shares (both listed and unlisted), Sukuk, real estate and others. These risks are classified into three main areas through which the market risk is being measured and managed, as it directly impacts the performance of the Bank's investment portfolio, they are as follows:

Price risk: this is the risk arising from the fluctuation in the market value of investments – equity (trading and banking book including strategic investments), Sukuk, and real estate.

FX risk: this is the risk of incurring losses due to changes in currency exchange rates which affects both the banking

book (including structural positions arising from cross-border investments) and trading book.

Profit rate risk: given the Shari'a compliant activities of the bank, profit rate risk results from the effect of the changes in market profit rates that would distress KFH's future cash flows and the fair value of some available for sale financial assets.

Governance and Organization

The management of market risk is primarily undertaken by Treasury department. However, other related parties across the organization also play a role in the management of market risk. Under the Bank governance structure, the following parties within the organization are responsible for managing market risk as follows:

Board of Directors: The board is ultimately responsible for ensuring effective market risk management. It sets themarket risk appetite for the bank and approves the major policies for managing market risk. The Board also overseesthe risk profile of the bank throughout the Board Risk Committee.

ALCO/GALCO: the committee is responsible for maintaining oversight and managing the structure/ composition of the balance sheet (Group and Kuwait Standalone) to ensure alignment with the Board approved risk appetite and bank wide strategy. The ALCO/GALCO also sets Treasury strategy. ALCO/GALCO is held on regular basis and more frequently, if required. The committee ensures at a high level that all approved market risk policies are complied with and that exceptions are duly approved. it also decides on the hedging policy of the bank and on the hedging mechanisms and hedging products.

Treasury department/ Investment arm of KFH: Treasury executes the overall bank strategy and mitigate the risks undertaken by the bank. Starting 2015, KFH Capital (subsidiary) became the investment arm for KFH Group. KFH Capital function is to manage the bank's investment portfolio within the approved risk appetite and levels.

Risk Management Department: The market risk management independently monitors, follows-up and controls the treasury and investment activities, and propose the necessary limits. Market Risk management identify and measure market risk exposure to the bank. Such risks are presented and discussed in more than one committee. It's also managing the market risk from comprehensive Bank perspective to track the potential concentrations, and to raise the necessary recommendations to mitigate risk, when necessary. Also, it oversees compliance with the Market risk policies and limits.

Internal Audit: the department provides the board and senior management with an independent assurance process for market risk controls across the organization.

Methods and Processes

The objective of KFH's market risk management processes is to manage and control market risk exposures in order to optimize return on risk while maintaining a market risk profile consistent with risk appetite.

Market risk Framework operates within the bank strategy and approved risk appetite and related risks taking into consideration the following:

- Earnings at risk
- Economic value of equity
- FX open positions
- Investment exposure by type
- Value at Risk (VAR)
- Duration & Convexity

KFH adopts an end-to-end review of its investment process and performance management framework on a regular basis. This includes defining target sectors and geographies, limits on exposures within sectors, and geographical areas.

KFH also develops restructuring plans for activities and investment portfolios. These plans include assessing consolidation or exit/divestment options especially for those investments that are under-performing towards expectation or increasing the Group's profitability.

The bank also conducts a periodical valuation of its real estate investments using 2 different valuation sources as per CBK requirements.

In terms of inventory risk, KFH has a well-developed and successful business model for managing its car fleet for sales and leasing. This includes well-developed relationships with suppliers to source and sell cars without negatively impacting the business.

KFH has adopted the standardized approach to measuring the capital required for market risk under Pillar 1. However, market risk arising from FX positions, price risk and profit rate risk are further captured under Pillar 2.

Liquidity Risk

Sources of Liquidity Risk

KFH identifies two sources of liquidity risk as follows:

- Funding Liquidity Risk: Risk arising from KFH's inability to meet its commitments when they become due because of unavailability of funding options and depositors systematically withdrawing their funds.
- Displaced commercial risk: Risk that deposit holders withdraw their money in pursuit of more attractive returns because KFH pays a return on deposits that is lower than competitors.
- Market Liquidity Risk: Market liquidity risk stems from the risk that the bank is unable to clear a position at the current revealed market price due to market disruption or the deficiencies in market depth.

Governance and Organization

KFH Board, ALCO/GALCO and treasury function are ultimately responsible for the management of the group liquidity risk. However other parties in the organization play a role in ensuring the liquidity risk management framework is in place and operating effectively:

Board of Directors: Board is ultimately responsible for ensuring effective management of liquidity risk. It sets the liquidity and funding risk appetite for the bank and approves the major policies concerning liquidity risk management and funding. The Board also oversees the liquidity and funding risk profile of the bank.

ALCO/GALCO: the committee is tasked with the active oversight of funding and liquidity risk management for (KFH Kuwait & Group). They approve the policy framework in the first instance and monitor its implementation in its regular meetings.

Treasury: Treasury executes strategies to mitigate and manage liquidity risk. Treasury also monitors liquidity positions.

Risk Management: The Liquidity Management Unit's methodology is based on following-up with Treasury Department through identifying, measuring, and monitoring liquidity risk on a regular, active, and independent basis. KFH is committed to all liquidity regulatory limits through KFH's prudent liquidity management framework.

Internal Audit: the department provides the board and senior management with an independent assurance process for liquidity risk controls across the organization.

Methods and Processes

To manage liquidity risk, the Bank has adopted the policies of liquidity risk including operational management of liquidity risk, policy of contingency financing plan and the distribution of responsibilities. The framework of liquidity risk at KFH is working on always ensuring and having a sufficient liquidity to meet the expected or unexpected demands by customers and money market at an accepted price for KFH and in compliance with the Islamic rules of Shari'a. The Contingency Plan has been implemented to enable KFH of managing liquidity in case of the occurrence of liquidity crisis.

As set out in BASEL III guidelines and in reference to the best practices of managing and monitoring the banks liquidity risk, KFH has adopted the BASEL III Liquidity ratios: Liquidity coverage ratio (LCR), and Net Stable Funding ratio (NSFR). LCR and NSFR are being measured on frequently basis throughout KFH Kuwait and banking group as per the Central bank of Kuwait circular and guidelines to insure that KFH is always managing the liquidity risks, well-funded and complied with the liquidity regulator's limits of those ratios.

KFH ensures that liquidity risk is adequately mitigated through the following liquidity strategies:

- Maintaining a stock of high-quality liquid assets that can be used (liquidated or borrowed against) to provide cash in the event of an unexpected demand for cash by customers.
- Diversifying funding resources in terms of source, tenor and re-pricing characteristics to mitigate the risk of not being able to access cash at an acceptable price at all times.
- Monitoring movements in both on and off-balance sheet assets and liabilities to identify points of pressure for liquidity management.

- Implementing stress scenarios to identify periods of reduced liquidity and incorporate these into the assessment of liquidity requirements.
- Identifying and ranking all funding sources available to the Bank and to establish a plan for calling on these to ensure adequate liquidity at all times (funding contingency plan);
- Assigning responsibility for the actions required to ensure an effective liquidity risk management framework is in place.

KFH believes it is adequately funded. The interest of prudent management it has an approved funding contingency plan. it monitors its liquidity and funding position under forecasted and stressed business assumptions and report this to ALCO/GALCO, the Executive Committee and the Board Risk Committee on a regular basis. The funding contingency plan requires the establishment of funding sources to be called on in progressively worsening situations and set clear responsibilities for the executives tasked with managing liquidity under the Plan. Further, Capital required to cover liquidity risk due to increases in funding costs is captured under KFH's Pillar 2 capital requirements.

d) Operational Risks

Sources of Risk

KFH is exposed to the risk of loss because of inadequate or failed internal processes, people and systems or from :external events, including legal risk. Accordingly, operational risk could be broken down as follows

Operational Risk: Risk of losses resulting from execution, delivery and process management, damage to physical assets, violation of employment practices and workplace safety regulations and products or business practices.

Legal and Compliance Risk: Risk of incurring losses due to violations of or ambiguous practices regarding laws, rules, regulations, policies procedures, contractual obligations, or ethical standards.

Technology Risk: Risk of losses or service disruptions arising from the failure of Information Technology e.g. system defects, faults, or incompleteness in computer operations, in addition to illegal or unauthorized use of computer systems that may lead to an adverse impact on the confidentiality, availability and integrity of the systems and data.

Fraud Risk: Risk of losses due to internal fraud, e.g. fraud by employees and external fraud, e.g. third-party, theft, and forgery.

Governance and Organization

Operational risk management is primarily the responsibility of all employees and business management. Each department head has responsibility for maintaining oversight over operational risk and internal control, covering all processes for which they are responsible.

Other entities in the organization which are responsible for the governance of operational risk management are as follows:

Board of Directors / Board Risk Committee: The Committee is ultimately responsible for ensuring effective operational risk management. It sets the operational risk appetite for the bank and approves the major policies for managing operational risk.

Risk Management Department: The Operational Risk Management department of the new risk organization primarily assists the management in discharging its responsibility to oversee operational risk within their departments. It is also responsible for maintaining the operational risk management framework, monitoring the level of operational losses and the effectiveness of the control environment. It is also responsible for operational risk reporting.

Internal Audit: the department provides the board and senior management with an independent assurance process for operational risk controls across the organization.

Methods and Processes

The objective of KFH's operational risk management framework is to manage and control operational risks in a cost effective manner within targeted levels of operational risk consistent with the approved risk appetite.

KFH is implementing Risk Control Self-Assessment "RCSA" process which entails defining business objectives and the respective key risks, mapping control activities to the risks, assigning control activities owners, and assessing the effectiveness of controls and the residual risks and developing risk treatment action plans intended to mitigate risks.

RCSAs has been conducted and completed for Business Units that is according to Operational Risk Management's Plan.

The bank has also defined several operational KRIs which are currently being measured and monitored for Key Business Activities.

The bank also systematically captures risk event data from the businesses and functional departments through the loss data management system and collection workflow.

In terms of business continuity management, the bank has in place a committee monitoring the implementation of the business continuity plan. To date, a complete business impact analysis has been developed and signed off.

KFH has adopted the basic indicator approach to measuring the capital required for operational risk under Pillar 1.

In addition, the bank simulated under Pillar 2 the expected losses from 7 different operational loss events: internal fraud, external fraud, employment practices and workplace safety, clients, products, & business practices, damage to physical assets, business disruption and system failures, and execution, delivery & process management. Residual risks resulting from operational risks are covered by the capital requirements estimated as part of the Monte Carlo simulations conducted under Pillar 2 to test the mitigates of operational risk. The bank also calculates capital required to cover losses from legal risk under Pillar 2.

e) Rate of Return Risks

Profit rate Risk result from the possible impact of those changes on the yield curve over future cash flows or fair value of financial tools. The group is not exposed to profit rate risks as the bank operates in accordance with Shari'a regulations. However, variations in the rate of return may affect the fair value of certain financial available for sale assets. Risk department follows up and measures variation in profit rate risk and applies various stringent scenarios, taking into consideration factors impacting contract prices including:

- CBK discount rate
- Economic activity (growth/ recession)
- Current phase of economic cycle.
- Profit distribution ratios provided by other Islamic banks.

Fifth: Investment Accounts Related Information

KFH provides a variety of investment saving accounts in order to encourage the customers to save and plan for their future along with benefiting from the profits of their saved amounts. Therefore, KFH offers such accounts to various age groups with various features and advantages where accounts can be opened in Kuwaiti Dinars as well as foreign currencies. Such accounts include: (Investment Saving Account in Kuwaiti Dinars and foreign currencies, Al-Rabeh Account, Baiti Account and Wakala based Corporates Call Account).

All investment saving accounts can be opened for both individuals (either adults or minors) and corporates according to the special conditions and provisions of such types of accounts. As for the call accounts, they are designed only (.for corporates and legal entities (committees, associations, etc

All investment saving accounts are invested according to the Shari'a principles of "Mudarabah" and "Wakala" as per the conditions of the investment contract and profit-sharing ratios.

Information on Long Term Investment Plans and Deposits

KFH provides many types of investment deposits for customers to avail large number of investment tools that help customer to invest and achieve safe and secured profits. KFH offers these deposit accounts in different time segments with many advantages, be it in Kuwaiti Dinar or foreign currencies. These deposit accounts include (Investment Savings Account in Kuwaiti Dinar or foreign currencies – Alrabeh Account – Baiti Account for children – Wakala based on demand account for corporates.)

Long term investment plans are split into different types ("Jameati" higher education investment plan – "Injaz" achievement investment plan – "Rafaa" Marriage investment plan – "Thimar" retirement investment plan – "Shifaa" special health care investment plan.

All such investment deposits can be opened to all individuals who have reached the legal age of 21 year, or by legal guardians on the behalf of the underaged individuals. These deposits, except for the long term investment plans, can be opened to all corporates and legal entities (committees, associations, institutions, etc...)

The importance of investment deposits arises from providing greater stability to the bank's operations. Hence, KFH can invest such investment deposits in various productive projects, either directly or through providing finance to third parties, noting that all accounts are invested in accordance with the Shari'a principles of Mudarabah or investment Wakala.

Gold Account

Out of KFH' keenness on diversification of the product activities and keeping pace with the global economic changes that had been accompanied with increased global trends for buying and selling gold bullion, KFH has launched, being the first in Kuwait to offer a service of this kind, the Gold Account which enables customers to buy, sell, withdraw, and deposit gold safely effectively and restfully. In addition, the gold that is offered by KFH is the purest at (999.9) carats. Moreover, KFH's customers can open a gold account, buy and sell gold, and request statement of account through all KFH branches, KFH online services or KFH mobile application, or KFH Automated Teller Machines.

As part the chain of digital banking services that it has initiated, and to comply with the customers need of change to a "new generation of easy digital banking services" that offer customers vast qualities and around the clock services easily and safely, KFH has asked to launch the service in which customers may buy a 10-gram gold bullion and receive it immediately from KFH interactive XTMs.

Sixth: Shari'a Controls

Fatwa and Shari'a Supervisory Board

Fatwa and Shari'a Supervisory Board ("FSSB") follows regulatory policies and procedures to ensure the compliance of all KFH's sectors and departments to its decisions. To achieve this goal, FSSB may adopt the following:

1. Develop Shari'a training programs for KFH employees on the basic and advanced levels in coordination with the Training and Development - Human Resources and General Services Department - KFH.
2. Ensure the compliance of KFH's sectors and departments with presenting all their activities to FSSB, to review and approve the contracts and agreements models, policies, procedures and financing structures; with a view of ensuring that they are free of Shari'a prohibitions.
3. Review the periodical and final Shari'a audit reports related to all KFH's sectors and departments as raised by Shari'a Control and Consultancy Department; to ensure the compliance with Shari'a regulations.
4. Ensure that all revenues recognized from non-Shari'a compliant sources or by means prohibited by Shari'a have been disposed to be used for charity purposes.
5. Zakat is calculated following the CBK's approval on KFH's financial statements.
6. The General Assembly shall determine the remuneration of the FSSB's members.

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF KUWAIT FINANCE HOUSE K.S.C.P.

Report on the Audit of Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Kuwait Finance House K.S.C.P. (the "Bank") and its subsidiaries (collectively "the Group"), which comprise the consolidated statement of financial position as at 31 December 2021, and the consolidated statement of income, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2021, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the Central Bank of Kuwait ("CBK") for use by the State of Kuwait.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

EY
Building a better working world

Deloitte.

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF KUWAIT FINANCE HOUSE K.S.C.P. (continued)

Report on the Audit of Consolidated Financial Statements (continued)

Key Audit Matters (continued)

Credit losses on financing receivables

The recognition of credit losses on financing receivables ("financing facilities") is the higher of Expected Credit Loss ("ECL") under International Financial Reporting Standard 9: Financial Instruments ("IFRS 9"), determined in accordance with the CBK guidelines, or the provision required by the CBK rules based on classification of financing facilities and calculation of their provision (the "CBK instructions") as disclosed in the accounting policies in Note 2.6 and Note 10 to the consolidated financial statements.

The recognition of ECL under IFRS 9, determined in accordance with the CBK guidelines, is a complex accounting policy, which requires considerable judgement in its implementation. ECL is dependent on management's judgement in assessing the level of credit risk on initial recognition and significant increase in credit risk subsequently on the reporting date for classification of financing facilities into various stages; use of a large number of interrelated inputs and assumptions such as the financial asset's probability of default, loss given default and exposure at default, which are modelled based on macroeconomic variables, and discounted to the reporting date. Furthermore, the COVID-19 global pandemic impacted management's determination of the ECL as it required the application of unusually high level of judgment and estimation uncertainty, which may materially change the estimates in future periods.

The recognition of a specific provision on an impaired financing facility under the CBK instructions is based on the rules prescribed by the CBK on the minimum provision to be recognized together with any additional provision to be recognised based on management estimate of expected cash flows related to that financing facility.

Due to the significance of financing facilities and the related judgement in designing and forecasting macro-economic variables and application of probability weighted scenarios together with high degree of estimation uncertainty due to the economic impacts of COVID 19, we have considered credit losses on financing receivables as a key audit matter.

Our audit procedures included testing the effectiveness of controls over: management's process of assessing the significant increase in credit risk and consequent classification of facilities into various stages; inputs and assumptions used in developing probability of default, loss given default and exposure at default models; their governance; the completeness and accuracy of data used and judgements and estimates applied by management including incorporation of the considerations of economic disruptions caused by COVID 19 including a focus on rescheduled financing facilities.

Deloitte.

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF KUWAIT FINANCE HOUSE K.S.C.P. (continued)

Report on the Audit of Consolidated Financial Statements (continued)

Key Audit Matters (continued)

Credit losses on financing receivables (continued)
With respect to the ECL based on IFRS 9, determined in accordance with the CBK guidelines, we have selected a sample of financing facilities outstanding as at the reporting date, which included rescheduled financing facilities, and checked the appropriateness of the Group's determination of significant increase in credit risk and the resultant basis for classification of the financing facilities into various stages. We involved our specialists to review the ECL model in terms of key data, methods and assumptions used to ensure they are in line with IFRS 9 requirements, determined in accordance with CBK guidelines. For a sample of financing facilities, we have evaluated the Group's staging criteria, Exposure at Default ("EAD") Probability of Default ("PD") and Loss Given Default ("LGD") including the eligibility and value of collateral considered in the ECL models used by the Group, in order to determine ECL taking into consideration CBK guidelines. We have also assessed the consistency of various inputs and assumptions used by the Group's management to determine ECL.

Further, for CBK provision requirements, we have assessed the criteria for determining whether there is a requirement to calculate any credit loss in accordance with the related regulations and, if required, it has been computed accordingly. For the samples selected, which included rescheduled financing facilities, we have verified whether all impairment events have been identified by the Group's management. For the selected samples which also included impaired financing facilities, we have assessed the valuation of collateral and reperformed the resultant provision calculations.

Impairment of investment in associates and joint ventures
The investment in associates and joint ventures are accounted for using the equity method of accounting and considered for impairment in case of indication of impairment. Significant management judgement is required in determining whether there are any indications of impairment and in estimating the recoverable amounts of the investment in associates and joint ventures based on the value in use, especially due to the ongoing Covid-19 pandemic. Accordingly, we considered this as a key audit matter.

We carried out procedures to understand and test management's process for identifying impairment triggers, by reference to various external and internal information, including available information in the relevant markets and industries, and assessing whether there were any significant adverse changes in the technological, market, economic, or legal environment in which the investee operates, structural changes in the industry in which the investee operates, changes in the political or legal environment affecting the investee's business and changes in the investee's financial condition. Our audit procedures also included, amongst others, assessing the recoverable amounts determined by management and the valuation methods used. We evaluated the design and implementation of controls over management's process of impairment assessment, evaluated the key assumptions used by management in determining the value-in-use computation, including the impact of the Covid-19 pandemic on markets and businesses. We also assessed the adequacy of the Group's disclosure in Notes 13 and 14 to the consolidated financial statements.

Deloitte.

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF KUWAIT FINANCE HOUSE K.S.C.P. (continued)

Report on the Audit of Consolidated Financial Statements (continued)

Key Audit Matters (continued)

Impairment of investment properties
Management's assessment of impairment of investment properties was significant to our audit because this process is complex and requires judgement. Furthermore, impairment testing of investment properties can be inherently subjective, particularly given the number and diverse nature and location of the Group's real estate properties, and the impact of the on-going Covid-19 pandemic on the economy. Accordingly, we considered this a key audit matter.

We assessed the design and implementation of controls over the inputs and assumptions used in the valuation models, selected samples and considered the methodology and the appropriateness of the valuation models and inputs used to value the investment properties. Further, we used our internal specialists to assess the valuation of significant investment properties located outside the Middle East. As part of these audit procedures, we assessed the accuracy of key inputs used in the valuation such as the rents, gross multiplier yield, market comparable, and discount rates. We also evaluated the Group's assessment whether objective evidence of impairment exists for international investment properties. The disclosure relating to the investment properties is given in Note 15 to the consolidated financial statements.

Other information included in the Group's 2021 Annual Report
Management is responsible for the other information. Other information consists of the information included in the Group's 2021 Annual Report, other than the consolidated financial statements and our auditor's report thereon. We obtained the report of the Bank's Board of Directors, prior to the date of our auditor's report, and we expect to obtain the remaining sections of the Annual Report after the date of our auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Deloitte.

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF KUWAIT FINANCE HOUSE K.S.C.P. (continued)

Report on the Audit of Consolidated Financial Statements (continued)

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs as adopted by CBK for use by the State of Kuwait, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Kuwait Finance House (K.S.C.P.) and Subsidiaries
Annual Report 2021
Consolidated Financial Statements - 31 December 2021

Building a better working world

Deloitte.

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF KUWAIT FINANCE HOUSE K.S.C.P. (continued)

Report on the Audit of Consolidated Financial Statements (continued)

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements (continued)

- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Furthermore, in our opinion proper books of account have been kept by the Bank and the consolidated financial statements, together with the contents of the report of the Bank's Board of Directors relating to these consolidated financial statements, are in accordance therewith. We further report that we obtained all the information and explanations that we required for the purpose of our audit; and that the consolidated financial statements incorporate all information that is required by the Capital Adequacy Regulations and Financial Leverage Ratio Regulations issued by the Central Bank of Kuwait ("CBK") as stipulated in CBK Circular Nos. 2/RB, RBA/336/2014 dated 24 June 2014 and its amendments; and 2/I.B.S./343/2014 dated 21 October 2014 and its amendments, respectively; the Companies Law No.1 of 2016, as amended and its executive regulations, as amended and by the Bank's Memorandum of Incorporation and Articles of Association, as amended; that an inventory was duly carried out; and that to the best of our knowledge and belief, no violations of the Capital Adequacy Regulations and Financial Leverage Ratio Regulations issued by the CBK as stipulated in CBK Circular Nos. 2/RB, RBA/336/2014 dated 24 June 2014 and its amendments, and 2/I.B.S./ 343/2014 dated 21 October 2014 and its amendments, respectively; the Companies Law No.1 of 2016, as amended and its executive regulations, as amended or of the Bank's Memorandum of Incorporation and Articles of Association, as amended have occurred during the year ended 31 December 2021 that might have had a material effect on the business of the Bank or on its financial position.

We further report that, during the course of our audit, we have not become aware of any violations of the provisions of Law No 32 of 1968, as amended, concerning currency, the Central Bank of Kuwait and the organisation of banking business, and its related regulations, during the year ended 31 December 2021 that might have had a material effect on the business of the Bank or on its financial position.

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2021

1 CORPORATE INFORMATION

The consolidated financial statements of the Group for the year ended 31 December 2021 were authorised for issue in accordance with a resolution of the Bank's Board of Directors on 10 January 2022. The general assembly of the shareholders of the Bank has the power to amend these consolidated financial statements after issuance.

The Group comprises Kuwait Finance House K.S.C.P. ("the Bank") and its consolidated subsidiaries (collectively "the Group") as noted in Note 18.1. The Bank is a public shareholding company incorporated in Kuwait on 23 March 1977 and is registered as an Islamic bank with the Central Bank of Kuwait ("CBK"). It is engaged in all Islamic banking activities for its own account as well as for third parties, including financing, purchase and sale of investments, leasing, project construction and other trading activities without practising usury. The Bank's registered head office is at Abdulla Al-Mubarak Street, Murqab, Kuwait.

All activities are conducted in accordance with Islamic Shari'a, as approved by the Bank's Fatwa and Shari'a Supervisory Board.

2.1 BASIS OF PREPARATION

The consolidated financial statements have been prepared in accordance with the regulations for financial services institutions as issued by the Central Bank of Kuwait (CBK) in the State of Kuwait. These regulations require banks and other financial institutions regulated by CBK to adopt the International Financial Reporting Standards as issued by the International Accounting Standards Board (IASB) with the following amendments:

- Expected credit loss ("ECL") to be measured at the higher of ECL provision on credit facilities computed under IFRS 9 – Financial Instruments ("IFRS 9") in accordance with CBK guidelines or the provisions as required by CBK instructions along with its consequent impact on related disclosures; and

- Recognition of modification losses on financial assets arising from payment holidays to customers as a result of COVID during the financial year ended 31 December 2020, as required by CBK circular no. 2/BS/IBS/461/2020 dated 5 July 2020. Modification losses referred to in the circular, should be recognised in retained earnings instead of profit or loss as would be required by IFRS 9. However, modification loss on financial assets arising from any other payment holidays to customers shall be recognised in profit or loss in accordance with IFRS 9. All modification losses incurred after the year ended 31 December 2020 are recognised in the consolidated statement of income. The application of the policy will result in application of different accounting presentation for modification loss in 2020 compared to 2021.

The above framework is hereinafter referred to as "IFRS as adopted by CBK for use by the State of Kuwait".

The consolidated financial statements are prepared under the historical cost convention modified to include the measurement of financial assets at fair value, venture capital at fair value through profit or loss, precious metals inventory, currency swaps, profit rate swaps, forward foreign exchange and forward commodity contracts.

The consolidated financial statements are presented in Kuwaiti Dinars (KD) and all values are rounded to the nearest thousand Dinars, except when otherwise indicated.

2.2 PRESENTATION OF FINANCIAL STATEMENTS

The Group presents its statement of consolidated financial position in order of liquidity.

2.3 CHANGES IN ACCOUNTING POLICIES

New standards, interpretations, and amendments adopted by the Group

IBOR reform Phase 2
The Bank has adopted the requirements of 'Profit Rate Benchmark Reform – Phase 2: Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16' (IBOR reform Phase 2) which is effective for annual periods beginning on or after 1 January 2021 with earlier adoption permitted.

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.3 CHANGES IN ACCOUNTING POLICIES (continued)

New standards, interpretations, and amendments adopted by the Group (continued)

IBOR reform Phase 2 (continued)
IBOR reform Phase 2 includes a number of reliefs and additional disclosures. The reliefs apply upon the transition of a financial instrument from an IBOR to a risk-free-rate (RFR). Changes to the basis for determining contractual cash flows as a result of profit rate benchmark reform are required as a practical expedient to be treated as changes to a floating profit rate, provided that, for the financial instrument, the transition from the IBOR benchmark rate to RFR takes place on an economically equivalent basis.

IBOR reform Phase 2 provides temporary reliefs that allow the Bank's hedging relationships to continue upon the replacement of an existing profit rate benchmark with an RFR. The reliefs require the Bank to amend hedge designations and hedge documentation. For new RFRs that are not yet an established benchmark, relief is provided from this requirement provided the Bank reasonably expects the RFR to become separately identifiable within 24 months. Any hedging relationships that prior to application of IBOR reform Phase 2, have been discontinued solely due to IBOR reform and meet the qualifying criteria for hedge accounting when IBOR reform Phase 2 is applied, must be reinstated upon initial application.

The Group is currently in the process of running a project on the Group's transition activities and prepared for adopting alternate reference rates and continues to engage with various stakeholders to support the orderly transition and to mitigate the risks resulting from the transition.

Other amendments to IFRSs which are effective for annual accounting period starting from 1 January 2021 did not have any material impact on the accounting policies, financial position or performance of the Group.

2.4 STANDARDS ISSUED BUT NOT YET EFFECTIVE

The significant and amended standards and interpretations that are issued, but not yet effective up to the date of the Group's consolidated financial statements are disclosed below. The Group intends to adopt these new standards and amended standards and interpretations when they become effective.

IFRS 17 Insurance Contracts
In May 2017, the IASB issued IFRS 17 Insurance Contracts (IFRS 17), a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, IFRS 17 will replace IFRS 4 Insurance Contracts (IFRS 4) that was issued in 2005. IFRS 17 applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply. IFRS 17 introduces new accounting requirements for banking products with insurance features that may affect the determination of which instruments or which components thereof will be in the scope of IFRS 9 or IFRS 17.

Financing contracts that meet the definition of insurance but limit the compensation for insured events to the amount otherwise required to settle the policyholder's obligation created by the contract: Issuers of such financings – e.g. a financing with waiver on death – have an option to apply IFRS 9 or IFRS 17. The election would be made at a portfolio level and would be irrevocable.

IFRS 17 is effective for reporting periods beginning on or after 1 January 2023, with comparative figures required. Early application is permitted, provided the entity also applies IFRS 9 and IFRS 15 on or before the date it first applies IFRS 17. The Group is currently in the process of assessing the impact of adopting IFRS 17 on its consolidated financial statements.

IFRS 9 Financial Instruments – Fees in the '10 per cent' test for derecognition of financial liabilities
As part of its 2018-2020 annual improvements to IFRS standards process the IASB issued amendment to IFRS 9. The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. The amendment is effective for annual reporting periods beginning on or after 1 January 2022 with earlier adoption permitted. The amendments are not expected to have a material impact on the Group.

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.4 STANDARDS ISSUED BUT NOT YET EFFECTIVE (continued)

Definition of Accounting Estimates - Amendments to IAS 8
In February 2021, the IASB issued amendments to IAS 8, in which it introduces a definition of 'accounting estimates'. The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, they clarify how entities use measurement techniques and inputs to develop accounting estimates. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and apply to changes in accounting policies and changes in accounting estimates that occur on or after the start of that period. Earlier application is permitted as long as this fact is disclosed. The amendments are not expected to have a material impact on the Group.

Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Practice Statement 2
In February 2021, the IASB issued amendments to IAS 1 and IFRS Practice Statement 2 Making Materiality Judgements, in which it provides guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures. The amendments to IAS 1 are applicable for annual periods beginning on or after 1 January 2023 with earlier application permitted. Since the amendments to the Practice Statement 2 provide non-mandatory guidance on the application of the definition of material to accounting policy information, an effective date for these amendments is not necessary.

The Group is currently assessing the impact of the amendments to determine the impact they will have on the Bank's accounting policy disclosures.

2.5 BASIS OF CONSOLIDATION

The consolidated financial statements comprise the financial statements of the Group as at 31 December each year and its subsidiaries as at the same date or a date not earlier than three months from 31 December. The financial statements of subsidiaries, associates and joint ventures are prepared using consistent accounting policies and are adjusted, where necessary, to bring the accounting policies in line with those of the Group. All significant intercompany balances and transactions, including unrealised profit or loss arising from intra-group transactions have been eliminated on consolidation.

a. Subsidiaries
Subsidiaries are all entities over which the Group has control. Specifically, the Group controls an investee if, and only if, the Group has:
- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee
- The ability to use its power over the investee to affect its returns

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Refer Note 18 for the list of material subsidiaries, their principal businesses and the Group's effective holding.

b. Non-controlling interest
Interest in the equity of subsidiaries not attributable to the Group is reported as non-controlling interest in the consolidated statement of financial position. For each business combination, non-controlling interest in the acquiree is measured either at fair value or at the proportionate share in the recognised amounts of the acquiree's identifiable net assets. Losses are allocated to the non-controlling interest even if they exceed the non-controlling interest's share of equity in the subsidiary. Transactions with non-controlling interests are treated as transactions with equity owners of the Group. A change in ownership interest in a subsidiary, without a loss of control, is accounted for as an equity transaction.

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business combinations and goodwill
Business combinations are accounted for using the purchase method of accounting. This involves recognising identifiable assets (including previously unrecognised intangible assets) and liabilities (including contingencies but excluding future restructuring) of the acquired business at fair value. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognised as goodwill. If the cost of acquisition is less than the fair values of the identifiable net assets acquired, the discount on acquisition is recognised directly in the consolidated statement of income in the year of acquisition.

Following initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is reviewed for impairment annually, or more frequently, if events or changes in circumstances indicate that the carrying value may be impaired. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash– generating units (CGUs) or group of CGUs, which are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. Each unit to which the goodwill is allocated represents the lowest level within the Group at which the goodwill is monitored for internal management purposes and is not larger than an operating segment in accordance with IFRS 8 Operating Segments.

Where goodwill has been allocated to a CGU (or group of CGUs) and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed off in these circumstances is measured based on the relative fair values of the disposed operation and the portion of the CGU retained.

When subsidiaries are sold, the difference between the selling price and the net assets plus associated cumulative translation differences, cash flow hedge and goodwill is recognised in the consolidated statement of income.

Investment in associates and joint ventures
An associate is an entity over which the Group has significant influence but not control. Significant influence is the power to participate in the financial and operating policy decision of the investee but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries.

Investment in an associate and joint ventures are initially recognised at cost and subsequently accounted for by the equity method of accounting. The Group's share of its associates' and joint ventures post-acquisition profits or losses is recognised in the consolidated statement of income, and its share of post-acquisition movements in other comprehensive income is recognised in the consolidated statement of other comprehensive income. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment.

The Group determines at each reporting date whether there is any objective evidence that the investment in associate and joint ventures are impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and joint venture and its carrying value and recognises the amount in the consolidated statement of income. Upon loss of significant influence or joint control over the associate or joint venture, the Group measures and recognises any retained investment at its fair value. Gain or loss on such transaction is computed by comparing the carrying amount of the associate or joint venture at the time of loss of significant influence or joint control with the aggregate of fair value of the retained investment and proceeds from disposal. Such gain or loss is recognised in the consolidated statement of income.

Foreign currency translation
The consolidated financial statements are presented in Kuwaiti Dinars, which is the Group's functional and presentational currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Kuwait Finance House (K.S.C.P.) and Subsidiaries
Annual Report 2021
Consolidated Financial Statements - 31 December 2021

Kuwait Finance House K.S.C.P. and Subsidiaries
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021
2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Foreign currency translation (continued)
Transactions and balances
Transactions in foreign currencies are initially recorded in the functional currency rate of exchange ruling at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange ruling at the financial position date. All differences are included within net gain/loss from foreign currencies in the consolidated statement of income.

Non–monetary items that are measured at historical cost in a foreign currency are translated using the spot exchange rates as at the date of recognition. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on retranslation of non-monetary items is treated in line with the recognition of gain or loss on change in fair value of the item.

Group companies
On consolidation the assets and liabilities of foreign subsidiaries are translated into Kuwait Dinar at the rate of exchange prevailing at the reporting date and their income statements are translated at average exchange rates. The exchange differences arising on translation for consolidation are recognised in other comprehensive income. On disposal, liquidation, repayment of share capital or abandonment of all, or part of a foreign subsidiary, the component of other comprehensive income relating to that particular foreign subsidiary, is recognised in the consolidated statement of income.

Any goodwill arising on the acquisition of a foreign subsidiary and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign subsidiary and translated at the spot rate of exchange at the reporting date.

Revenue recognition
The following specific recognition criteria must also be met before revenue is recognised:

i) Financing income is income from murabaha, istisna'a, leased assets, wakala investments and investment in Sukuk and is determined by using the effective profit method. The effective profit method is a method of calculating the amortised cost of a financial asset and of allocating the financing income over the relevant period.
ii) Fees and commission income are recognised when the Group satisfies the performance obligation by transferring the promised service to customers. At inception of the contract, the Group determines whether it satisfies the performance obligation over a period of time or at a point in time. Fees income earned from services provided over a period of time is recognised over the period of service. Fees and commissions arising from providing a transaction service are recognised at a point in time on completion of the underlying transaction.
iii) Rental income from investment properties is recognised on an accrual basis.
iv) Dividend income is recognised when the right to receive payment is established.
v) Operating lease income is recognised on a straight-line basis in accordance with the lease agreement.
vi) Gain from real estate investments includes gains from sale of investment properties and trading properties. Real estate gain is recognised when the significant risks and returns have been transferred to the buyer including satisfaction of all conditions of a contract.

Trading properties
Trading properties are measured initially at cost. Subsequent to initial recognition, trading properties are carried at the lower of cost or net realizable value determined on an individual basis.

Investment properties
Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at depreciated cost less impairment.

Investment properties are derecognised when either they have been disposed off or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal.

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment properties (continued)
The difference between the net disposal proceeds and the carrying amount of the investment property is recognised in the consolidated statement of income in the year of derecognition as gain of sale of real estate investment.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to property and equipment, the deemed cost for subsequent accounting is the carrying value at the date of change in use. If property and equipment become an investment property, the Group accounts for such property in accordance with the policy stated under property and equipment up to the date of change in use.

When the Group begins to redevelop an existing investment property with a view to selling the property, it is transferred to trading properties at carrying value.

Depreciation is provided on a straight-line basis over the estimated useful lives, that range from 20 – 25 years other than freehold land which is deemed to have an indefinite life.

Properties under construction
Properties under construction or development for future use as investment properties are classified as investment properties and are carried at cost less any impairment in value. Costs are those expenses incurred by the Group that are directly attributable to the construction of the asset.

Precious metals inventory
Precious metals inventory primarily comprises Gold, which is carried at the fair value less cost to sell.

Financial instruments
Date of recognition
Financial assets and liabilities are initially recognised on the trade date, i.e., the date that the Group becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market-place.

Classification on initial measurement of financial instruments
The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. Financial instruments are initially measured at their fair value. Except in the case of financial assets and financial liabilities recorded at FVTPL, transaction costs are added to, or subtracted from, this amount. When the fair value of financial instruments at initial recognition differs from the transaction price, the Group accounts for the Day 1 profit or loss, as described below.

Day 1 profit or loss
When the transaction price of the instrument differs from the fair value at initial recognition and the fair value is based on a valuation technique using only inputs observable in market transactions, the Group recognises the difference between the transaction price and fair value in the investment income. In those cases where fair value is based on models for which some of the inputs are not observable, the difference between the transaction price and the fair value is deferred and is only recognised in profit or loss when the inputs become observable, or when the instrument is derecognised.

Measurement categories of financial assets and liabilities
The Group classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:
- Amortised cost
- Fair value through other comprehensive income (FVOCI)
- Fair value through profit or loss (FVTPL)

Financial liabilities, other than financing commitments and financial guarantees, are measured at amortised cost or at FVTPL when they are held for trading and derivative instruments or the fair value designation is applied.

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Business model assessment
The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. That is, whether the Group's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of 'Sell' business model and measured at FVTPL. The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed;
- How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- The expected frequency, value and timing of sales are also important aspects of the Group's assessment.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

Assessment of whether contractual cash flows are solely payments of principal and yield (SPPY test)
Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Group assesses whether the financial instruments' cash flows represent Solely Payments of Principal and Yield (the 'SPPY test').

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are payments of principal or amortisation of the premium/discount).

The most significant elements of profit within a basic financing arrangement are typically the consideration for the time value of money, credit risk, other basic financing risks and a profit margin. To make the SPPY assessment, the Group applies judgement and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the yield rate is set.

In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic financing arrangement do not give rise to contractual cash flows that are solely payments of principal and yield on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

The Group reclassifies when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent and none occurred during the year.

The Group classifies its financial assets upon initial recognition into the following categories:
- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVOCI), with gains or losses recycled to consolidated statement of income on derecognition
- Equity instruments at FVOCI, with no recycling of gains or losses to consolidated statement of income on derecognition
- Financial assets carried at fair value through profit or loss (FVTPL)

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Debt instruments at amortised cost:
A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:
- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- The contractual terms of the financial asset meet the SPPY test.

Cash and balances with banks and financial institutions, due from banks, certain investment in sukuk and financing receivables are classified as debt instruments at amortised cost.

Debt instruments at amortised cost are subsequently measured at amortised cost using the effective yield method adjusted for impairment losses, if any. Profit income, foreign exchange gains and losses and impairment are recognised in the consolidated statement of income. Any gain or loss on derecognition is recognised in the consolidated statement of income.

Debt instruments at FVOCI:
A debt instrument is carried at FVOCI if it meets both of the following conditions:
- The instrument is held within a business model, the objective of which is achieved by both collecting contractual cash flows and selling financial assets; and
- The contractual terms of the financial asset meet the SPPY test

Debt instruments at FVOCI are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in other comprehensive income. Profit income and foreign exchange gains, losses and ECL are recognised in the consolidated statement of income. Fair value changes which are not part of an effective hedging relationship are recognised in other comprehensive income and presented in the cumulative changes in fair values as part of equity until the asset is derecognised or reclassified. When the financial asset is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to the consolidated statement of income.

The ECLs for debt instruments measured at FVOCI do not reduce the carrying amount of these financial assets in the statement of financial position, which remains at fair value. Instead, an amount equal to the allowance that would arise if the assets were measured at amortised cost is recognised in OCI as an accumulated impairment amount, with a corresponding charge to profit or loss. The accumulated loss recognised in OCI is recycled to the profit and loss upon derecognition of the assets.

Equity instruments at FVOCI:
Upon initial recognition, the Group makes an irrevocable election to classify some of its equity investments as equity investments at FVOCI if they meet the definition of Equity under IAS 32 Financial Instruments: Presentation and are not held for trading. Such classification is determined on an instrument by instrument basis.

Equity investments at FVOCI are subsequently measured at fair value. Changes in fair values including foreign exchange component are recognised in other comprehensive income and presented in the cumulative changes in fair values as part of equity (fair value reserve). Cumulative gains and losses previously recognised in other comprehensive income are transferred to retained earnings on derecognition and are not recognised in the consolidated statement of income. Dividend income on equity investments at FVOCI are recognised in the consolidated statement of income unless they clearly represent a recovery of part of the cost of the investment in which case they are recognised in other comprehensive income. Equity investments at FVOCI are not subject to impairment assessment.

Financial asset at FVTPL:
The Group classifies financial assets at fair value through profit or loss when they have been purchased or issued primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is evidence of a recent pattern of short-term profit taking. Held-for-trading assets are recorded and measured in the statement of financial position at fair value. In addition, on initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)
Financial asset at FVTPL: (continued)
Changes in fair values, profit income and dividends are recorded in the consolidated statement of income according to the terms of the contract, or when the right to payment has been established. Included in this classification are certain Sukuks, equities and derivatives that are not designated as hedging instruments in a hedge relationship.

The Group has determined the classification and measurement of its financial assets as follows:

i. Cash and cash equivalents
Cash and cash equivalents comprise cash, balances with Central Banks, balances with banks and financial institutions, cash in transit and exchange of deposits maturing within three months of contract date. Cash and cash equivalents are carried at amortised cost using effective profit rate.

ii. Due from banks
Due from banks are financial assets originated by the Group and represent commodity murabaha transactions with high credit quality banks. These are stated at amortised cost using effective profit rate.

iii. Financing receivables
Financing receivables are financial assets with fixed or determinable payments that are not quoted in an active market and principally comprise murabahas, istisna'a, wakala receivables and leased assets. The financing receivables are stated at amortised cost using effective profit rate.

Murabaha
Murabaha is an agreement relating to the sale of commodities at cost plus an agreed upon profit margin, whereby the seller informs the buyer of the price at which the deal will be completed and also the amount of profit to be recognized. Murabaha is a financial asset originated by the Group.

Istisna'a
Istisna'a is a sale contract between a contract owner and a contractor whereby the contractor based on an order from the contract owner undertakes to manufacture or otherwise acquire the subject matter of the contract according to specifications, and sells it to the contract owner for an agreed upon price and method of settlement whether that be in advance, by instalments or deferred to a specific future time.

Wakala
Wakala is an agreement whereby the Group provides a sum of money to a customer under an agency arrangement, who invests it according to specific conditions in return for a fee. The agent is obliged to return the amount in case of default, negligence or violation of any terms and conditions of the wakala.

Trade receivable
Trade receivables that primarily relate to subsidiaries in businesses other than financing are carried at amounts due, net of expected credit losses and are stated at amortised cost.

iv. Investments in sukuk
Sukuk are classified at FVOCI, FVTPL and amortized cost based on the business model in which these securities are managed.

v. Investments
Group's financial investments consists of investment in equity instruments and investment in funds. Investment in equity instruments are carried at FVTPL or FVOCI based on the business model in which these securities are managed. Investment in funds are carried at FVTPL.

vi. Venture capital at fair value through profit or loss
Certain investments in joint ventures held directly or indirectly through venture capital segment are not accounted for using equity method, as the Bank has elected to measure these investments at fair value through profit or loss in accordance with IFRS 9, using the exemption of IAS 28: Investments in associates and joint ventures.

Venture capital at fair value through profit or loss are carried in the consolidated statement of financial position at fair value with net changes in fair value recorded as unrealized gain (loss) in the consolidated statement of income.

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial liabilities
The Group has determined the classification and measurement of its financial liabilities as follows:

i. Due to banks, depositors' accounts and Sukuk payable
These are measured at amortised cost.

ii. Trade payable
Trade payable mainly relates to non-banking subsidiaries of the Group. Liabilities are recognised for amounts to be paid in the future for goods whether or not billed to the Group.

iii. Accrued expenses
Liabilities are recognised for amounts to be paid in the future for services received whether or not billed to the Group.

iv. Financial guarantees
In the ordinary course of business, the Group issues financial guarantees, consisting of letters of credit, guarantees and acceptances. Financial guarantees are initially recognised as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the Group's liability under each guarantee is measured at the higher of the amount initially recognised less cumulative amortisation recognised in the consolidated statement of income, and the provisions required by the CBK.

Undrawn financing commitments and letters of credits are commitments under which, over the duration of the commitment, the Group is required to provide a financing with pre-specified terms to the customer. Similar to financial guarantee contracts, a provision is measured, if they are an onerous contract, according to the CBK guidelines.

Derecognition of financial assets and financial liabilities
A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised where:
- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to pay.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. Where an existing financial liability is replaced by another from the same financier on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of income.

Kuwait Finance House K.S.C.P. and Subsidiaries
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Derecognition due to substantial modification or terms and conditions
The Group derecognises a financial asset, such as financing receivables, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new financing, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded.

When assessing whether or not to derecognise a financing receivable, amongst others, the Group considers the following factors:

- Change in currency of the financing
- Introduction of an equity feature
- Change in counterparty
- If the modification is such that the instrument would no longer meet the SPPY criterion

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at original effective profit rate, the Group records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

Offsetting
Financial assets and financial liabilities are only offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to set off the recognised amounts and the Group intends to settle on a net basis so as to realize the assets and liabilities simultaneously.

Derivatives financial instruments and hedge accounting
i. Derivatives not designated as hedges:
Currency swaps, profit rate swaps, forward foreign exchange and forward commodity contracts instruments ("the instruments") are initially recognised in the consolidated statement of financial position at cost (including transaction costs) and subsequently measured at their fair value. The fair value of these instruments includes unrealized gain or loss from marking to market the instruments using prevailing market rates or internal pricing models. The instruments with positive market values (unrealised gains) are included in other assets and the instruments with negative market values (unrealised losses) are included in other liabilities in the consolidated statement of financial position. Any gains or losses arising from changes in the fair value of these instruments are taken directly to the consolidated statement of income as investment income.

ii. Derivatives designated as hedges:
For the purpose of hedge accounting, hedges are classified as:

- Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment
- Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to the particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment
- Hedges of a net investment in a foreign operation.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge.

The documentation includes identification of the hedging instrument, the hedged item, the nature of the risk being hedged and how the Group will assess whether the hedging relationship meets the hedge effectiveness requirements (including the analysis of sources of hedge effectiveness and how the hedge ratio is determined). A hedging relationship qualifies for hedge accounting if it meets all of the following effectiveness requirements:

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Derivatives financial instruments and hedge accounting

ii. Derivatives designated as hedges: (continued)

- There is 'an economic relationship' between the hedge item and the hedging instrument.
- The effect of the credit risk does not 'dominate the value changes' that result from that economic relationship.
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the Group actually uses to hedge that quantity of hedged item.

Hedges that meet all the qualifying criteria for hedge accounting are accounted for, as described below:

Fair value hedges:
The gain or loss on the hedging instrument is recognised in consolidated statement of income while the hedging gain or loss on the hedged item shall adjust the carrying amount of the hedged item, if applicable, and be recognised in consolidated statement of income.

Cash flow hedges:
The effective portion of the gain or loss on the hedging instrument is recognised in the consolidated statement of other comprehensive income, while any ineffective portion is recognised immediately in the consolidated statement of income. The cash flow hedge reserve is adjusted to the lower of cumulative gain or loss on the hedging instrument and the cumulative change in fair value of the hedged item.

Amounts recognised as other comprehensive income are transferred to the consolidated statement of income when the hedged transaction affects consolidated statement of income.

When a hedging instrument expires, is sold, terminated, exercised, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss that has been recognised in the consolidated statement of other comprehensive income at that time remains in the consolidated statement of other comprehensive income and is recognised when the hedged forecast transaction is ultimately recognised in the consolidated statement of income. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in the consolidated statement of other comprehensive income is immediately transferred to the consolidated statement of income.

Hedges of a net investment:
Hedges of a net investment in a foreign operation, including a hedge of a monetary item that is accounted for as part of the net investment, are accounted for in a way similar to cash flow hedges. Gains or losses on the hedging instrument relating to the effective portion of the hedge are recognised as other comprehensive income while any gains or losses relating to the ineffective portion are recognised in the consolidated statement of income. On disposal of the foreign operation, the cumulative value of any such gains or losses recorded in equity are transferred to consolidated statement of income.

The Bank applies the IBOR reform Phase 1 reliefs to hedging relationships directly affected by IBOR reform during the period before the replacement of an existing profit rate benchmark with an alternative risk-free rate (RFR). A hedging relationship is affected if IBOR reform gives rise to uncertainties about the timing and or amount of benchmark-based cash flows of the hedged item or the hedging instrument. The reliefs require that for the purpose of determining whether a forecast transaction is highly probable, it is assumed that the IBOR on which the hedged cash flows are based is not altered as a result of IBOR reform.

IBOR reform Phase 1 also requires that for hedging relationships affected by IBOR reform, the Bank must assume that for the purpose of assessing expected future hedge effectiveness, the profit rate is not altered as a result of IBOR reform. Further, the Bank is not required to discontinue the hedging relationship if the results of the assessment of retrospective hedge effectiveness fall outside the range of 80% to 125%, although any hedge ineffectiveness must be recognised in profit or loss, as normal.

Kuwait Finance House K.S.C.P. and Subsidiaries
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Derivatives financial instruments and hedge accounting (continued)

Hedges of a net investment: (continued)
The reliefs cease to apply once certain conditions are met. These include when the uncertainty arising from IBOR reform is no longer present with respect to the timing and amount of the benchmark-based cash flows of the hedged item, if the hedging relationship is discontinued or once amounts in the cash flow hedge reserve have been released.

Impairment of financial assets
The Group recognises ECL for financing receivable, due from banks, non-cash credit facilities in the form of bank guarantees, letters of guarantee, documentary letters of credit, bank acceptances, undrawn cash and non-cash credit facilities (revocable and irrevocable) (together "financing facilities") and investment in Sukuk at FVOCI and amortised cost.

Balances with CBK is low risk and fully recoverable and hence no ECL is measured. Equity investments are not subject to ECL.

Impairment of financing facilities shall be recognised at the higher of ECL under IFRS 9 according to the CBK guidelines or the provisions required by the CBK instructions.

Expected Credit Losses
The Group has established a policy to perform an assessment at the end of each reporting period of whether credit risk has increased significantly since initial recognition by considering the change in the risk of default occurring over the remaining life of the financial instrument.

To calculate ECL, the Group estimates the risk of a default occurring on the financial instrument during its expected life. ECLs are estimated based on the present value of all cash shortfalls over the remaining expected life of the financial asset, i.e., the difference between the contractual cash flows that are due to the Group under the contract, and the cash flows that the Group expects to receive, discounted at the effective profit rate of the financing facility.

The Group applies a three-stage approach to measure the ECL based on the applied impairment methodology, as described below:

Stage 1: 12-month ECL
The Group measures loss allowances at an amount equal to 12-month ECL on financial assets where there has not been significant increase in credit risk since their initial recognition or on exposures that are determined to have a low credit risk at the reporting date.

Stage 2: Lifetime ECL – not credit impaired
The Group measures loss allowances at an amount equal to lifetime ECL on financial assets where there has been a significant increase in credit risk since initial recognition but are not credit impaired.

Stage 3: Lifetime ECL – credit impaired
The Group measures loss allowances at an amount equal to 100% of net exposure i.e. after deduction from the amount of exposure value of collaterals determined in accordance with CBK guideline.

Except for consumer and instalment financing, transfer of credit facility from Stage 2 to Stage 1 is made after a period of 12 months from the satisfaction of all conditions that triggered classification of the financial assets to Stage 2. Transfer of financial assets from Stage 3 to Stage 2 or Stage 1 is subject to approval of CBK.

For financial assets for which the Group has no reasonable expectations of recovering either the entire outstanding amount, or a portion thereof, the gross carrying amount of the financial asset is reduced. This is considered a (partial) derecognition of the asset. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount.

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Expected Credit Losses (continued)
Any subsequent recoveries are credited to credit loss expense.

When estimating ECL for undrawn financing commitments, the Group estimates the expected portion of the financing commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected shortfalls in cash flows if the financing is drawn down.

The Group measures ECLs on guarantees based on the present value of the expected payments to reimburse the holder for a credit loss that it incurs. The shortfalls are discounted by the risk-adjusted profit rate relevant to the exposure.

Life time ECL is ECL that result from all possible default events over the expected life of a financial instrument. The 12 month ECL is the portion of life time expected credit loss that result from default events that are possible within the 12 months after the reporting date. Both life time ECLs and 12-month ECLs are calculated on either an individual basis or a collective basis depending on the nature of the underlying portfolio of financial instruments.

Determining the stage of impairment
The Group continuously monitors all assets subject to ECLs. In order to determine whether an instrument or a portfolio of instruments is subject to 12-month ECL or Lifetime ECL, the Group assesses whether there has been a significant increase in credit risk since initial recognition and backstop indicators and analysis based on the Group's historical experience and expert credit risk assessment, including forward-looking information. The Group considers an exposure to have significantly increased in credit risk when there is significant deterioration in customer rating compared to rating at origination, restructured due to financial difficulties of the customers and other conditions mentioned below.

The Group also applies a secondary qualitative method for triggering a significant increase in credit risk for financial assets, such as moving a customer/facility to the watch list, or the account becoming forborne. The Group also consider that events explained below (and not restricted to) as indicators of significant increase in credit risk as opposed to a default.

- All financial assets are classified under Stage 2 when there has been a downgrade in the facility's credit rating by 2 grades for the facilities with Investment Grade and by 1 grade for those with Non-Investment Grade;
- All rescheduled financial assets are classified under the Stage 2 unless it qualifies for Stage 3 classification.
- Internal rating of the customer indicating default or near-default
- The customer requesting emergency funding from the Group;
- The customer having past due liabilities to public creditors or employees;
- The customer is deceased;
- A material decrease in the underlying collateral value where the recovery of the financing is expected from the sale of the collateral;
- A material decrease in the customer's turnover, loss of major customers or deterioration of customer financial position;
- A covenant breach not waived by the Group;
- The obligor (or any legal entity within the obligor's group) filing for bankruptcy application / protection or liquidation;
- Obligor's listed debt or equity suspended at the primary exchange because of rumors or facts about financial difficulties;
- Legal measures and action against customer by other creditors;
- Clear evidence that the customer is unable to pay financing receivable on maturity dates;

The quantitative criteria used to determine a significant increase in credit risk is a series of relative and absolute thresholds. All financial assets that are more than 30 days past due are deemed to have significant increase in credit risk since initial recognition and migrated to Stage 2 even if other criteria do not indicate a significant increase in credit risk.

Purchased or originated credit-impaired financial assets are those financial assets that are credit-impaired on initial recognition and are taken to Stage 3.

Kuwait Finance House K.S.C.P. and Subsidiaries
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021
2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Expected Credit Losses (continued)
Determining the stage of impairment (continued)
Objective evidence that financial assets is impaired includes whether any payment of principal or profit is overdue by more than 90 days or there are any known difficulties in the cash flows including the sustainability of the counterparty's business plan, credit rating downgrades, breach of original terms of the contract, its ability to improve performance once a financial difficulty has arisen, deterioration in the value of collateral etc. The Group assess whether objective evidence of impairment exists on an individual basis for each individually significant financial asset and collectively for others not deemed individually significant.

Measurement of ECLs
ECLs are probability weighted estimates of credit losses and are measured as the present value of all cash shortfalls discounted at the effective profit rate of the financial instrument. Cash shortfall represent the difference between cashflows due to the Group in accordance with the contract and the cashflows that the Group expects to receive. The key elements in the measurement of ECL include probability of default, loss given default and exposure at default.

- The Probability of Default ("PD") is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the financial asset has not been previously derecognized and is still in the portfolio. The Group uses point in time PD (PITPD) to calculate the ECL. The minimum PD is 1% for Non-Investment Grade facilities and 0.75% for Investment Grade financing facilities except for financing facilities granted to Government and Banks rated as Investment Grade by an external rating agency and financing transactions related to consumer and housing financing (except for credit cards).

- The Exposure at Default ("EAD") is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including payments of principal and profit, whether scheduled by contract or otherwise, expected drawdowns on committed facilities. As per CBK requirements, the Group applies 100% Credit Conversion Factor (CCF) on utilized non-cash facilities. For unutilized facilities CCF is applied based on the CBK requirements for leverage ratio issued on 21 October 2014.

- The Loss Given Default ("LGD") is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the financier would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD. CBK guidelines have prescribed list of eligible collaterals and minimum hair-cuts that are applied in determination of LGD.

Further, as per CBK guidelines, for unsecured senior and subordinate financing facilities minimum LGD threshold applied is 50% and 75% respectively.

The maximum period for which the credit losses are determined is the contractual life of a financial asset, including credit cards and other revolving facilities unless the Group has the legal right to call it earlier except for financial assets in Stage 2, the Group considers a minimum maturity of 7 years for all financing facilities (excluding consumer financing & credit cards and personal housing financing which is regulated by CBK based on salary) unless financing facilities have non-extendable contractual maturity and final payment is less than 50% of the total facility extended. For consumer financings & credit cards and personal housing financings which is regulated by CBK based on salary in Stage 2, the Group considers minimum maturity of 5 years and 15 years respectively.

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Expected Credit Losses (continued)
Incorporation of forward-looking information
The Group incorporates forward-looking information into both its assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL. The Group has performed historical analysis and identified the key economic variables impacting credit risk and ECL. Relevant macro-economic adjustments are applied to capture variations from economic scenarios. These reflect reasonable and supportable forecasts of future macro-economic conditions that are not captured within the base ECL calculations. Macro-economic factors taken into consideration include, but are not limited to, gross domestic product, unemployment rates, Central Bank base rates, oil prices, commodity price index and equity price index and require an evaluation of both the current and forecast direction of the macro-economic cycle. Incorporating forward-looking information increases the degree of judgement required as to how changes in these macro-economic factors will affect ECLs. The methodologies and assumptions including any forecasts of future economic conditions are reviewed regularly.

Renegotiated financing receivables
In the event of a default, the Group seeks to restructure financing to customers rather than take possession of collateral. This may involve extending the payment arrangements and the agreement of new financing conditions. When the financing to customers has been renegotiated or modified but not derecognised, any impairment is measured using the original effective yield method as calculated before the modification of terms. Management continually reviews renegotiated financing to ensure that all criteria are met and that future payments are likely to occur. Derecognition decisions are determined on a case-by-case basis.

Presentation of allowance for ECL in the statement of financial position
Loss allowances for ECL are presented as a deduction from the gross carrying amount of the financial assets for financial assets carried at amortised cost. In the case of debt instruments measured at FVOCI, the Group recognises the ECL charge in the consolidated statement of income and a corresponding amount is recognised in other comprehensive income with no reduction in the carrying amount of the financial asset in the consolidated statement of financial position.

Provisions for credit losses in accordance with CBK instructions
The Group is required to calculate provisions for credit losses on financing receivables in accordance with the instructions of CBK on the classification of financing receivables and calculation of provisions. Financing receivables are classified as past due when a payment has not been received on its contractual payment date or if the facility is in excess of pre-approved limits. A financing receivable is classified as past due and impaired when the profit or a principal instalment is past due for more than 90 days and if the carrying amount of the facility is greater than its estimated recoverable value. Past due and past due and impaired financing receivables are managed and monitored as irregular facilities and are classified into the following four categories which are then used to determine the provisions.

Category	***Criteria***	***Specific provisions***
Watch list	Irregular for a period of 31 to 90 days	-
Substandard	Irregular for a period of 91- 180 days	20%
Doubtful	Irregular for a period of 181- 365 days	50%
Bad	Irregular for a period exceeding 365 days	100%

The Group may also include a credit facility in one of the above categories based on management's judgement of a customer's financial and/or non-financial circumstances.

In addition to specific provisions, minimum general provisions of 1% on cash facilities and 0.5% on non-cash facilities are made on all applicable financing receivables (net of certain restricted categories of collateral) which are not subject to specific provisioning.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property and equipment
Property and equipment are stated at historical cost less accumulated depreciation and any impairment in value. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the consolidated statement of income during the financial year in which they are incurred.

Freehold land is not depreciated. Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives, as follows:

- Buildings — up to 20 years
- Furniture, fixtures and equipment — 3 to 5 years
- Motor vehicles — 3 years

The assets' residual values, useful lives and methods of depreciation are reviewed, and adjusted if appropriate, at each financial year end.

Property and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in the consolidated statement of income in the year the asset is derecognised.

Leases
The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee
The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i. Right-of-use assets
The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date of the underlying asset if available of use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities, and is included under 'property and equipment' in the consolidated statement of financial position. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and the lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets ranging up to 25 years.

If the ownership of the leased asset is transferred to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment in accordance with the Group's impairment of non-financial assets policy.

ii. Lease liabilities
At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentive receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

ii. Lease liabilities (continued)
In calculating the present value of lease payments, the Group uses the incremental profit rate at the lease commencement date if the profit rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of profit and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

iii. Short-term leases and leases of low-value assets
The Group applies the short-term lease recognition exemption to its short-term leases. It also applies the lease of low-value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Group as a lessor
i. Leased assets
This represents net investment in assets leased for periods which either approximate or cover a major part of the economic lives of such assets. The lease agreements provide a purchase option to lessees at a price equal or expected to be equal or lower than fair value of such assets at the time when such option is exercised.

Leased assets are stated at amounts equal to the net investment outstanding in the leases.

ii. Operating leases
Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income is recognised in 'other income' in the consolidated statement of income.

Intangible assets
An intangible asset is recognised only when its cost can be measured reliably, and it is probable that the expected future economic benefits that are attributable to it will flow to the Group.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the consolidated statement of income in the year in which the expenditure is incurred.

Amortisation is calculated using the straight–line method to write down the cost of intangible assets to their residual values over their estimated useful lives, as follows:

- License of Islamic brokerage company — assessed to have an indefinite useful life
- Software development cost — 3 to 5 years
- Software license right — 15 years
- Other rights — 3 to 7 years

The useful lives of intangible assets are assessed to be either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life. The amortisation period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year-end. Changes in the expected useful life, or the expected pattern of consumption of future economic benefits embodied in the asset, are accounted for by changing the amortisation period or methodology, as appropriate, which are then treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Kuwait Finance House K.S.C.P. and Subsidiaries
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021
2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Intangible assets (continued)
Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the consolidated statement of income when the asset is derecognised. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised.

Impairment of non-financial assets
The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group estimates asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and then its recoverable amount is assessed as part of the cash-generating unit to which it belongs. Where the carrying amount of an asset (or cash-generating unit) exceeds its recoverable amount, the asset (or cash-generating unit) is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or cash-generating unit). In determining fair value less costs to sell an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the consolidated statement of income.

Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

Taxation
Income tax payable on taxable profit ('current tax') is recognised as an expense in the period in which the profits arise in accordance with the fiscal regulations of the respective countries in which the Group operates. Deferred tax assets are recognised for deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent it is probable that taxable profit will be available to utilise these. Deferred tax liabilities are recognised for taxable temporary differences. Deferred tax assets and liabilities are measured using tax rates and applicable legislation enacted at the reporting date.

The Bank calculates shareholders Zakat at 2.577% on net working capital on completing fiscal year and is paid under the direction of the Bank's Fatwa and Shareea'a Supervisory Board, and netting the amount paid by 1% of net profit attributed to the Zakat paid to the Ministry of Finance as per the Zakat Law. Such Zakat is charged to voluntary reserve.

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair value measurement
Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, in the most advantageous market to which the Group has access at that date.

When available, the Group measures the fair value of an instrument using the quoted price in an active market for that instrument.

A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Group uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

If an asset or liability measured at fair value has a bid price and an ask price, then the Group measures assets at a bid price and liabilities at an ask price.

The Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Financial assets carried at FVOCI or FVTPL
For investments traded in organized financial markets, fair value is determined by reference to stock exchange quoted market bid prices at the close of business on the reporting date.

For financial assets where there is no quoted market price, a reasonable estimate of the fair value is determined by reference to recent arm's length transactions, current fair value of another instrument that is substantially the same, an earnings multiple, book value multiple, or an industry specific earnings multiple or is based on the expected cash flows of the investment discounted at current rates applicable for items with similar terms and risk characteristics. Fair value estimates take into account liquidity constraints and assessment for any impairment.

Currency swaps, profit rate swaps, forward foreign exchange and forward commodity contracts
The fair value of currency swaps, profit rate swaps, forward foreign exchange and forward commodity contracts are determined based on valuations obtained from counterparty/third parties.

Other financial assets and liabilities
For other financial assets and liabilities, fair value is determined based on expected future cash flows and management's estimate of the amount at which these assets could be exchanged for cash on an arm's length basis or a liability settled to the satisfaction of creditors.

Investment properties
For investment properties, fair value is determined by registered real estate valuers who have relevant experience in the property market.

Due from/to customers for contract work
Due from/to customers of contracting subsidiaries for uncompleted contracts represents costs, which comprises direct materials, direct labour and an appropriate allocation of overheads, plus attributable profit to the extent that it is reasonably certain less provision for contingencies and any losses incurred or foreseen in bringing contracts to completion, and less any amounts received or receivable as progress billings.

Share based payments
The Group operates an employees' share purchase plan for certain eligible employees, whereby employees render services as consideration for equity instruments (equity-settled transactions).

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made. That cost is recognised in employee benefits expense, together with a corresponding increase in equity (Reserves), over the period in which the service and, where applicable, the performance conditions are fulfilled (the vesting period).

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Share based payments (continued)
The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the consolidated statement of income represents the movement in cumulative expense recognised during the year.

Finance cost
Finance cost is directly attributable to due to banks and financial institutions and depositors' accounts. All finance costs are expensed in the period they occur.

Other provisions and reserves
Other provisions and reserves are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to any reserve provision is recorded in the consolidated statement of income net of any reimbursement.

Employees' end of service benefits
The Group provides end of service benefits to its employees. The entitlement to these benefits is based upon the employees' final salary and length of service. The expected costs of these benefits are accrued over the period of employment.

Pensions and other social benefits for Kuwaiti employees are covered by the Public Institution for Social Security Scheme, to which employees and employers contribute monthly on a fixed-percentage-of-salaries basis. The Group's share of contributions to this scheme, which is a defined contribution scheme under International Accounting Standard (IAS) 19 – Employee Benefits are charged to the consolidated statement of income in the year to which they relate.

Treasury shares
The Group's holding of its own shares are accounted for as treasury shares and are stated at purchase consideration including directly attributable costs. When the treasury shares are sold, gains are credited to a separate account in equity (treasury share reserve) which is non distributable. Any realised losses are charged to the same account to the extent of the credit balance on that account. No cash dividends are distributed on these shares. The issue of bonus shares increases the number of shares proportionately and reduces the average cost per share without affecting the total cost of treasury shares.

Fiduciary assets
The Group provides trust and other fiduciary services that result in the holding or investing of assets on behalf of its clients. Assets held in trust or in a fiduciary capacity are not treated as assets of the Group and accordingly are not included in the consolidated statement of financial position. These are disclosed separately in the consolidated financial statements.

Significant judgments
In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognised in the consolidated financial statements:

Classification of financial assets
The Group determines the classification of financial assets based on the assessment of the business model within which the assets are held and assessment of whether the contractual terms of the financial asset are solely payments of principal and profit on the principal amount outstanding.

Operating lease commitments – Group as lessor
The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a substantial portion of the economic life of the commercial property, that it retains all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Significant judgments (continued)

Classification of real estate
Management decides on acquisition of a developed and under development real estate property whether it should be classified as trading, investment property or property and equipment.

The Group classifies property as trading property if it is acquired principally for sale in the ordinary course of business or when it is being redeveloped for sale.

The Group classifies property as investment property if it is acquired to generate rental income or for capital appreciation, or for undetermined future use.

The Group classifies property as property and equipment when it is acquired for owner occupation.

Determining the lease term of contracts with renewal options (Group as lessee)
The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has the option, under some of its leases to lease the assets for additional terms. The Group applies judgement in evaluating whether it is reasonably certain to exercise the option to renew. That is, it considers all relevant factors that create an economic incentive for it to exercise the renewal. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew (e.g., a change in business strategy).

Coronavirus (COVID-19) pandemic
Judgement has been exercised in considering the impacts that the Coronavirus (COVID-19) pandemic has had, or may have, on the Bank based on known information. This consideration extends to the nature of the products and services offered, customers, supply chain, staffing and geographic regions in which the Bank operates. Other than as addressed in specific notes, there does not currently appear to be either any significant impact upon the financial statements or any significant uncertainties with respect to events or conditions which may impact the Group unfavourably as at the reporting date or subsequently as a result of the Coronavirus (COVID-19) pandemic.

Fair value of financial instruments
The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the statement of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility. For further details about determination of fair value please see Note 36.

Estimation uncertainty
The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Impairment of goodwill and intangible assets with indefinite useful life
The Group determines whether goodwill and intangible assets with indefinite useful life are impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows.

Kuwait Finance House K.S.C.P. and Subsidiaries
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021
2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Estimation uncertainty (continued)
Impairment of investment in associates and joint ventures
The Group calculates the amount of impairment as the difference between the recoverable amount and its carrying value if there is any objective evidence that the investment in associates or joint ventures are impaired. The estimation of recoverable amount requires the Group to make an estimate of the expected future cash flows and selection of appropriate inputs for valuation.

Impairment of investment properties and trading properties
The Group reviews the carrying amounts of its investment and trading properties to determine whether there is an indication that those assets have suffered an impairment loss if the fair values are below than the carrying values. The Group management determines the appropriate techniques and inputs required for measuring the fair value using observable market data and as appropriate, the Group uses reputed valuers qualified to do the valuation.

Impairment of financial instruments
The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Group's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their dependencies. Elements of the ECL models that are considered accounting judgements and estimates include:
- The Group's internal credit rating model, which assigns PDs to the individual grades
- The Group's criterial for assessing if there has been a significant increase in credit risk so allowances for financial assets should be measured on a lifetime ECL basis
- The segmentation of financial assets when their ECL is assessed on a collective basis
- Development of ECL models, including various formulas and choice of inputs
- Determination of associations between macroeconomic scenarios and, economic inputs, and the effect on PDs, EADs and LGDs
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models

The Group has the policy to regularly review its models in the context of actual loss experience and adjust when necessary.

Impairment losses on financing receivables – as per CBK guidelines
The Group reviews its financing receivables on a regular basis to assess whether an impairment loss should be recorded in the statement of profit or loss. In particular, considerable judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of provisions required.

Such estimates are necessarily based on assumptions about several factors involving varying degrees of judgment and uncertainty.

Valuation of unquoted equity investments
Valuation of unquoted equity investments is normally based on one of the following:
- recent arm's length market transactions;
- current fair value of another instrument that is substantially the same;
- an earnings multiple;
- the expected cash flows discounted at current rates applicable for items with similar terms and risk characteristics; or
- other valuation models.

The determination of the cash flows and discount factors for unquoted equity investments requires significant estimation.

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

2.6 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Estimation uncertainty (continued)

Uncertainty relating to COVID- 19
The outbreak of coronavirus ("COVID-19") pandemic across the globe has caused disruption to business and economic activities and uncertainties in the global economic environment. The fiscal and monetary authorities in the geographies in which the Group operate have announced several stimulus packages to the Group's customers, which are in the process of implementation. The Bank has considered potential impacts of the current market volatility in the determination of the reported amounts of the Bank's financial and non-financial assets and are considered to represent management's best assessment based on current observable information. Markets, however, remain volatile and the recorded amounts remain sensitive to market fluctuations.

Leases - Estimating the incremental financing rate
The Group cannot readily determine the profit rate implicit in the lease, therefore, it uses its incremental financing rate (IBR) to measure lease liabilities. The IBR is the rate that the Group would have to pay to get funding over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Bank 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease.

The Bank estimates the IBR using observable inputs (such as market profit rates) when available and is required to make certain entity-specific estimates.

	2021	2020
Due from banks	**1,527,454**	1,351,362
Due from Central Banks	**1,822,231**	2,013,215
	3,349,685	3,364,577

The fair value of due from banks is not materially different from their respective carrying value.

10 FINANCING RECEIVABLES

Financing receivables principally comprises of murabaha, wakala, leased assets, istisna'a balances and other receivables. Balances are stated net of impairment as follows:

	KD 000's	
	2021	2020
Financing receivables		
Murabaha and wakala	**11,087,730**	10,477,176
Leased assets	**2,210,437**	2,138,729
Istisna'a and other receivables	**84,566**	88,407
	13,382,733	12,704,312
Less: deferred and suspended profit	**(1,375,988)**	(1,385,793)
Net financing receivables	**12,006,745**	11,318,519
Less: impairment	**(651,382)**	(570,983)
	11,355,363	10,747,536

Kuwait Finance House K.S.C.P. and Subsidiaries
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

10 FINANCING RECEIVABLES (continued)

Movement in provision for impairment as per CBK instructions is as follows:

	KD 000's					
	Specific		*General*		*Total*	
	2021	2020	**2021**	2020	**2021**	2020
Balance as at beginning of year	**164,843**	123,773	**406,140**	349,372	**570,983**	473,145
Provided during the year (Note 5)	**44,451**	120,519	**103,248**	63,148	**147,699**	183,667
Amounts written off and foreign currency translation	**(59,110)**	(79,449)	**(8,190)**	(6,380)	**(67,300)**	(85,829)
Balance as at end of year	**150,184**	164,843	**501,198**	406,140	**651,382**	570,983

Reversal of provision for the year on non-cash facilities is KD 455 thousand (2020: provision charge of KD 1,311 thousand) (Note 5). The available provision balance on non-cash facilities of KD 14,684 thousand (2020: KD 16,138 thousand) is included under other liabilities (Note 20).

The fair values of financing receivables do not materially differ from their respective book values.

The future minimum lease payments receivable in the aggregate are as follows:

	KD 000's	
	2021	2020
Within one year	**961,612**	967,765
One to five years	**433,815**	372,922
More than five years	**815,010**	798,042
	2,210,437	2,138,729

Non-performing financing facilities
As at 31 December 2021, non-performing cash finance facilities before impairment and collateral (net of deferred profit and suspended profit) amounted to KD 204,408 thousand (2020: KD 263,153 thousand).

Total provision for ECL is accounted as per CBK regulation which require ECL to be measured at higher of the ECL computed under IFRS 9 in accordance with CBK or the provision required by CBK instructions. Total provision for credit losses recorded as per CBK instructions for utilized and unutilized cash and non-cash financing facilities as at 31 December 2021 is KD 666,066 thousand (2020: KD 587,121 thousand) which exceeds the ECL for financing receivables under IFRS 9 by KD 367,231 thousand (2020: KD 227,587 thousand).

An analysis of the carrying amounts of financing receivables (cash facilities), and the corresponding Expected Credit Losses based on the staging criteria under IFRS 9 in accordance with CBK regulations.

An analysis of the carrying amounts of contingent liabilities and commitments, the amounts in the table represent the amounts committed or guaranteed (Non-cash facilities), and the corresponding Expected Credit Losses based on the staging criteria under IFRS 9 in accordance with CBK regulations.

Sensitivity

For measuring the overall sensitivity of the forward-looking information and key economic variables on the Group's ECL on financing receivables, the Group conducts stress tests by allocating a higher weightage to the downside scenario which results in an increase in the Bank's ECL allowance for financing receivables in Stage 1 and Stage 2. However, the ECL so determined after incorporating the aggregate impact of these sensitivity adjustments, continues to remain lower than the total provision for credit losses recorded as per CBK instructions, and accordingly will not have an impact on the Group's consolidated statement of income as well as on the carrying value of these assets.

Modification loss on deferral of consumer and housing financing by six months and related government grant income

During the year, the Bank has recognised a modification loss of KD 65,293 thousand arising from the deferral of consumer and housing financing instalments for a period of six months, computed in accordance with IFRS 9, in accordance with CBK circular No. 2/BS/IBS/IS/IIS/FS/476/2021 dated 18 April 2021 concerning the implementation of the provisions of Article No. (2) of Law No. (3) of 2021 ('the Law'). According to the Law, the modification loss arising on the deferral of the financing instalments will be fully borne by the Kuwait government. Therefore, the Bank has recognised this income in accordance with IAS 20 'Accounting for Government Grants and Disclosures of Government Assistance' and set it off against the modification loss. The Government grant receivable is included in 'other assets' in the consolidated statement of financial position.

11 INVESTMENT IN SUKUK

As at 31 December	**37,597**	41,250
Net book value		
As at 31 December	**32,351**	32,390

Intangible asset includes license of an Islamic brokerage company amounting to KD 14,671 thousand (2020: KD 14,671 thousand) and is considered as an intangible asset with an indefinite useful life. The carrying value of the Islamic brokerage license is tested for impairment on an annual basis by estimating the recoverable amount of the cash generating unit (CGU). The recoverable amount of the license has been determined using a discount rate of 8.7% (2020: 9.3%) and a terminal growth rate of 2.7% (2020: 2.5%). As a result, the management believes there are no indications of any impairment in value. Other intangible assets amounting to KD 17,680 thousand (2020: KD 17,719 thousand) represent software development cost, software license right and other rights with finite useful lives. Intangible assets with finite lives are amortised over their useful economic life.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2021

19 DEPOSITORS' ACCOUNTS

a) The depositors' accounts of the Bank comprise the following:

1) Non-investment deposits in the form of current accounts: These deposits are not entitled to any profits nor do they bear any risk of loss as the Bank guarantees to pay the related balances on demand. Accordingly, these deposits are considered Qard Hasan from depositors to the Bank under Islamic Shari'a.

2) Investment deposits: These have fixed maturity as specified in the term of the contract and are automatically renewable for the same periods unless notified to the contrary in writing by the depositor. Investment savings accounts are valid for an unlimited period.

In all cases, the investment deposits receive a proportion of the profit as the board of directors of the Bank determines, or bear a share of loss based on the results of the financial year.

b) The fair values of depositors' accounts do not differ from their carrying book values.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2021

21 RESERVES (continued)

Statutory reserve
In accordance with the Companies' Law, as amended, and the Bank's Memorandum of Incorporation and Articles of Association, as amended, a minimum of 10% of the profit for the year before KFAS, NLST, Zakat, and board of directors' remuneration shall be transferred to the statutory reserve. The annual general assembly of the Bank may resolve to discontinue such transfer when the reserve exceeds 50% of the issued share capital. The reserve may only be used to offset losses or enable the payment of a dividend up to 5% of paid-up share capital in years when profit is not sufficient for the payment of such dividend due to absence of distributable reserves. Any amounts deducted from the reserve shall be refunded when the profits in the following years suffice, unless such reserve exceeds 50% of the issued share capital.

Voluntary reserve
In accordance with the Companies' Law, as amended, and the Bank's Memorandum of Incorporation and Articles of Association, as amended, a maximum of 10% of the profit for the year before KFAS, NLST, Zakat and board of directors' remuneration is required to be transferred to the voluntary reserve. Such annual transfers may be discontinued by a resolution of the shareholders' general assembly upon a recommendation by the Board of Directors. There are no restrictions on the distribution of this reserve.

Voluntary reserve is available to be distributed to shareholders at the discretion of the Bank's Board of Directors in ways that may be deemed beneficial to the Bank, except for the amount of KD 27,739 thousand (2020: KD 27,739 thousand) which is equivalent to the cost of purchasing treasury shares, and is not available for distribution throughout the holding period of the treasury shares (Note 22).

The ordinary general assembly meeting of the shareholders of the Bank held on 16 March 2015 approved to restrict the balance of statutory reserve and voluntary reserve up to 50% of the issued share capital.

Share premium
The share premium balance is not available for distribution.

Other reserves
Fair value reserve, foreign currency translation reserve and other reserve are attributable to both shareholders and deposit account holders.

22 SHARE CAPITAL AND TREASURY SHARES

The ordinary general assembly of the Bank's shareholders held on 22 March 2021 approved to distribute bonus shares of 10% (2019: 10%) of the issued, and fully paid share capital, and cash dividends of 10 fils per share (2019: 20 fils per share) to the Bank's shareholders, for the year ended 31 December 2020 (Note 23).

The Extra-ordinary general assembly of the Bank's shareholders held on 22 March 2021 also approved to increase the authorised share capital to be comprised of 12,641,551,934 shares (31 December 2020: 11,874,138,122) shares of 100 fils each.

Share capital

	KD 000's	
	2021	*2020*
Issued and fully paid in cash and bonus shares: 8,441,551,934 (2020: 7,674,138,122) shares of 100 fils each	**844,155**	767,414

The movement in ordinary shares in issue during the year was as follows:

	2021	*2020*
Number of shares in issue as at 1 January	**7,674,138,122**	6,976,489,202
Bonus shares issued	**767,413,812**	697,648,920

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

22 SHARE CAPITAL AND TREASURY SHARES (continued)

Treasury shares and treasury share reserve.
The Group held the following treasury shares at the year-end:

	2021	*2020*
Number of treasury shares	**71,370,374**	64,882,159
Treasury shares as a percentage of total shares in issue	**0.8%**	0.8%
Cost of treasury shares (KD thousand)	**27,739**	27,739
Market value of treasury shares (KD thousand)	**59,380**	43,860

The balance in the treasury share reserve account is not available for distribution.

The weighted average market price of the Bank's shares for the year ended 31 December 2021 was 771 fils (2020: 665 fils) per share.

23 PROPOSED CASH DIVIDENDS, BONUS SHARES, AND DIRECTORS' FEES

The Board of Directors of the Bank has proposed a cash dividend of 12% for the year ended 31 December 2021 (2020: 10%) and issuance of bonus shares of 10% (2020: 10%) of the paid up share capital as follows:

	2021		*2020*	
		Total KD 000's		*Total KD 000's*
Proposed cash dividends (per share)	**12 fils**	**100,442**	10 fils	76,093
Proposed issuance of bonus shares (per 100 shares)	**10 shares**	**84,416**	10 shares	76,741

This proposal is subject to the approval of the ordinary general assembly of the shareholders of the Bank and completion of legal formalities. Proposed cash dividends and proposed issued of bonus shares are shown separately within equity.

The Board of Directors of the Bank has proposed Directors' fees of KD 1,096 thousand (2020: KD 608 thousand), (Note 28) which is within the amount permissible under local regulations and subject to the approval of the annual general assembly of the shareholders of the Bank.

24 SHARE BASED PAYMENTS

The Bank operates long-term incentive scheme plan (LTIS) approved by the Board of Directors and authorized by the Bank's extraordinary general assembly and ordinary assembly. The LTIS operate on a rolling yearly employees' share purchase plan where new plans is rolled out to eligible employees every year. Shares issued under each plan will vest at the end of three years from the allocation date subject to agreed performance conditions approved by the Board of Directors being met.

25 PERPETUAL TIER 1 SUKUK

On 30 June 2021, the Bank through a Sharia's compliant Sukuk arrangement issued Perpetual Tier 1 Sukuk amounting to USD 750 million. The Tier 1 Sukuk is a perpetual security in respect of which there is no fixed redemption date and constitutes direct, unsecured, subordinated obligations (senior only to share capital) of the Bank subject to the terms and conditions of the Mudaraba Agreement. The Perpetual Tier 1 Sukuk is listed on the London Stock Exchange and callable by the Bank after five-year period ending June 2026 (the "First Call Date") or any profit payment date thereafter subject to certain redemption conditions.

The net proceeds of the Perpetual Tier 1 Sukuk are invested by way of Mudaraba with the Bank (as Mudareb) on an unrestricted co-mingling basis, by the Bank in its general business activities carried out through the general Mudaraba pool. Perpetual Tier 1 Sukuk bears an expected profit rate of 3.6% per annum to be paid semi-annually in accordance with the terms of the issue. Transaction costs incurred on the issue of the Perpetual Tier 1 Sukuk is accounted as a deduction from equity.

Capital commitments and others	**281,289**	306,005

27 CURRENCY SWAPS, PROFIT RATE SWAPS, FORWARD FOREIGN EXCHANGE AND FORWARD COMMODITY CONTRACTS ("ISLAMIC DERIVATIVE FINANCIAL INSTRUMENTS")

In the ordinary course of business, the Group enters into currency swaps, profit rate swaps, forward foreign exchange and forward commodity contracts ("Islamic derivative financial instruments") to mitigate foreign currency and profit rate risk. Currency swaps and forward commodity contracts are based on Wa'ad (promise) structure between two parties to buy a specified Shari'a compliant commodity at an agreed price on the relevant date in future. It is a conditional promise to purchase a commodity through unilateral purchase undertaking. For profit rate swaps, counterparties generally exchange fixed and floating rate profit payments based on a notional value in a single currency. For currency swaps, fixed or floating payments as well as notional amounts are exchanged in different currencies.

For profit rate swaps, counterparties generally exchange fixed and floating rate profit payments based on a notional value in a single currency thru series of transactions to buy a specified Shari'a compliant commodity at an agreed price on the relevant date in future based on Wa'ad (promise) structure.

The currency swaps, profit rate swaps, forward foreign exchange and forward commodity contracts are being used for hedging purpose.

Embedded swaps and profit rate contracts are balances with banks and financial institutions with rates of return tied to changes in value of precious metals.

The table below shows the positive and negative fair values of these instruments, which are equivalent to the market values, together with the notional amounts. The notional amount is the amount of currency swap instruments' underlying asset, reference rate or index and is the basis upon which changes in the value of these instruments are measured. The notional amounts indicate the volume of transactions outstanding at the year end and are not indicative of the credit risk.

30 RISK MANAGEMENT

Risk management is an integral part of Group decision-making processes. It is implemented through a governance process that emphasizes on independent risk assessment, control and monitoring, overseen directly by the Board and senior management.

KFH continues to upgrade its risk management capabilities in the light of developments in the business, banking and market regulations and risk management best practices. KFH operates a "three lines of defence" system for managing risk.

The first line of defence recognizes that risks are raised by the business units and within their business. In KFH, all employees (credit officers, dealers, operations, etc.) are required to ensure the effective management of risks within their organizational responsibilities.

The second line of defence comprises the Risk Management Department and the Financial Control Department, which are responsible for ensuring that the risks are managed in accordance within the stated risk appetite.

The third line of defence is the independent assurance provided by the Internal Audit function. Its role is defined and overseen by the Audit Committee. The findings from the Internal Audit audits are reported to all relevant management and governance bodies. The Internal Audit function provides assurance that the overall system of control effectiveness is working as required within the risk management framework.

The risk management department is responsible for managing and monitoring risk exposures. It also, measures risk using risk models and presents reports to the Board Risk Committee and the Board of Directors. The models use probabilities based on historical experiences adjusted to reflect the current economic environment.

Monitoring and controlling risks are managed through limits set by the Board of Directors. These limits reflect the business strategy and market environment of the Group as well as the level of risk that the Bank's Board of Directors are willing to accept.

Risk mitigation
As part of its overall risk management, the Group uses currency swaps, profit rate swaps, forward foreign exchange and forward commodity contracts (within accepted Shari'a products) to manage exposures and emerging risks resulting from changes in yields, foreign currencies and, equity risks. The Group actively uses collateral to reduce its credit risks.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

30 RISK MANAGEMENT (continued)

Excessive risk concentration
In order to avoid excessive concentrations of risk, the Bank's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly. Selective hedging (Shari'a compliance) is used within the Bank to manage risk concentrations at both the relationship and industry levels.

In addition, each of the banking subsidiaries of the Group has similar risk management structures, policies and procedures as overseen by the Bank's Board of Directors.

31 CREDIT RISK

Credit risk is the risk that the Group will incur a loss because its customers, clients or counterparties failed to discharge their contractual obligations. The Group manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties and for geographical and industry concentrations, and by monitoring exposures in relation to such limits.

The Group is applying Early Warning Signals "EWS" approach to provide early identification of possible changes in the creditworthiness of counterparties, including regular collateral revisions. Counterparty limits are established by using credit risk rating model, which assigns each counterparty a risk rating. Risk ratings are subject to regular revision. The EWS allows the Group to assess the potential loss as a result of the risks to which is exposed to and take proactive corrective actions.

Assessment of expected credit losses
Definition of default and cure
The Group considers a financial asset to be in default and therefore Stage 3 (credit impaired) for ECL calculations when:

- the customer is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as releasing security (if any is held);
- the customer is past due more than 90 days on any material credit obligation to the Group; or
- customer is considered as credit impaired based on qualitative assessment for internal credit risk management purposes

The Group considers externally rated exposures with ratings 'D' for S&P and Fitch, and 'C' for Moody's as defaulted.

The Group considers a variety of indicators that may indicate unlikeliness to pay as part of a qualitative assessment of whether a customer is in default. Such indicators include:

- breaches of covenants
- customer having past due liabilities to public creditors or employees
- customer is deceased

Significant increase in credit risk
The Group continuously monitors all assets subject to ECLs. In order to determine whether an instrument or a portfolio of instruments is subject to 12 months ECL or life time ECL, the Group assess whether there has been a significant increase in credit risk since initial recognition. The Group applies a consistent quantitative criterion for internally and externally rated portfolio to assess significant increase in credit risk.

Internal rating and PD estimation process
In managing its portfolio, the Group utilises ratings and other measures and techniques which seek to take account of all aspects of perceived risk. The Group uses Moody's Risk Analyst (MRA) as its internal credit-rating engine. The MRA tool provides the ability to analyze a business and produce risk ratings. The analysis supports the usage of financial factors as well as non-financial subjective factors. The Group also uses external ratings by recognised rating agencies for externally rated portfolios.

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

31 CREDIT RISK (continued)

Assessment of expected credit losses (continued)
Internal rating and PD estimation process (continued)
It is the Group's policy to maintain accurate and consistent risk ratings across the credit portfolio. This facilitates focused management of the applicable risks and the comparison of credit exposures across all lines of business, geographic regions and products. The rating system is supported by a variety of financial analytics, combined with processed market information to provide the main inputs for the measurement of counterparty risk. All internal risk ratings are tailored to the various categories and are derived in accordance with the Group' rating policy. The attributable risk ratings are assessed and updated regularly.

The group uses PD for a 12-month duration and lifetime duration depending on the stage allocation of the obligor. The through the cycle (TTC) PDs are generated from MRA based on the internal credit ratings. or from external credit rating by recognised rating agencies for externally rated portfolios. The Group converts the TTC PD to a point in time (PIT) PD term structures using appropriate models and techniques. The Group assesses the PD for its retail portfolio through application scorecards implemented in the Group. The scorecards are based on logistic regression technique. This enables the evaluation of score and PD associated against each facility.

Incorporation of forward-looking information
The Group considers key economic variables that are expected to have an impact on the credit risk and the ECL in order to incorporate forward looking information into the ECL models. These primarily reflect reasonable and supportable forecasts of the future macro-economic conditions. The Group employs statistical models to incorporate macro-economic factors impact on ECL. The Group considers 3 scenarios (baseline, upside and downside) of forecasts of macro-economic data separately for each geographical segments and appropriate probability weights are applied to these scenarios to derive a probability weighted outcome of expected credit loss. The management reviews the methodologies and assumptions including any forecasts of future economic conditions on a regular basis.

Maximum exposure to credit risk without taking account of any collateral
The table below shows the maximum exposure to credit risk for the components of the consolidated statement of financial position. The maximum exposure is shown (before impairment, net of deferred and suspended profit), before the effect of mitigation through the use of master netting and collateral agreements.

	Notes	KD 000's 2021	2020
Balances with banks and financial institutions	8	**2,120,905**	2,268,412
Due from banks	9	**3,349,685**	3,364,577
Financing receivables	10	**12,006,745**	11,318,519
Investment in Sukuk	11	**2,773,065**	2,790,250
Trade and other receivables		**309,634**	239,657
Total		**20,560,034**	19,981,415
Contingencies	26	**1,362,655**	1,561,355
Capital commitments and others	26	**281,289**	306,005
Total		**1,643,944**	1,867,360
Total credit risk exposure		**22,203,978**	21,848,775

Where financial instruments are recorded at fair value, the amounts shown above represent the current credit risk exposure but not the maximum risk exposure that could arise in the future as a result of changes in values.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021
31 CREDIT RISK (continued)

Risk concentrations of the maximum exposure to credit risk
Concentration of risk is managed by counterparty by geographical region and by industry sector. The maximum credit exposure to a single counterparty as of 31 December 2021 was KD 272,100 thousand (2020: KD 202,565 thousand) before taking account of any collaterals. The Group's financial assets, before taking into account any collateral held can be analysed by the following geographical regions:

KD 000's

	Middle East	Europe	Others	Total
31 December 2021				
Balances with banks and financial institutions	**408,618**	**1,420,737**	**291,550**	**2,120,905**
Due from banks	**2,851,031**	**497,178**	**1,476**	**3,349,685**
Financing receivables	**8,674,959**	**3,001,875**	**329,911**	**12,006,745**
Investment in Sukuk	**1,206,922**	**1,227,809**	**338,334**	**2,773,065**
Trade and other receivables	**261,194**	**43,488**	**4,952**	**309,634**
	13,402,724	**6,191,087**	**966,223**	**20,560,034**
31 December 2020				
Balances with banks and financial institutions	1,060,674	871,317	336,421	2,268,412
Due from banks	2,989,878	363,731	10,968	3,364,577

Investment in Sukuk	929,922	1,456,116	404,212	2,790,250
Trade and other receivables	197,010	37,571	5,076	239,657
	12,860,332	5,991,805	1,129,278	19,981,415

An industry sector analysis of the Group's financial assets, before taking into account collateral held is as follows:

KD 000's

	2021	2020
Trading and manufacturing	**5,228,614**	4,634,999
Banks and financial institutions	**8,970,449**	8,830,573
Construction and real estate	**2,895,616**	2,908,069
Other	**3,465,355**	3,607,774
	20,560,034	19,981,415

Credit quality per class of financial assets
Credit exposures classified as 'High grade' are those where the ultimate risk of financial loss from the obligor's failure to discharge its obligation is assessed to be low. Credit exposures classified as 'Standard grade' comprise all other facilities whose payment performance is fully compliant with contractual conditions and which are not 'impaired'.

Details of credit quality for financing receivables is disclosed in Note 10 and for investment in Sukuk is disclosed in Note 11. Balances with banks and financial institutions, due from banks and trade and other receivables are classified as High grade.

Collateral
The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines initiated by the Group's risk management and credit committee are implemented regarding the acceptability of types of collateral and valuation parameters.

The main types of collateral accepted include real estate, securities, cash and bank guarantees. The Group also obtains guarantees from parent companies for finance facilities extended to their subsidiaries.

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

31 CREDIT RISK (continued)

Collateral (continued)
Management monitors the fair value of collateral and requests additional collateral in accordance with the underlying agreements when necessary.

The fair value of collateral that the Group holds relating to past due or impaired finance facilities as at 31 December 2021 was KD 349,701 thousand (2020: KD 482,833 thousand). The collateral consists of cash, securities, sukuk, letters of guarantee and real estate assets.

32 LIQUIDITY RISK

Liquidity risk is the risk that the Group will be unable to meet its payment obligations when they fall due under normal and stress circumstances. To limit this risk, management arranges diversified funding sources in addition to its core deposit base while manages assets and monitors future cash flows within the regulatory and internal liquidity limits, on daily basis. Moreover, the Group monitors and assess the impact of the existing and new operations' expected cash flows and ensures the availability of high quality liquid assets, which could be used to secure additional funding, when required.

In addition, the Group maintains a robust liquidity buffers which consists of a mix of readily available cash, sharia compliant short-term money market instruments and a portfolio of highly marketable and diverse assets that can be easily liquidated in the event of an unforeseen interruption of cash flow. The Group also has in place committed lines of credit that can be accessed in order to meet liquidity needs.

The overall liquidity position is assessed and managed under a variety of scenarios, giving due consideration to stress factors during a systemically contagion market and a specific idiosyncratic stress events impacted by the Group.

The table below summarizes the maturity profile of the Group's assets and liabilities. The maturity profile is monitored by management to ensure adequate liquidity is maintained. The maturity profile of the assets and liabilities at the year-end are based on contractual payment arrangement and planned exit dates.

The maturity profile of assets and undiscounted liabilities at 31 December 2021 is as follows:

Total	527,671	371,246	968,443	1,867,360

The Group expects that the vast majority of all the contingencies or capital commitments will not be drawn before expiry of the commitments.

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2021

33 MARKET RISK

Market risk is the risk that the fair value or future cash flow of financial instruments will fluctuate due to change in market prices. These risks are classified into three main areas as follows:

Profit rate risk
In accordance with the provisions of Islamic Shari'a, the Group generates assets and liabilities that have cash inflows and outflows, or fair values and their profitability and performance is evaluated through the sensitivity of profit rates fluctuations. The Group manages the risk arising from these exposures to maximize profit for shareholders and depositors.

Currency risk
This is the risk of incurring losses due to changes in currency exchange rates which affects both the banking book (including structural positions arising from cross-border investments) and trading book.

The tables below indicate the currencies to which the Group had significant exposure at 31 December 2021 and 31 December 2020 on its monetary assets and liabilities and its forecast cash flows. The analysis calculates the effect of a reasonably possible movement of the currency rate against the Kuwaiti Dinar, with all other variables held constant on the profit and the fair value reserve (due to the change in fair value of equity investments at FVOCI).

KD 000's

	31 December 2021			*31 December 2020*		
Currency	***Change in currency rate %***	***Effect on profit***	***Effect on fair value reserve***	*Change in currency rate %*	*Effect on profit*	*Effect on fair value reserve*
U.S. Dollars	**+1**	**944**	**20**	+1	713	35
Bahraini Dinar	**+1**	**(1,073)**	**103**	+1	(913)	112

Price risk
This is the risk arising from the fluctuation in the market value of investments in– equity Sukuk, and real estate.

The effect on fair value reserve (as a result of a change in the fair value of equity investments at FVOCI at 31 December) due to a reasonably possible change in equity indices, with all other variables held constant is as follows:

KD 000's

	2021		*2020*	
	Change in equity price %	***Effect on fair value reserve***	*Change in equity price %*	*Effect on fair value reserve*
Market indices				
Boursa Kuwait	**+1**	**163**	+1	196
Other GCC indices	**+1**	**129**	+1	102

Operational risk
Operational risk is the risk of loss arising from systems failure, human error, processes or external events. When controls fail to perform, operational risks can cause damage to reputation, have legal or regulatory implications, or lead to financial loss. The Group cannot expect to eliminate all operational risks, but through a control framework and by monitoring and responding to potential risks, the Group is able to manage the risks. Controls include effective segregation of duties, access, authorization and reconciliation procedures, staff education and assessment processes, including the use of internal audit.

Kuwait Finance House K.S.C.P. and Subsidiaries
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

33 MARKET RISK (continued)

Operational risk (continued)
The Group has a set of policies and procedures, which is approved by its Board of Directors and applied to identify, assess and supervise operational risk in addition to other types of risks relating to the banking and financial activities of the Group. Operational risk managed by the Operational Risk Management, which reviews policies, procedures, products, services and support business lines in managing and monitoring operational risks as part of overall Group-wide risk management.

Operational Risk Management of the Group is in line with the CBK instructions concerning the general guidelines for internal controls and the sound practices for managing and monitoring operational risks in Group.

Country risk
Country risk is the risk that incidents within a country could have an adverse effect on the Group directly in impairing the value of the Group or indirectly through an obligor's inability to meet its obligations to the Group. Generally, these occurrences relate, but are not limited to: sovereign events such as defaults or restructuring; political events such as contested elections; restrictions on currency movements; non–market currency convertibility; regional conflicts; economic contagion from other events such as sovereign default issues or regional turmoil; banking and currency crisis; and natural disasters.

34 CAPITAL MANAGEMENT

The primary objectives of the Group's capital management are to ensure that the Group complies with regulatory capital requirements and that the Group maintains strong credit ratings and healthy capital ratios in order to support its business and to maximize shareholders' value.

The Group actively manages its capital base in order to cover risks inherent in the business. The adequacy of the Group's capital is monitored using, among other measures, the rules and ratios established by the Basel Committee on Banking Supervision (BIS rules/ratios) and adopted by the Central Bank of Kuwait in supervising the Group.

The Group's regulatory capital and capital adequacy ratios are calculated in accordance with CBK circular number 2/RB, RBA/336/2014 dated 24 June 2014 (Basel III) and its amendments are shown below:

KD 000's

Capital adequacy	***2021***	*2020*
Risk Weighted Assets	**13,402,087**	13,356,763
Capital required	**1,675,261**	1,669,595
Capital available		
Tier 1 capital	**2,300,266**	2,133,231
Tier 2 capital	**204,228**	208,266
Total capital	**2,504,494**	2,341,497
Tier 1 capital adequacy ratio	**17.16%**	15.97%
Total capital adequacy ratio	**18.69%**	17.53%

The Group's financial leverage ratio for the year ended 31 December 2021 is calculated in accordance with CBK circular number 2/RBA/343/2014 dated 21 October 2014 is shown below:

KD 000's

	2021	*2020*
Tier 1 capital	**2,300,266**	2,133,231
Total exposure	**23,655,882**	24,763,472
Financial leverage ratio	**9.72%**	8.61%

Kuwait Finance House K.S.C.P. and Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
As at 31 December 2021

35 FIDUCIARY ASSETS

The aggregate value of assets held in a trust or fiduciary capacity by the Group at 31 December 2021 amounted to KD 1,587,555 thousand (2020: KD 1,298,877 thousand).

Fees and commission income include fees of KD 4,651 thousand (2020: KD 4,108 thousand) arising from trust and fiduciary activities.

36 FAIR VALUES

The Group uses the following hierarchy for determining and disclosing the fair value by valuation technique:

Level 1: quoted (unadjusted) prices in active markets.
Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and
Level 3: other techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities as at 31 December 2021.

36 FAIR VALUES (continued)

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities as at 31 December 2020.

				KD 000's
Financial assets measured at fair value:	*(Level 1)*	*(Level 2)*	*(Level 3)*	*Total*
Venture capital at FVTPL (Note 12)	-	16,068	-	16,068
Equities at FVTPL (Note 12)	6,737	37,420	32,859	77,016
Equities at FVOCI (Note 12)	31,434	-	67,829	99,263
Sukuk at FVTPL (Note 11)	293,295	-	-	293,295
Sukuk at FVTOCI (Note 11)	2,106,827	-	84,681	2,191,508
Derivative financial assets:				
Forward contracts	-	4,834	-	4,834
Currency swaps	-	16,150	-	16,150
Non-financial assets:				
Investment properties	-	440,270	-	440,270
	2,438,293	514,742	185,369	3,138,404

				KD 000's
Financial liabilities measured at fair value:	*(Level 1)*	*(Level 2)*	*(Level 3)*	*Total*
Derivative financial liabilities:				
Forward contracts	-	1,277	-	1,277
Profit rate swaps	-	26,008	-	26,008
Currency swaps	-	46,474	-	46,474
Embedded precious metals	-	216	-	216
	-	73,975	-	73,975

Investments classified under level 1 are valued based on the quoted bid price. Investments classified under level 2 are valued based on the reported NAVs.

Level 3 investments included unquoted Sukuk of KD 60,090 thousand (2020: KD 84,681 thousand) and unquoted equity investments of KD 72,434 thousand (2020: KD 100,688 thousand). Investment in Sukuk included in this category represent Investment in Sukuk issued by sovereign entities, financial institutions and corporates. The fair values of unquoted Investment in Sukuk are estimated using discounted cash flow method using discount rate ranging from 1.2% to 6.4% (2020: 1.9% to 9.3%). Unquoted equity investments are fair valued using valuation technique that is appropriate in the circumstances. Valuation techniques include discounted cash flow models, observable market information of comparable companies, recent transaction information and net asset values. Significant unobservable inputs used in valuation techniques mainly include discount rate, terminal growth rate, revenue and profit estimates. The impact on the consolidated statement of financial position or the consolidated statement of income or the consolidated statement of changes in equity would be immaterial if the relevant risk variables used for fair value estimates to fair value the unquoted equity investments were altered by 5%.

Instruments disclosed in Note 27 are valued by discounting all future expected cash-flows using directly observable and quoted rate curves and spot/forward FX rates from recognised market sources (i.e. Reuters, Bloomberg, FinCAD, etc).

Investment properties have been valued based on valuations by valuers who hold a recognised and relevant professional qualification and have recent experience in the location and category of the investment properties being valued. The valuation reflects market conditions at the reporting date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at 31 December 2021

36 FAIR VALUES (continued)

All investment properties are valued using observable market inputs. Market comparable approach is used for all investment properties, where market price per square meter and annual income are significant inputs to the valuation.

During the year ended 31 December 2021, there were no transfers between Level 1 and Level 2 fair value measurements.

The following table below shows a reconciliation of the opening and the closing amount of level 3 financial assets measured at fair value:

	KD 000's	
	2021	*2020*
As at 1 January	**185,369**	201,799
Re-measurement	**(54)**	52
Disposal, net	**(22,712)**	(16,482)
Transfer to level-1	**(30,079)**	-
As at 31 December	**132,524**	185,369
